

Marathon Patent Group Subsidiary Enters Into Settlement & License Agreement With Technology Company

ALEXANDRIA, VA--(Marketwired - May 8, 2013) - Marathon Patent Group, Inc. (OTCBB: MARA) ("Marathon"), an intellectual property services and patent licensing company, today announced that its wholly owned subsidiary CyberFone Systems, LLC has entered into a license and settlement agreement with a well-known technology company. This agreement, the 33rd for the patent portfolio, resolves patent litigation that is still pending against other technology companies in the United States District Court for the District of Delaware. The patents cover claims that provide the right to practice specific transactional data processing, telecommunications, network and database inventions, including financial transactions.

"On April 23rd, Marathon announced the acquisition of CyberFone Systems; 15 days later we have executed our first settlement agreement on behalf of its patent portfolio," stated Doug Croxall, Chief Executive Officer of Marathon Patent Group. "Strategically acquiring assets that are already revenue producing will permit Marathon to post revenues immediately. It is an important step toward achieving our stated goals of generating consistent revenues and increased cash flows."

The terms of the confidential settlement and license agreement include a fully paid up license amount and other consideration.

Ongoing enforcement of the CyberFone patents continues against named defendants that include Federal Express, Mitsubishi, Toshiba, Nintendo, ZTE, Alcatel-Lucent and UPS.
