Helios Technologies Leverages Next Display Platform™ and Announces SpaTouch4™

SpaTouch4™ is the world's most advanced display panel for the spa industry

SARASOTA, Fla.--(BUSINESS WIRE)-- [Helios Technologies](#), Inc. (NYSE: HLIO) ("Helios" or the "Company") a global leader in highly engineered motion control and electronic controls technology for diverse end markets, announced today that it has further advanced the market reach of its innovative display offerings with the introduction of SpaTouch4™, an advanced user interface control system. Built on Helios' innovative [Next Display Platform™](#), SpaTouch4™ is the world's most advanced display panel for the spa market. SpaTouch4™ will be available from [Balboa Water Group](#), part of Helios' Electronics segment.

Josef Matosevic, the Company's President and Chief Executive Officer, commented, "SpaTouch4™ is the result of a collaboration between the Helios Center of Engineering Excellence (HCEE) and our Electronics segment. By using our technology platform approach to innovation, the Next Display Platform™ addresses more target markets and creates system solutions for our customers. Through this approach, HCEE is creating a multiplier effect of innovation. Evolving into an integrated operating company is one of our top priorities. We intend to achieve this by leveraging sales, enhancing marketing, and focusing on innovation, customer relationships and operational excellence. This is our strategy across all our businesses. SpaTouch4™ is proof of that evolution happening."

"With Bluetooth and Wi-Fi, SpaTouch4™ includes integrated features such as over-the-air updates and cloud-based access control. This allows spa market OEMs the ability to

continually add features, integrate new capabilities, and improve the user experience throughout the entire life of the spa,” said Doug Conyers, Senior Vice President, Innovation and Technology. “SpaTouch4™ also empowers spa manufacturers with unprecedented opportunities to customize and brand the user experience of their spa-side controls.”

Commercial availability is targeted for the first quarter of 2023.
