PHUNWARE

# Phunware Releases "Healthy Spaces" Mobile App Update for Android on Google Play

AUSTIN, Texas--(BUSINESS WIRE)-- Phunware, Inc. (NASDAQ: PHUN) (the "Company"), a fully-integrated enterprise cloud platform for mobile that provides products, solutions, data and services for brands worldwide, today announced a new release of its mobile application software, Healthy Spaces, on Google Play for Android so individuals and businesses can easily schedule gatherings and enable contactless check-in to screen attendees before or upon arrival at venues and facilities.

Healthy Spaces allows users to build and maintain health profiles to include tracking, recording and evaluating key medical activities, habits and symptoms. Mobile application users can then create, manage and join groups across their professional and social networks for easy monitoring and check-ins. The mobile application user profiles help to maintain healthy spaces by making key health attributes such as daily temperature easily accessible for review, prior to safely gathering or interacting with larger groups of people.

"People are excited to be social again and businesses need tools like Healthy Spaces that will allow them to operate in a safer and more responsible manner," said Randall Crowder, COO of Phunware. "With this latest release, any individual or business can use Healthy Spaces to seamlessly screen people before an event, a day at work or even a well-deserved night out."

In addition to being available as a stand-alone mobile application portfolio, Healthy Spaces will soon be available for integration into existing iOS and Android mobile applications using a proprietary Software Development Kit (SDK). Existing Phunware customers will be able to leverage the Healthy Spaces SDK and access additional features through the Company's Multiscreen-as-a-Service (MaaS) cloud platform for mobile, enabling safer returns to work for businesses, returns to campus for academic institutions and returns to being social for other groups and organizations.

Capabilities of MaaS, with the addition of the Healthy Spaces SDK, will include, but will not be limited to:

- Providing individuals and groups with pre-screening guidelines and questions upon arrival at a location
- Tracking important health, habits and risk information among individuals and groups through user profiles
- Scheduling, reviewing and determining if an individual or group is approved to gather based on health attributes and their associated potential risks
- Managing and enforcing social distancing and health protocols, including proactive and reactive messaging, reminders and notifications
- Monitoring and tracing movements and activities (subject to both facility readiness and

the integration of Phunware's [MaaS Location Based Services](#) SDK)

[Healthy Spaces](#) is also available for download on the [Apple App Store](#) for [iOS](#) as well. The Company expects to release this new update for iOS users by the end of the month.

**Safe Harbor Clause and Forward-Looking Statements**

This press release includes forward-looking statements. All statements other than statements of historical facts contained in this press release, including statements regarding our future results of operations and financial position, business strategy and plans, and our objectives for future operations, are forward-looking statements. The words "anticipate," "believe," "continue," "could," "estimate," "expect," "expose," "intend," "may," "might," "opportunity," "plan," "possible," "potential," "predict," "project," "should," "will," "would" and similar expressions that convey uncertainty of future events or outcomes are intended to identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking.

The forward-looking statements contained in this press release are based on our current expectations and beliefs concerning future developments and their potential effects on us. Future developments affecting us may not be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) and other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading "Risk Factors" in our filings with the Securities and Exchange Commission (SEC), including our reports on Forms 10-K, 10-Q, 8-K and other filings that we make with the SEC from time to time. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws. These risks and others described under "Risk Factors" in our SEC filings may not be exhaustive.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and developments in the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this press release. In addition, even if our results or operations, financial condition and liquidity, and developments in the industry in which we operate are consistent with the forward-looking statements contained in this press release, those results or developments may not be indicative of results or developments in subsequent periods.

**About Phunware, Inc.**

Everything You Need to Succeed on Mobile — Transforming Digital Human Experience
