KORE Nominated for 2016 CTIA E-Tech Award

Two KORE Platforms Recognized as Emerging Technology Innovations

LAS VEGAS--(BUSINESS WIRE)-- [KORE](#), the people powering IoT innovations and opportunities, today announced that its business management platform, PRiSMPro™, and its location-based solutions (LBS) platform, Position Logic, have been nominated for [2016 CTIA Emerging Technology \(E-Tech\) awards](#) in the 'Everything For Good' category. Created in 2006, the CTIA Emerging Technology (E-Tech) Awards honor the industry's emerging, innovative and cutting-edge mobile services, solutions and technology. The 'Everything for Good' category showcases mobile technology making a difference in society and the world.

"KORE appreciates the recognition from CTIA for PRiSMPro and Position Logic as platforms helping customers and end users to benefit society," said Alex Brisbane, CEO of KORE. "These designations as 2016 award finalists provides further support of our goal to deliver solutions and platforms that enable our customers to better their businesses and operations while also impacting the broader population."

PRiSMPro provides a robust M2M business management platform for IoT solutions. The platform enables users to easily order wireless communications services, activate and deactivate devices and change billing and usage information. Real-time information is available to control costs, optimize services delivery and provide the best experience for end users. Users are able to check the status of network issues, report and check status of technical problems and monitor coverage mapping with custom reporting and technical support.

Position Logic is a leading B2B location-based services provider committed to supporting clients' business with integrated applied business intelligence, precision technology and customized services and solutions. Position Logic's software platform integrates virtually every signaling device into a scalable web-based software hub from which all devices can be monitored—in real time, anywhere in the world.

The winners of the 2016 CTIA E-Tech Awards will be announced during a ceremony at [CTIA Super Mobility Week 2016](#) on September 8, 2016.

About KORE

KORE provides the people, expertise and technology to support the many visions of the IoT, from the *Inspiration of Things* to the *Innovation of Things* to the *Internet of Things*. Founded in 2003, KORE quickly rose to become the world's largest managed network services provider specializing in Internet of Things (IoT) and Machine to Machine (M2M) communications. Today, KORE is a global leader in software service and platforms that power the IoT, with millions of active on-network units. KORE is the brand powering other

leading brands, including some of the world's largest enterprise customers. KORE's singular customer-centric focus is to identify and develop solutions that help clients realize IoT innovations and accelerate time-to-market schedules. KORE has over 350 people who serve customers in 110 countries, empowering new business models and opportunities to monetize the IoT. KORE: the people powering IoT.
