This presentation contains “forward-looking statements” that are based on management’s beliefs and assumptions and on information currently available to management. These forward-looking statements include, but are not limited to, statements about our plans, objectives, expectations and intentions and other statements contained herein that are not historical facts. When used herein, the words “expects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “will,” “should,” “could,” “estimates” and similar expressions are generally intended to identify forward-looking statements. In particular, statements about the markets in which we operate, including growth of our various markets, and statements about our expectations, beliefs, plans, strategies, objectives, prospects, assumptions or future events or performance contained in this presentation are forward-looking statements. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievement to be materially different from any projected results, performance or achievements expressed or implied by the forward-looking statements. Forward-looking statements represent the beliefs and assumptions of DoubleVerify Holdings, Inc. (the “Company”) only as of the date of this presentation, and we undertake no obligation to update or revise, or to publicly announce any update or revision to, any such forward-looking statements, whether as a result of new information, future events or otherwise. As such, the Company’s results may vary from any expectations or goals expressed in, or implied by, the forward-looking statements included in this presentation, possibly to a material degree.

We cannot assure you that the assumptions made in preparing any of the forward-looking statements will prove accurate or that any long-term financial or operational goals or targets will be realized. For a discussion of some of the risks, uncertainties and other factors that could cause the Company’s results to differ materially from those expressed in, or implied by, the forward-looking statements included in this presentation, you should refer to the “Risk Factors” section and other sections in the Company’s Form 10-K filed with the SEC on March 1, 2023 and the Company’s other filings and reports with the SEC.

In addition to disclosing financial results that are determined in accordance with U.S. generally accepted accounting principles (“GAAP”), the Company also discloses in this presentation certain non-GAAP financial measures, including Adjusted EBITDA, Adjusted EBITDA Margin and Adjusted EBITDA less Capital Expenditures. We believe that these non-GAAP financial measures are useful to investors for period-to-period comparisons of the Company’s core business and for understanding and evaluating trends in the Company’s operating results on a consistent basis by excluding items that we do not believe are indicative of the Company’s core operating performance. These non-GAAP financial measures have limitations as analytical tools, and are presented for supplemental purposes and should be considered in addition to, and not in isolation or as substitutes for an analysis of the Company’s results as reported under GAAP. In addition, other companies in the Company’s industry may calculate these non-GAAP financial measures differently than the Company does, limiting their usefulness as a comparative measure. You should compensate for these limitations by relying primarily on the Company’s GAAP results and using the non-GAAP financial measures only supplementally. A reconciliation of these measures to the most directly comparable GAAP measures is included at the end of this presentation.

In addition, this presentation contains industry and market data and forecasts that are based on our analysis of multiple sources, including publicly available information, industry publications and surveys, reports from government agencies, reports by market research firms and consultants and our own estimates based on internal company data and management’s knowledge of and experience in the market sectors in which the Company competes. While management believes such information and data are reliable, we have not independently verified the accuracy or completeness of the data contained in these sources and other publicly available information. Accordingly, we make no representations as to the accuracy or completeness of that data nor do we undertake to update such data after the date of this presentation.

*DoubleVerify*
The Industry’s Leading CTV Verification Solution

**COMPREHENSIVE**
Most robust set of measurement and protection solutions across fraud, brand suitability and geo

**UNMATCHED SCALE**
Offering 100% coverage on all global CTV inventory wherever verification is accepted, leveraging industry standards

**INDUSTRY-LEADING**
Consistently first to market with innovative solutions including Fully On-Screen, brand suitability controls and active protections

**ROBUST SUITABILITY**
Only full-scale CTV suitability measurement and controls, including 90+ suitability categories and GARM tiers

**ACCREDITED**
Our video and CTV solution is MRC accredited across fraud, brand suitability, and Fully On-Screen metrics

**VIEWABILITY**
Only solution to solve for viewability challenges like TV Off and ads playing off-screen.

Key Business Terms

• **Activation** revenue is generated from the evaluation, verification and measurement of advertising impressions purchased through programmatic demand-side and social media platforms.

• **Measurement** revenue is generated from the verification and measurement of advertising impressions that are directly purchased on digital media properties, including publishers and social media platforms.

• **Supply-Side** revenue is generated from platforms and publisher partners who use DoubleVerify’s data analytics to evaluate, verify and measure their advertising inventory.

• **Net Revenue Retention Rate** is the total current period revenue earned from advertiser customers, which were also customers during the entire most recent twelve-month period, divided by the total prior year period revenue earned from the same advertiser customers, excluding a portion of our revenues that cannot be allocated to specific advertiser customers.

• **Gross Revenue Retention Rate** is the total prior period revenue earned from advertiser customers, less the portion of prior period revenue attributable to lost advertiser customers, divided by the total prior period revenue from advertiser customers.

• **Media Transactions Measured (MTM)** is the volume of media transactions that DoubleVerify’s software platform measures.

• **Measured Transaction Fee (MTF)** is the fixed fee DoubleVerify charges per thousand Media Transactions Measured.

• **International Revenue Growth Rates** are inclusive of foreign currency fluctuations.

Non-GAAP Financial Measures Reconciliation

a) M&A and restructuring costs for the year ended December 31, 2022 consist of transaction costs, integration and restructuring costs related to the acquisition of OpenSlate. M&A costs for the year ended December 31, 2021 consist of transaction and integration costs related to the acquisition of Meetrics and OpenSlate as well as associated restructuring costs and related activities.

b) Offering, IPO readiness and secondary offering costs for the year ended December 31, 2022 consist of third-party costs incurred for the Company’s filing of a “shelf” registration statement on Form S-3, and costs incurred for an underwritten secondary public offering by certain stockholders of the Company. Offering, IPO readiness and secondary offering costs for the year ended December 31, 2021 consist of third-party costs incurred for the Company’s IPO, and costs for an underwritten secondary public offering by certain stockholders of the Company.

c) Other costs for the year ended December 31, 2022 consist of costs related to the departures of the Company’s former Chief Operating Officer and Chief Customer Officer, impairment related to a subleased office space and costs related to the disposal of furniture for unoccupied lease office space, partially offset by sublease income for lease office space. Other costs for the year ended December 31, 2021 include reimbursements paid to Providence for costs incurred prior to the IPO date, non-recurring recognition of a cease-use liability related to unoccupied lease office space, and costs associated with the early termination of the agreement for the Zentrick Deferred Payment Terms, previously disclosed as a contingency.

d) Other income for the years ended December 31, 2022 and 2021 consists of interest income earned on monetary assets, changes in fair value associated with contingent consideration, and the impact of changes in foreign currency exchange rates.

We use Adjusted EBITDA and Adjusted EBITDA Margin as measures of operational efficiency to understand and evaluate the core business operations of the Company. We believe that these non-GAAP financial measures are useful to investors for period to period comparisons of the core business and for understanding and evaluating trends in operating results on a consistent basis by excluding items that we do not believe are indicative of the core operating performance of the Company.

Full Year and First Quarter 2023 Adjusted EBITDA Guidance

With respect to the Company’s expectations under “Full Year 2023 and First Quarter 2023 Guidance”, the Company has not reconciled the non-GAAP measure of Adjusted EBITDA to the GAAP measure net income in this press release because the Company does not provide guidance for stock-based compensation expense, depreciation and amortization expense, acquisition-related costs, interest income, and income taxes on a consistent basis as the Company is unable to quantify these amounts without unreasonable efforts, which would be required to include a reconciliation of Adjusted EBITDA to GAAP net income. In addition, the Company believes such a reconciliation would imply a degree of precision that could be confusing or misleading to investors.
