Systems Engineering Group (SEG) Named A Top Workplace By The Washington Post

FARMINGDALE, N.Y., June 19, 2017 /PRNewswire/ -- Telephonics Corporation, a wholly owned subsidiary of Griffon Corporation (NYSE: GFF), announced today that its subsidiary, Systems Engineering Group (SEG) was honored as a 2017 "Top Workplace" in the D.C. area by *The Washington Post*. SEG provides sophisticated technical, physics-based analysis and engineering support to the U.S. Armed Services, specializing in characterizing and helping counter the effects of advanced threat missiles to U.S. defensive systems. SEG currently employs 110 highly-skilled personnel in Columbia, MD, two thirds of which hold advanced degrees concentrated in the fields of aerospace, mechanical and electrical engineering, math and physics.

SEG is one of 150 companies selected from more than 3,000 applicants to be recognized by the news outlet, evaluated on criteria including effectiveness of management, employee satisfaction, support of the local community and company values. In existence for 26 years, SEG has recently experienced growth and is expanding both its workforce and infrastructure in anticipation of this trend continuing.

"SEG is thrilled to be recognized for our technical work and unique culture. Our three-fold mission to apply intelligence, passion and integrity to our work, both in the defense industry and with our community partners, guides all we do. We are proud of our accomplishments to date and look forward to continued success and growth," said Mike Anderson, Telephonics Vice President SEG General Manager.

SEG is also pleased to collaborate with local universities, including the University of Maryland, to provide internships and job recruitment upon graduation. SEG employees are also involved within the community at the local high school level, supporting STEM-related educational opportunities, including JROTC and robotics programs.

"SEG is a company built on knowledge; harnessing collective intelligence and applying it to create sophisticated radar and missile system design solutions for the U.S. Armed Services as well as systems-level engineering. Every member of the SEG staff is critical to its success and this honor was truly won by each of them," said Kevin McSweeney, President of Telephonics.
