Company Overview
MaxLinear delivers high-performance broadband and networking semiconductors based on its highly integrated radio frequency analog technology, high-performance optical networking technology and its pioneering MoCA and Direct Broadcast Satellite ODU single-wire technology.

MaxLinear was founded in 2003. The company’s original high performance, radio-frequency receiver products capture and process digital and analog broadband signals for applications including terrestrial, cable and satellite television and DOCSIS broadband. These products include both RF receivers and RF receiver systems-on-chip, or SoCs, which incorporate highly integrated radio system architecture and demodulator technology. The company’s products were based on its pioneering low power, low cost CMOS process technology.

In 2015, the company acquired Entropic, the world leader in semiconductor solutions for the connected home. Entropic pioneered multimedia over coax (MoCA) home networking technology. The company’s technology transforms how traditional broadcast and IP streaming video is seamlessly, reliably, and securely delivered, processed, and distributed into and throughout the home.

MaxLinear also offers optical networking driver and trans-impedance amplifier ICs for 100G / 400G optical data center networks. The devices use advanced technology that cut in half the number of channels needed in optical transmission modules, reducing power consumption, size and cost for 100Gbps and 400Gbps networks.

MaxLinear technology is trusted by leading telephone, cable and satellite operators, set-top box manufacturers, networking equipment providers and consumer technology providers.

Management Team
Kishore Seeandripu, Ph.D.
Chairman, President and Chief Executive Officer

Steven Litchfield
Chief Financial Officer & Chief Corporate Strategy Officer

Curtis Ling, Ph.D.
Chief Technical Officer

Michael Bollesen
Vice President, Sales

Kathi Guiney
Vice President of Human Resources

Michael J. LaChance
Vice President, Operations

James Lougheed
Vice President, Marketing, High Performance Analog

Madhukar Reddy, Ph.D.
Vice President, Central Engineering

William G. Torgerson
Vice President, Worldwide Sales and General Manager, Broadband Group

Brendan Walsh
Vice President, Marketing Infrastructure
