ABOUT VYANT BIO, INC.

Vyant Bio is discovering neurological developmental and degenerative disease therapeutics, accelerated by its unique drug discovery engine centered on revolutionary human-derived biology that incorporates advanced technology driven chemistry, data science, and engineering with global regulatory expertise. Through multiple *in silico*, *in vitro*, and *in vivo* modalities, Vyant Bio's world-renowned scientific team rapidly identifies and designs small and large molecule therapeutics that are derisked in human biology much earlier, and have lower costs and failure rates compared to traditional discovery platforms. The Company is focused on efficiently discovering central nervous system drugs and, going forward, plans to file two investigational new drug applications annually. Vyant Bio is headquartered in the US, with offices in Europe, and research facilities in Australia.
