

DMG Blockchain Set To Join Marathon's Bitcoin Mining Pool, MaraPool

MaraPool Opens to Additional Bitcoin Mining Companies

LAS VEGAS, Sept. 09, 2021 (GLOBE NEWSWIRE) -- [Marathon Digital Holdings, Inc. \(NASDAQ:MARA\)](#) ("Marathon" or "Company"), one of the largest enterprise Bitcoin self-mining companies in North America, today announced that DMG Blockchain, (TSX-V: DMGI) (OTCQB: DMGGF) (FRANKFURT: 6AX), a vertically integrated blockchain and cryptocurrency technology company, will become the first North American Bitcoin miner, excluding Marathon, to join Marathon's mining pool, [MaraPool](#).

On Monday September 13, 2021, DMG Blockchain will begin pointing 100% of its hash rate towards MaraPool, as the pool opens to additional Bitcoin mining companies. MaraPool is a U.S.-based Bitcoin mining pool that is focused on reducing the environmental impact of Bitcoin mining through carbon neutral mining. The pool, which is fully audited by a third-party firm in the U.S., provides its members with industry leading transparency, an intuitive reporting system, and access to exclusive services from NYDIG.

"After experiencing difficulties with mining pools outside the U.S., we decided to launch our own pool that would reflect the values and needs of enterprising North American Bitcoin miners," said Fred Thiel, Marathon's CEO. "After many months of testing, we have now opened the pool to other Bitcoin miners that share our beliefs and our desire to improve miners' processes. DMG Blockchain has long been an innovator in this regard, having worked closely with us on this initiative, and we are pleased to welcome them to MaraPool."

Sheldon Bennett, DMG Blockchain's CEO, added, "Marathon has consistently remained at the forefront of not only scaling but professionalizing the Bitcoin mining industry. Their mining pool, which leverages our industry-leading software, is no different. While many mining pools lack transparency and accountability, MaraPool excels at both. We believe that being part of MaraPool will improve our operations, and we look forward to benefiting from this change."

On September 9, 2021, Marathon will be promoting MaraPool's features and benefits at [Bitmain's Digital Mining Energy Conference](#) in Miami, FL. To learn more about MaraPool, or to apply to join, visit [marapool.com](#).

Investor Notice

Investing in our securities involves a high degree of risk. Before making an investment decision, you should carefully consider the risks, uncertainties and forward-looking statements described under "Risk Factors" in Item 1A of our most recent Annual Report on Form 10-K for the fiscal year ended December 31, 2020. If any of these risks were to occur, our business, financial condition or results of operations would likely suffer. In that event, the

value of our securities could decline, and you could lose part or all of your investment. The risks and uncertainties we describe are not the only ones facing us. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. In addition, our past financial performance may not be a reliable indicator of future performance, and historical trends should not be used to anticipate results in the future. Future changes in the network-wide mining difficulty rate or Bitcoin hash rate may also materially affect the future performance of Marathon's production of Bitcoin. Additionally, all discussions of financial metrics assume mining difficulty rates as of September 2021. See "Safe Harbor" below.

Forward-Looking Statements

Statements made in this press release include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements can be identified by the use of words such as "may," "will," "plan," "should," "expect," "anticipate," "estimate," "continue," or comparable terminology. Such forward-looking statements are inherently subject to certain risks, trends and uncertainties, many of which the Company cannot predict with accuracy and some of which the Company might not even anticipate and involve factors that may cause actual results to differ materially from those projected or suggested. Readers are cautioned not to place undue reliance on these forward-looking statements and are advised to consider the factors listed above together with the additional factors under the heading "Risk Factors" in the Company's Annual Reports on Form 10-K, as may be supplemented or amended by the Company's Quarterly Reports on Form 10-Q. The Company assumes no obligation to update or supplement forward-looking statements that become untrue because of subsequent events, new information or otherwise.

About Marathon Digital Holdings

Marathon is a digital asset technology company that mines cryptocurrencies with a focus on the blockchain ecosystem and the generation of digital assets.

About DMG Blockchain Solutions Inc.

DMG is an environmentally friendly vertically integrated blockchain and cryptocurrency company that manages, operates, and develops end-to-end digital solutions to monetize the blockchain ecosystem. DMG's sustainable businesses are segmented into three main divisions: data centre operations, data analytics and forensics and developing enterprise blockchains. DMG's non-polluting data centre operations focus on earning eco-friendly revenues from block rewards and transaction fees by mining primarily bitcoin as well as providing hosting services for industrial mining clients entirely powered by renewable energy. DMG's data analytics and forensic services provide technical expertise software products such as Blockseer Pool, Mine Manager and Walletscore, as well as working with auditors, law firms, and law enforcement organizations. DMG's permissioned blockchain technology is focused on developing enterprise software for the supply chain management of controlled products. DMG's strategy is to become the domain experts across the business verticals it focuses on. DMG's environmentally committed management team includes seasoned crypto experts, forensic & financial professionals and blockchain developers with deep relationships throughout the industry and a strong ecological consciousness.

Future changes in the Bitcoin network-wide mining difficulty rate or Bitcoin hashrate may materially affect the future performance of DMG's production of Bitcoin, and future

operational results could also be materially affected by the price of Bitcoin and an increase in hashrate mining difficulty.
