TACOMA, Wash.--(BUSINESS WIRE)-- TrueBlue, Inc. (NYSE:TBI) announced today its fiscal third quarter 2017 results.

Revenue was \$661 million, a decrease of 5 percent, compared to revenue of \$697 million in the fiscal third quarter of 2016. These trends combined with the continued progress of our digital strategy position us well for future revenue growth. We are committed to driving higher shareholder returns through organic revenue growth strategies and share repurchases."

The company also announced that its Board of Directors authorized a \$100 million stock repurchase program. "The company is producing strong cash flow and the balance sheet is in great shape," TrueBlue CFO Derrek Gafford said. - (1) Segment earnings before interest, taxes, depreciation and amortization ("Segment EBITDA") is a primary measure of segment performance. Segment EBITDA includes net sales to third parties, related cost of sales, selling, general and administrative expenses, and goodwill and intangible asset impairment charge directly attributable to the reportable segment together with certain allocated corporate general and administrative expenses. Segment EBITDA excludes unallocated corporate general and administrative expenses. Adjusted Segment EBITDA is a non-GAAP financial measure and further excludes acquisition/integration and other costs, goodwill and intangible asset impairment charge, and Work Opportunity Tax Credit third-party processing fees. Adjusted Segment EBITDA is a key measure used by management to assess performance and, in our opinion, enhances comparability and provides investors with useful insight into the underlying trends of the business. Adjusted Segment EBITDA should not be considered a measure of financial performance in isolation or as an alternative to Income from operations in the Consolidated Statements of Operations in accordance with U.S. GAAP, and may not be comparable to similarly titled measures of other companies.
- (2) Beginning in the fourth quarter of 2016, we changed our methodology for allocating certain corporate costs to our segments, which decreased our corporate unallocated expenses. We have adjusted the prior year amounts to reflect this change for consistency purposes.
