The company has become aware of multiple fraudulent websites and apps claiming to be affiliated with Marathon Digital Holdings, as well as fraudulent communications by individuals purporting to be Marathon employees. Marathon is working with the authorities and intends to pursue all necessary legal actions to defend itself from any attempt to infringe on Marathon's copyrights, trademarks, and intellectual property.

## Investor Notice

Investing in our securities involves a high degree of risk. Before making an investment decision, you should carefully consider the risks, uncertainties and forward-looking statements described under "Risk Factors" in Item 1A of our most recent Annual Report on Form 10-K for the fiscal year ended December 31, 2022, filed with the SEC on March 16, 2023. If any of these risks were to occur, our business, financial condition or results of operations would likely suffer. In that event, the value of our securities could decline, and you could lose part or all of your investment. The risks and uncertainties we describe are not the only ones facing us. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. In addition, our past financial performance may not be a reliable indicator of future performance, and historical trends should not be used to anticipate results in the future. Future changes in the network-wide mining difficulty rate or Bitcoin hash rate may also materially affect the future performance of

Marathon's production of bitcoin. Additionally, all discussions of financial metrics assume mining difficulty rates as of June 2023. See "Forward-Looking Statements" below.
