Balance Sheet

As of September 30, 2018, the company had \$245.0 million outstanding on the 6.75% senior secured notes due 2024 (the "Notes") and \$10.2 million outstanding on the Asset Based Revolving Credit Facility ("ABL Facility") as of September 30, 2018.

Acquisitions and Divestitures

The following transactions were completed since July 1, 2018:

- On October 31, 2018, the company closed on the sale of radio stations KCRO-AM and KOTK-AM in Omaha, Nebraska for \$1.4 million in cash. Based on its then intent to sell these assets, the company recorded the assets as held for sale at June 30, 2018 and recognized an estimated loss of \$1.6 million based on the sale price and the estimated costs to sell. The buyer began programming the stations under an LMA on August 8, 2018.

- On September 11, 2018, the company acquired selected assets of radio station KTRB-AM in San Francisco from a related party for \$5.1 million in cash. The company had been operating the radio station under an LMA as of June 24, 2016.
- On August 28, 2018 the company sold radio station WQVN-AM (formerly WKAT-AM) in Miami, Florida for \$3.5 million in cash. The buyer had been operating the radio station under an LMA as of December 1, 2017. The company recorded an estimated loss on the sale of assets of \$4.8 million as of December 31, 2017, based on the probability of the sale, which reflected the sales price as compared to the carrying value of the assets and the estimated costs of the sale.
- On August 9, 2018, the company acquired the Hilary Kramer Financial Newsletter and related assets for \$0.4 million in cash and may pay up to an additional \$0.1 million of contingent earn-out consideration to be paid over the next two years based on the achievement of certain revenue benchmarks.
- On August 7, 2018, the company acquired Just1Word mobile applications and related assets for \$0.3 million in cash with up to an additional \$0.1 million of contingent earn-out consideration to be paid over the next two years based on the achievement of certain revenue benchmarks. Just1Word is a Bible Reader with fully formatted text with multiple versions and languages available.
- On August 6, 2018, the company sold radio station KGBI-FM in Omaha, Nebraska for \$3.2 million. The company recorded an estimated loss on the sale of \$3.2 million as of June 30, 2018, which reflects the sales price as compared to the carrying value of the assets and the estimated cost to sell.
- On July 25, 2018, the company acquired selected assets of radio station KZTS-AM (formerly KDXE-AM) and an FM Translator in Little Rock, Arkansas for \$0.2 million in cash.
- On July 24, 2018, the company acquired the Childrens-Ministry-Deals.com website and related assets for \$3.7 million in cash. The company paid \$3.5 million in cash upon closing and may pay an additional \$0.2 million in cash within twelve months from closing provided that the seller meet certain post-closing requirements with regard to intellectual property.

Pending transactions:

- On April 26, 2018, the company entered an agreement to exchange radio station KKOL-AM, in Seattle, Washington for KPAM-AM in Portland, Oregon. The transaction is expected to close in the fourth quarter of 2018.

Conference Call Information

Salem will host a teleconference to discuss its results on November 7, 2018 at 2:00 p.m. Pacific Time. To access the teleconference, please dial (877) 524-8416, and then ask to be joined into the Salem Media Group Third Quarter 2018 call or listen via the investor relations portion of the company's website, located at investor.salemmedia.com. A replay of the teleconference will be available through November 21, 2018 and can be heard by dialing (877) 660-6853, passcode 13683998 or on the investor relations portion of the company's website, located at investor.salemmedia.com.

Fourth Quarter 2018 Outlook

For the fourth quarter of 2018, the company is projecting total revenue to be between flat and a decrease of 2% from fourth quarter 2017 total revenue of \$67.2 million. The company is also projecting operating expenses before gains or losses on the disposition of assets, stock-based compensation expense, changes in the estimated fair value of contingent earn-out consideration, impairments, depreciation expense and amortization expense to increase between 1% and 4% compared to the fourth quarter of 2017 non-GAAP operating expenses of \$53.9 million.

A reconciliation of non-GAAP operating expenses, excluding gains or losses on the disposition of assets, stock-based compensation expense, changes in the estimated fair value of contingent earn-out consideration, impairments, depreciation expense and amortization expense to the most directly comparable GAAP measure is not available without unreasonable efforts on a forward-looking basis due to the potential high variability, complexity and low visibility with respect to the charges excluded from this non-GAAP financial measure, in particular, the change in the estimated fair value of earn-out consideration, impairments and gains or losses from the disposition of fixed assets. The company expects the variability of the above charges may have a significant, and potentially unpredictable, impact on its future GAAP financial results.

Forward-Looking Statements

Statements used in this press release that relate to future plans, events, financial results, prospects or performance are forward-looking statements as defined under the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those anticipated as a result of certain risks and uncertainties, including but not limited to the ability of Salem to close and integrate announced transactions, market acceptance of Salem's radio station formats, competition from new technologies, adverse economic conditions, and other risks and uncertainties detailed from time to time in Salem's reports on Forms 10-K, 10-Q, 8-K and other filings filed with or furnished to the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Salem undertakes no obligation to update or revise any forward-looking statements to reflect new information, changed circumstances or unanticipated events.

(1) Regulation G

Management uses certain non-GAAP financial measures defined below in communications with investors, analysts, rating agencies, banks and others to assist such parties in understanding the impact of various items on its financial statements. The company uses these non-GAAP financial measures to evaluate financial results, develop budgets, manage expenditures and as a measure of performance under compensation programs.

The company's presentation of these non-GAAP financial measures should not be considered as a substitute for or superior to the most directly comparable financial measures as reported in accordance with GAAP.

Regulation G defines and prescribes the conditions under which certain non-GAAP financial information may be presented in this earnings release. The company closely monitors EBITDA, Adjusted EBITDA, Station Operating Income ("SOI"), Same Station net broadcast revenue, Same Station broadcast operating expenses, Same Station Operating Income, Digital Media Operating Income, Publishing Operating Income (Loss), and operating expenses excluding gains or losses on the disposition of assets, stock-based compensation, changes in the estimated fair value of contingent earn-out

consideration, impairments, depreciation and amortization, all of which are non-GAAP financial measures. The company believes that these non-GAAP financial measures provide useful information about its core operating results, and thus, are appropriate to enhance the overall understanding of its financial performance. These non-GAAP financial measures are intended to provide management and investors a more complete understanding of its underlying operational results, trends and performance.

The company defines Station Operating Income ("SOI") as net broadcast revenue minus broadcast operating expenses. The company defines Digital Media Operating Income as net Digital Media Revenue minus Digital Media Operating Expenses. The company defines Publishing Operating Income (Loss) as net Publishing Revenue minus Publishing Operating Expenses. The company defines EBITDA as net income before interest, taxes, depreciation, and amortization. The company defines Adjusted EBITDA as EBITDA before gains or losses on the disposition of assets, before changes in the estimated fair value of contingent earn-out consideration, before changes in the fair value of interest rate swap, before impairments, before net miscellaneous income and expenses, before gain on bargain purchase, before (gain) loss on early retirement of long-term debt and before non-cash compensation expense. SOI, Digital Media Operating Income, Publishing Operating Income (Loss), EBITDA and Adjusted EBITDA are commonly used by the broadcast and media industry as important measures of performance and are used by investors and analysts who report on the industry to provide meaningful comparisons between broadcasters. SOI, Digital Media Operating Income, Publishing Operating Income (Loss), EBITDA and Adjusted EBITDA are not measures of liquidity or of performance in accordance with GAAP and should be viewed as a supplement to and not a substitute for or superior to its results of operations and financial condition presented in accordance with GAAP. The company's definitions of SOI, Digital Media Operating Income, Publishing Operating Income (Loss), EBITDA and Adjusted EBITDA are not necessarily comparable to similarly titled measures reported by other companies.

The company defines Adjusted Free Cash Flow as Adjusted EBITDA less cash paid for capital expenditures, less cash paid for income taxes, and less cash paid for interest. The company considers Adjusted Free Cash Flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated by its operations after cash paid for capital expenditures, cash paid for income taxes and cash paid for interest. A limitation of Adjusted Free Cash Flow as a measure of liquidity is that it does not represent the total increase or decrease in its cash balance for the period. The company uses Adjusted Free Cash Flow, a non-GAAP liquidity measure, both in presenting its results to stockholders and the investment community, and in its internal evaluation and management of the business. The company's presentation of Adjusted Free Cash Flow is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. The company's definition of Adjusted Free Cash Flow is not necessarily comparable to similarly titled measures reported by other companies.

The company defines Same Station net broadcast revenue as broadcast revenue from its radio stations and networks that the company owns or operates in the same format on the first and last day of each quarter, as well as the corresponding quarter of the prior year. The company defines Same Station broadcast operating expenses as broadcast

operating expenses from its radio stations and networks that the company owns or operates in the same format on the first and last day of each quarter, as well as the corresponding quarter of the prior year. The company defines Same Station SOI as Same Station net broadcast revenue less Same Station broadcast operating expenses. Same Station operating results include those stations that the company owns or operates in the same format on the first and last day of each quarter, as well as the corresponding quarter of the prior year. Same Station operating results for a full calendar year are calculated as the sum of the Same Station-results for each of the four quarters of that year. The company uses Same Station operating results, a non-GAAP financial measure, both in presenting its results to stockholders and the investment community, and in its internal evaluations and management of the business. The company believes that Same Station operating results provide a meaningful comparison of period over period performance of its core broadcast operations as this measure excludes the impact of new stations, the impact of stations the company no longer owns or operates, and the impact of stations operating under a new programming format. The company's presentation of Same Station operating results are not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. The company's definition of Same Station operating results is not necessarily comparable to similarly titled measures reported by other companies.

For all non-GAAP financial measures, investors should consider the limitations associated with these metrics, including the potential lack of comparability of these measures from one company to another.

The Supplemental Information tables that follow the condensed consolidated financial statements provide reconciliations of the non-GAAP financial measures that the company uses in this earnings release to the most directly comparable measures calculated in accordance with GAAP. The company uses non-GAAP financial measures to evaluate financial performance, develop budgets, manage expenditures, and determine employee compensation. The company's presentation of this additional information is not to be considered as a substitute for or superior to the directly comparable measures as reported in accordance with GAAP.

The company defines Adjusted Free Cash Flow (1) as Adjusted EBITDA (1) less cash paid

for capital expenditures, less cash paid for income taxes, and less cash paid for interest. The company considers Adjusted Free Cash Flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated by its operations after cash paid for capital expenditures, cash paid for income taxes and cash paid for interest. A limitation of Adjusted Free Cash Flow as a measure of liquidity is that it does not represent the total increase or decrease in its cash balance for the period. The company uses Adjusted Free Cash Flow, a non-GAAP liquidity measure, both in presenting its results to stockholders and the investment community, and in its internal evaluation and management of the business. The company's presentation of Adjusted Free Cash Flow is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. The company's definition of Adjusted Free Cash Flow is not necessarily comparable to similarly titled measures reported by other companies.

The table below presents a reconciliation of Adjusted Free Cash Flow to net cash provided by operating activities, the most directly comparable GAAP measure. Adjusted Free Cash Flow is a non-GAAP liquidity measure that is not to be considered a substitute for or superior to the directly comparable measures reported in accordance with GAAP.
