KORE Executive to Speak at CTIA Super Mobility 2015

Machine-to-Machine Communications and Internet-of-Things Expert to Share Insight on Key Panel at Co-Located M2M Zone

LAS VEGAS--(BUSINESS WIRE)-- **CTIA Super Mobility 2015—**KORE, the world's largest managed wireless network services provider specializing in Internet-of-Things (IoT) and machine-to-machine (M2M) communications, today announced that Felix Chuang, director of sales engineering, will be participating in a key panel during the co-located M2M Zone during CTIA Super Mobility 2015. KORE is also a sponsor of the "Inside the Building of a Smart City" breakfast panel discussion, hosted by *FierceWireless.* The breakfast will take place on Wednesday, September 9 at 7:30 a.m. PDT. In addition, KORE's PRiSM*Pro* is a finalist for the MobITs awards in the Mobile Applications, Development & Platforms category, which is part of the 2015 CTIA Awards. The winners will be announced during a ceremony at the show on Thursday, September 10, 2015 at 2:00 p.m. PDT. Lastly, KORE will be demonstrating its specialized IoT and M2M network services in Booth #4832 at the show, taking place at the Sands Expo & Convention Center in Las Vegas, September 9-11.

In the "Connectivity Options Multiply" session, Chuang and his fellow panelists will discuss what next-generation cellular networks can bring to M2M and the integration of satellite into these service options. In addition, the panel will discuss how incubator programs have become hotbeds for IoT startups, while also touching on how unlicensed spectrum could potentially change the cellular business model.

What: "Connectivity Options Multiply" panel discussion

Who: Panelists include:
        -- Felix Chuang, director of sales engineering, KORE
        -- David Wigglesworth, VP Internet of Everywhere, Inmarsat
        -- John Horn, CEO, On-Ramp Wireless
        -- Andy Castonguay, principal analyst, Machina Research

When: September 10, 2015 from 2:15 p.m. PDT

Where: CTIA Super Mobility 2015 – M2M Zone
        Lido Room 3103
        Sands Expo & Convention Center

About the Speaker

Felix Chuang is Director of Sales Engineering. He has twenty years of experience in the Internet, wireless, and e-commerce industries in a broad range of roles such as product management, business development, and IT/operations. He started his technology career as

the first full-time salesperson for MindSpring, one of the first nationwide Internet Service Providers. That was the first step for a career spent in high-growth technology enterprises. He joined KORE as Product Marketing/Management for global connectivity. He is a graduate of Emory University.

About KORE

KORE is the world's largest managed communications solutions provider specializing in Internet of Things (IoT) and Machine to Machine (M2M) markets. Providing unified control and management for cellular and satellite network service delivery in more than 180 countries worldwide, KORE empowers its application, hardware and wireless operator partners to efficiently deliver M2M solutions for connected devices across the globe. M2M applications in industries as diverse as healthcare, utilities, enterprise IT, transaction processing and fleet management rely on the KORE network to deliver operational efficiencies and cost-savings. KORE offers a range of technologies — including GSM, HSPA, CDMA EV-DO and LTE, as well as satellite services — that ensure the greatest possible reliability and coverage. Through its strategic growth plan, including the recent acquisition of RacoWireless, KORE is primed to deliver an unprecedented portfolio of connected technology, location-aware solutions and management tools in a way that has never before been experienced in the industry.
