Rennova Health gives update on THIRD quarter

WEST PALM BEACH, Fla., Oct. 16, 2018 (GLOBE NEWSWIRE) -- **Rennova Health, Inc. (OTC: RNVA), (OTC: RNVAW)**, (“Rennova” or the “Company”), a vertically integrated provider of industry-leading diagnostics and supportive software solutions to healthcare providers that acquired its second rural hospital in Tennessee on June 1, 2018, announces that its third quarter revenues demonstrate continued growth momentum.

Rennova is pleased to announce preliminary third quarter net revenues of approximately \$5.4 million. This number remains subject to final review and potential adjustment before the quarterly financial statements are filed. This represents an increase of approximately \$2.1 million from the reported net revenues from the second quarter and an approximately \$4.0 million increase from the third quarter in 2017. This quarter’s revenue includes a full three months of operations of Rennova’s second hospital, which it acquired on June 1, 2018. The Company continues to take a conservative position on revenue recognition in hospital operations and will maintain this position until we have adequate historical experience to evidence total collection rates.

“We are pleased to have our second hospital adding to revenue and cash flow and are actively exploring other hospital opportunities for acquisition in the same geographic location to further build hospital revenues and benefit from expected synergies”, said Seamus Lagan, CEO of Rennova. “September saw us achieve the previously predicted collections of approximately \$2 million a month, and while we have had a relative increase in costs we expect that our hospitals will be profitable and cash flow positive”.

“We are pleased to demonstrate our current growth and look forward to a significant improvement in the revenues and performance in Rennova in the coming quarters,” said Marlene McLennan, the recently appointed CFO of Rennova. “We expect to file our third quarter financial report to September 30 on time by November 14 and are making every effort to have it completed and filed earlier if possible”.

About Rennova Health, Inc.
