Telephonics Awarded Radar Contract for United States Coast Guard's HC-27J Program

FARMINGDALE, N.Y., June 14, 2018 /PRNewswire/ -- Telephonics Corporation, a wholly owned subsidiary of Griffon Corporation (NYSE:GFF), announced today that it has been competitively awarded an Indefinite Delivery Indefinite Quantity (IDIQ) contract from the Naval Air Warfare Center, Aircraft Division valued at \$31.8M to supply their [APS-143C\(V\)3](#) as the multi-mode radar system for the United States Coast Guard's ("USCG") HC-27J Spartan medium-range maritime surveillance platform.

The APS-143C(V)3 maritime surveillance system offers a broad range of capabilities including long-range target search, detection and tracking in high sea-states, Inverse Synthetic Aperture Radar (ISAR), Synthetic Aperture Radar (SAR), weather avoidance, and Search and Rescue Transponder (SART) beacon modes. The system will assist HC-27J operators during a variety of missions.

"Telephonics is extremely proud to support this important program, providing a maritime surveillance system designed to meet the demanding requirements of USCG missions," said Kevin McSweeney, President of Telephonics. "The APS-143C(V)3 will provide enhanced radar capabilities to the USCG, enabling increased maritime awareness in support of their mission critical work."

The APS-143C(V)3 is widely deployed on the USCG HC-144 Ocean Sentry aircraft, as well as other domestic and international platforms, and utilized in maritime surveillance, reconnaissance, search and rescue, law enforcement and border protection missions.
