Norwegian Cruise Line Holdings Reports First Quarter 2025 Financial Results

Company delivers solid first quarter performance

Full year 2025 profitability guidance maintained

MIAMI, April 30, 2025 (GLOBE NEWSWIRE) -- Norwegian Cruise Line Holdings Ltd. (NYSE: NCLH) (together with NCL Corporation Ltd. ("NCLC"), "Norwegian Cruise Line Holdings", "Norwegian", "NCLH" or the "Company") today reported financial results for the first quarter ended March 31, 2025 and provided guidance for the second quarter and full year 2025.

Highlights

- Generated total revenue of \$2.1 billion. GAAP net loss was (\$40.3) million, with EPS of (\$0.09).
- Adjusted EBITDA¹ of \$453 million was above guidance. Adjusted EPS was \$0.07.
- Company maintains full year 2025 Adjusted EBITDA and Adjusted EPS guidance.
- Announced the execution of long-term charter agreements for four vessels across our three brands.
- Took delivery of Norwegian Aqua, the first vessel in Norwegian Cruise Line's cutting-edge Prima Plus Class.
- Announced plans to expand the amenities at Great Stirrup Cay, the Company's private island destination in the Bahamas, which are expected to open later this year alongside the Company's new multi-ship pier.

"We kicked off 2025 with solid first quarter results, demonstrating the continued momentum of our Charting the Course strategy in building a strong foundation for long-term success and delivering on our vision for guests to Vacation Better | Experience More," said Harry Sommer, president and chief executive officer of Norwegian Cruise Line Holdings Ltd. "We welcomed Norwegian Aqua—NCL's first Prima Plus Class vessel and completed impactful refurbishments on Norwegian Bliss and Norwegian Breakaway. In addition, our recently announced new amenities at Great Stirrup Cay will further enhance the guest experience on our Caribbean voyages, which continue to grow as we expand our fleet."

"Looking ahead, our proven track record of long-term Net Yield growth, strong cost control, continued record guest satisfaction scores and guest repeat rates give us confidence about our future. Thus, as we remain mindful of the evolving macroeconomic environment and despite recent volatility, we are maintaining our full year 2025 Adjusted EBITDA and Adjusted EPS guidance. While we recognize there may be potential pressures on the top line, we believe these can be effectively offset by the continued execution of our cost savings initiatives. Our focus remains on managing the business for the long term - balancing disciplined pricing and cost control with guest experience and strategic investments for the future."

¹ See “Terminology”, “Non-GAAP Financial Measures” and “Outlook and Guidance” below for additional information about Adjusted EPS, Adjusted EBITDA and other non-GAAP financial measures.

First Quarter 2025 Highlights

- Generated total revenue of \$2.1 billion, a ~3% decrease compared to first quarter 2024 primarily due to a 2% decline in Capacity Days related to increased Berths, due to larger ships, in Dry-dock, and a strategic reduction in passenger air participation rates. GAAP net loss was (\$40.3) million, a \$57.6 million decline compared to first quarter 2024, with EPS decreasing \$0.13 to (\$0.09). Results were driven by reduced Capacity Days in the quarter and foreign exchange losses of \$23 million or \$0.05 in 2025 compared to foreign exchange gains of \$13 million or \$0.03 in 2024.
- Gross margin per Capacity Day was up 5% versus 2024 on an as reported basis and up 7% on a Constant Currency basis. Net Yield growth increased over prior year by approximately 0.6% on an as reported and 1.2% on a Constant Currency basis, above guidance of 0.5%.
- Gross Cruise Costs per Capacity Day was approximately \$297 in the first quarter of 2025 compared to \$300 in 2024. Adjusted Net Cruise Cost excluding Fuel per Capacity Day was approximately \$169 on an as reported and Constant Currency basis, and was up 2.9% on an as reported and 3.0% on a Constant Currency basis compared to \$165 in 2024, and better than guidance of 3.9%. Excluding an \$8 impact from higher Dry-dock days and related expenses, Adjusted Net Cruise Cost excluding Fuel per Capacity Day was up approximately \$2, or 1%, year-over-year driven by costs associated with the delivery of Norwegian Aqua.
- Adjusted EBITDA declined 2% to \$453 million compared to \$464 million in 2024, above guidance of \$435 million. Adjusted EPS declined to \$0.07, slightly below guidance due to foreign exchange losses of \$0.05.
- Total debt was \$14.0 billion. Net Leverage was 5.7x at March 31, 2025, a 0.4x increase from December 31, 2024 primarily due to the delivery of Norwegian Aqua in March, in line with guidance.

Recent Highlights

- Successfully refinanced the majority of the 2025 Exchangeable Notes by exchanging \$353.9 million of the 2025 Exchangeable Notes for \$353.9 million of 0.875% 2030 Exchangeable Notes and a cash payment of \$64.0 million, plus accrued and unpaid interest on the 2025 Exchangeable Notes that were exchanged to, but excluding, the closing date of the exchange. Additionally, the Company completed an equity offering of 3,358,098 ordinary shares to the holders at a price of \$19.06 per share and used the net proceeds from the equity offering, together with cash on hand, to make the cash payment. This transaction was Net Leverage-neutral and reduced our diluted share count by approximately 15.5 million shares.
- Executed long-term charter agreements, each inclusive of purchase options, for four vessels across our three brands: Norwegian Sky and Norwegian Sun from Norwegian Cruise Line, Seven Seas Navigator from Regent Seven Seas Cruises and Insignia from Oceania Cruises.
- Announced development plans to expand the offerings at Great Stirrup Cay. Debuting later this year alongside the completion of a new multi-ship pier, guests can look forward to a new welcome center, a new extensive pool area with swim-up bar, family splash pad and poolside cabanas, and an island-wide tram system designed to support seamless exploration of the island. Several onboard premium concepts

featured on Norwegian Cruise Line ships will also come to the island, including the adults-only Vibe Beach Club and Horizon Park, a recreation and lawn games area.

2025 Outlook

The Company is updating its full year 2025 Net Yield and Adjusted Net Cruise Cost Excluding Fuel guidance to reflect recent booking trends and changes in the macroeconomic environment. While the Company expects some pressure on Net Yield, it plans to effectively offset this impact through additional cost savings measures. As a result, full year 2025 guidance for Adjusted EBITDA and Adjusted EPS remains unchanged. A summary of the updated full year guidance is provided below:

- 2025 full year Net Yield guidance on a Constant Currency basis is expected to increase between 2.0% and 3.0% versus 2024, compared to previous guidance of ~3.0%.
- 2025 Adjusted Net Cruise Cost excluding Fuel per Capacity Day is expected to grow between 0% and 1.25% on a Constant Currency basis versus 2024, compared to previous guidance of ~1.25%.
- 2025 full year Adjusted EBITDA guidance is unchanged and expected to be approximately \$2.72 billion, or an 11.0% increase versus 2024.
- Adjusted Operational EBITDA Margin guidance for the full year 2025 is unchanged and expected to be approximately 37%.
- Full year Adjusted Net Income guidance is expected to be approximately \$1,045 million. Adjusted EPS guidance is unchanged and is expected to be \$2.05, increasing approximately 13% year-over-year.
- Net Leverage guidance is expected to end the year at approximately 5x.
- Company remains committed to Charting the Course 2026 financial targets.

Booking Environment Update

The Company has seen softening in its 12-month forward booked position but continues to remain within the optimal range, even amid ongoing macroeconomic volatility. Occupancy was 101.5% for the first quarter of 2025, in-line with guidance, and down year-over-year due to increased Dry-dock capacity and repositioning days on large vessels. The Company's advance ticket sales balance, including the long-term portion, ended the first quarter of 2025 at \$3.9 billion, up 2.6% year-over-year.

Liquidity and Financial Position

The Company is committed to prioritizing efforts to optimize its balance sheet and reduce Net Leverage. As of March 31, 2025, the Company had total debt of \$14.0 billion and Net Debt of \$13.8 billion. Net Leverage increased, as expected, by approximately 0.4x compared to December 31, 2024, ending the quarter at 5.7x, due to the delivery of Norwegian Aqua in March 2025.

At quarter-end, liquidity was \$1.4 billion including approximately \$184.4 million of cash and cash equivalents, \$1.0 billion of availability under our Revolving Loan Facility, and other commitments.

"In April, we refinanced the majority of our 2025 Exchangeable Notes with new 2030 Exchangeable Notes in a shareholder-accretive transaction that reduced our diluted share count by approximately 15.5 million shares without increasing our Net Leverage," said Mark A. Kempa, executive vice president and chief financial officer of Norwegian Cruise Line

Holdings Ltd. “Reducing Net Leverage remains our top priority and we expect to end the year with Net Leverage at approximately 5x. Furthermore, our cost savings initiatives continue to deliver tangible results, positioning us well to cushion potential macroeconomic pressures.”

Outlook and Guidance

In addition to announcing the results for the first quarter 2025, the Company also provided guidance for the second quarter and full year 2025, along with accompanying sensitivities, subject to changes in the broad macroeconomic environment. The Company does not provide certain estimated future results on a GAAP basis because the Company is unable to predict, with reasonable certainty, the future movement of foreign exchange rates or the future impact of certain gains and charges. These items are uncertain and will depend on several factors, including industry conditions, and could be material to the Company’s results computed in accordance with GAAP. The Company has not provided reconciliations between the Company’s 2025 guidance and the most directly comparable GAAP measures because it would be too difficult to prepare a reliable U.S. GAAP quantitative reconciliation without unreasonable effort.

	2025 Guidance			
	Second Quarter 2025		Full Year 2025	
	As Reported	Constant Currency	As Reported	Constant Currency
Net Yield	~2.5%	~2.5%	~1.8%-2.8%	~2.0%-3.0%

Fuel

The Company reported fuel expense of \$175 million in the quarter. Fuel price per metric ton, net of hedges, decreased to \$687 from \$735 in 2024. Fuel consumption of 255,000 metric tons was in-line with projections. The following reflects the Company's expectations regarding fuel consumption and pricing, along with accompanying sensitivities.

	Second Quarter 2025	Full Year 2025
Fuel consumption in metric tons ¹	245,000	1,010,000
Fuel price per metric ton, net of hedges ²	\$ 680	\$ 687
Effect on Adjusted EPS of a 10% change in fuel prices, net of hedges	\$ 0.01	\$ 0.04

(1) Fuel prices are based on forward curves as of 4/9/2025.

(2) Total fuel consumption for the full year 2025 is expected to be comprised mainly of heavy fuel oil and marine gas oil, as well as other fuel types.

As of April 4, 2025, the Company had hedged approximately 61%, 46%, and 20% of its total projected metric tons of fuel consumption for 2025, 2026, and 2027, respectively. We primarily hedge heavy fuel oil ("HFO") and marine gas oil ("MGO"). Other fuel types are unhedged. The following table provides amounts hedged and price per metric ton of heavy fuel oil ("HFO") and marine gas oil ("MGO").

	2025	2026	2027
Blended HFO and MGO Hedge Price / Metric Ton	\$ 615	\$ 524	\$ 518
Total % of Consumption Hedged	61 %	46 %	20 %

Hedged derivatives include accounting hedges as well as economic hedges.

Adjusted EBITDA. EBITDA adjusted for other income (expense), net and other supplemental adjustments.

Adjusted EPS. Adjusted Net Income divided by the number of diluted weighted-average shares outstanding.

Adjusted Gross Margin. Gross margin adjusted for payroll and related, fuel, food, other and ship depreciation. Gross margin is calculated pursuant to GAAP as total revenue less total cruise operating expense and ship depreciation.

Adjusted Net Cruise Cost Excluding Fuel. Net Cruise Cost less fuel expense adjusted for supplemental adjustments.

Adjusted Net Income. Net income (loss), adjusted for the effect of dilutive securities and other supplemental adjustments.

Adjusted Operational EBITDA Margin. Adjusted EBITDA divided by Adjusted Gross Margin.

Adjusted ROIC. An amount expressed as a percentage equal to (i) Adjusted EBITDA less depreciation and amortization plus other supplemental adjustments, divided by (ii) the sum of total long-term debt and shareholders' equity as of the end of a respective quarter, averaged for the most recent five fiscal quarters ending with the last date of the applicable fiscal year.

Berths. Double occupancy capacity per cabin (single occupancy per studio cabin) even though many cabins can accommodate three or more passengers.

Capacity Days. Berths available for sale multiplied by the number of cruise days for the period for ships in service excluding Norwegian Sky and Seven Seas Navigator when their charters begin in 2026 and Norwegian Sun and Insignia when their charters begin in 2027.

Constant Currency. A calculation whereby foreign currency-denominated revenues and expenses in a period are converted at the U.S. dollar exchange rate of a comparable period in order to eliminate the effects of foreign exchange fluctuations.

Dry-dock. A process whereby a ship is positioned in a large basin where all of the fresh/sea water is pumped out in order to carry out cleaning and repairs of those parts of a ship which are below the water line.

EBITDA. Earnings before interest, taxes, and depreciation and amortization.

EPS. Diluted earnings (loss) per share.

GAAP. Generally accepted accounting principles in the U.S.

Gross Cruise Cost. The sum of total cruise operating expense and marketing, general and administrative expense.

Net Cruise Cost. Gross Cruise Cost less commissions, transportation and other expense and onboard and other expense.

Net Cruise Cost Excluding Fuel. Net Cruise Cost less fuel expense.

Net Debt. Long-term debt, including current portion, less cash and cash equivalents.

Net Leverage. Net Debt divided by Adjusted EBITDA for the trailing twelve-months.

Net Per Diem. Adjusted Gross Margin divided by Passenger Cruise Days.

Net Yield. Adjusted Gross Margin per Capacity Day.

Occupancy, Occupancy Percentage or Load Factor. The ratio of Passenger Cruise Days to Capacity Days. A percentage in excess of 100% indicates that three or more passengers occupied some cabins.

Passenger Cruise Days. The number of passengers carried for the period, multiplied by the number of days in their respective cruises.

Non-GAAP Financial Measures

We use certain non-GAAP financial measures, such as Adjusted Gross Margin, Adjusted Operational EBITDA Margin, Net Yield, Net Cruise Cost, Adjusted Net Cruise Cost Excluding Fuel, Adjusted EBITDA, Net Leverage, Net Debt, Adjusted Net Income (Loss), Adjusted EPS, Adjusted ROIC and Net Per Diem, to enable us to analyze our performance. See “Terminology” for the definitions of these and other non-GAAP financial measures. Our management believes the presentation of Adjusted ROIC provides a useful performance metric to both management and investors for evaluating our effective use of capital and has used it as a performance measure for our incentive compensation. We utilize Adjusted Gross Margin, Net Yield, and Net Per Diem to manage our business on a day-to-day basis because they reflect revenue earned net of certain direct variable costs. We utilize Adjusted Operational EBITDA Margin to assess operating performance. We also utilize Net Cruise Cost and Adjusted Net Cruise Cost Excluding Fuel to manage our business on a day-to-day basis. In measuring our ability to control costs in a manner that positively impacts our net income (loss), we believe changes in Adjusted Gross Margin, Adjusted Operational EBITDA Margin, Net Yield, Net Cruise Cost and Adjusted Net Cruise Cost Excluding Fuel to be the most relevant indicators of our performance.

As our business includes the sourcing of passengers and deployment of vessels outside of the U.S., a portion of our revenue and expenses are denominated in foreign currencies, particularly British pound, Canadian dollar, Euro and Australian dollar which are subject to fluctuations in currency exchange rates versus our reporting currency, the U.S. dollar. In order to monitor results excluding these fluctuations, we calculate certain non-GAAP measures on a Constant Currency basis, whereby current period revenue and expenses denominated in foreign currencies are converted to U.S. dollars using currency exchange rates of the comparable period. We believe that presenting these non-GAAP measures on both a reported and Constant Currency basis is useful in providing a more comprehensive view of trends in our business.

We believe that Adjusted EBITDA is appropriate as a supplemental financial measure as it is used by management to assess operating performance. We also believe that Adjusted EBITDA is a useful measure in determining our performance as it reflects certain operating drivers of our business, such as sales growth, operating costs, marketing, general and administrative expense and other operating income and expense. In addition, management uses Adjusted EBITDA as a performance measure for our incentive compensation. Adjusted EBITDA is not a defined term under GAAP nor is it intended to be a measure of liquidity or cash flows from operations or a measure comparable to net income (loss), as it does not take into account certain requirements such as capital expenditures and related depreciation, principal and interest payments and tax payments and it includes other supplemental adjustments.

In addition, Adjusted Net Income (Loss) and Adjusted EPS are non-GAAP financial measures that exclude certain amounts and are used to supplement GAAP net income (loss) and EPS. We use Adjusted Net Income (Loss) and Adjusted EPS as key performance measures of our earnings performance. We believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when planning, forecasting and analyzing future periods. These non-GAAP financial measures also facilitate management’s internal comparison to our historical performance. In addition, management uses Adjusted EPS as a performance measure for our incentive compensation. The amounts excluded in the presentation of these non-GAAP financial

measures may vary from period to period; accordingly, our presentation of Adjusted Net Income (Loss) and Adjusted EPS may not be indicative of future adjustments or results.

Net Leverage and Net Debt are performance measures that we believe provide management and investors a more complete understanding of our leverage position and borrowing capacity after factoring in cash and cash equivalents.

You are encouraged to evaluate each adjustment used in calculating our non-GAAP financial measures and the reasons we consider our non-GAAP financial measures appropriate for supplemental analysis. In evaluating our non-GAAP financial measures, you should be aware that in the future we may incur expenses similar to the adjustments in our presentation. Our non-GAAP financial measures have limitations as analytical tools, and you should not consider these measures in isolation or as a substitute for analysis of our results as reported under GAAP. Our presentation of our non-GAAP financial measures should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Our non-GAAP financial measures may not be comparable to other companies. Please see a historical reconciliation of these measures to the most comparable GAAP measure presented in our consolidated financial statements below.
