## Cummins-Meritor Regional Brake Training Events Return in 2024

COLUMBUS, Ind.--(BUSINESS WIRE)-- [Cummins-Meritor®](#), a leading provider of integrated drivetrain solutions, today announced the return of their live, in-person aftermarket parts training sessions, open to technicians nationwide. The [2024 Regional Training](#) program focuses on maintenance and repair of heavy-duty commercial vehicle brakes, including both cam and air disc brake systems. From June through November, training events will be hosted across 14 cities in the United States: Lakeland, FL, Atlanta, GA, Long Island, NY, Birmingham, AL, Deerfield Beach, FL, Novi, MI, Louisville, KY, Pittsburgh, PA, Seattle, WA, Minneapolis, MN, Syracuse, NY, Philadelphia, PA, Baltimore, MD, and Arlington, TX.

With morning and afternoon options per location, each training event is condensed into a 4-hour format, so technicians receive important information in a concise manner with minimal disruption to their operations.

“Our trainings cover critical areas such as brake adjustment, brake balance, automatic slack adjusters, reduced stopping distance (RSD), preventative maintenance and inspection, and diagnostic procedures,” said Joseph Baumer, technical training manager, at Cummins-Meritor. “Our last regional training events were held in 2020 and we are proud to bring them back as part of our comprehensive aftermarket training offering.”

The in-person training events compliment Cummins-Meritor’s online training portal, BullPen, which offers a wide range of on-demand training courses, accessible 24/7, empowering users to complete modules covering a diverse range of Meritor-branded products at their convenience.

Complete schedule and registration information for Cummins-Meritor’s regional brake training sessions is available on [MeritorPartsXpress.com](#). Capacity is limited so online registration is required to secure a seat.

### About Cummins-Meritor®

Cummins-Meritor® is a business unit within Cummins Inc., a global power technology leader that comprises five business segments – Components, Engine, Distribution, Power Systems and Accelera by Cummins – supported by our global manufacturing and extensive service and support network, skilled workforce and vast technological expertise. Cummins is

committed to its Destination Zero strategy, which is grounded in the company's commitment to sustainability and helping its customers successfully navigate the energy transition with its broad portfolio of products. The products range from advanced diesel, natural gas, electric and hybrid powertrains and powertrain-related components including filtration, aftertreatment, turbochargers, fuel systems, valvetrain technologies, controls systems, air handling systems, automated transmissions, axles, drivelines, brakes, suspension systems, electric power generation systems, batteries, electrified power systems, hydrogen production technologies and fuel cell products. Headquartered in Columbus, Indiana (U.S.), since its founding in 1919, Cummins employs approximately 75,500 people committed to powering a more prosperous world through three global corporate responsibility priorities critical to healthy communities: education, environment and equality of opportunity. Cummins serves its customers online, through a network of company-owned and independent distributor locations, and through thousands of dealer locations worldwide and earned about \$735 million on sales of \$34.1 billion in 2023.

In 2022, Cummins acquired Meritor, a global supplier of drivetrain, mobility, braking, aftermarket and electric powertrain solutions for commercial vehicle and industrial markets. Meritor's integration positions Cummins as a leading provider of integrated powertrain solutions across internal combustion and electric power applications. Now a business unit within Cummins' Components segment, Cummins-Meritor's aftermarket offers brake, wheel-end, drivetrain, steering and suspension products for commercial vehicles and trailers in North America, with 19 key aftermarket product lines with more than 240,000 active part numbers for trucks, tractors, trailers, buses, coaches, fire trucks and other specialty vehicles. Strategic aftermarket brands include: Meritor Genuine, Meritor, and Euclid.

The company's expert customer support team provides industry-leading training and technical support, and self-service tools are available at [MeritorPartsXpress.com](https://www.meritorparts.com) and [parts.cummins.com](https://parts.cummins.com)
