

PORTLAND, Ore., July 14, 2021 /PRNewswire/ -- SensiML™ Corporation, a leading developer of AI tools for building intelligent Internet of Things (IoT) endpoints, today announced it has signed a worldwide distribution agreement with Digi-Key Electronics. Through the agreement, Digi-Key now offers the [Basic Edition](#) of SensiML's Analytics Toolkit globally for customers who need a complete development workflow for data collection, labeling, model generation, and test/validation of embedded AI.

"Our SensiML Analytics Toolkit is offered as a quarterly SaaS plan with service levels that fit the needs of developers," said Chris Rogers, CEO of SensiML. "Having Digi-Key as a distributor enables us to drive growth and reach many new customers, and we look forward to a successful relationship between our companies."

About SensiML

SensiML, a subsidiary of QuickLogic (NASDAQ: QUIK), offers cutting-edge software that enables ultra-low power IoT endpoints that implement AI to transform raw sensor data into meaningful insight at the device itself. The company's flagship solution, the SensiML Analytics Toolkit, provides an end-to-end development platform spanning data collection,

labeling, algorithm and firmware auto generation, and testing. The SensiML Toolkit supports Arm® Cortex®-M class and higher microcontroller cores, Intel® x86 instruction set processors, and heterogeneous core QuickLogic SoCs and QuickAI platforms with FPGA optimizations.
