Dynatrace Named a Leader in the 2026 Gartner® Magic Quadrant™ for Observability Platforms for the 16th Time

Dynatrace Recognized for Completeness of Vision and Ability to Execute

BOSTON--(BUSINESS WIRE)-- [Dynatrace \(NYSE: DT\)](#), the leading AI-powered observability platform, today announced that Gartner has named it a Leader in the [2026 Magic Quadrant for Observability Platforms](#). Gartner evaluated 19 vendors for this year's Magic Quadrant, with Dynatrace being named a Leader for the 16th time.

"Enterprises running mission-critical systems on AI-powered infrastructure need more than visibility; they need answers," said Steve Tack, EVP, Chief Product Officer at Dynatrace. "AI introduces a new class of failures that tools built for simpler stacks cannot see, and fragmented tools leave teams guessing instead of acting. Dynatrace delivers precise end-to-end visibility across the full stack, so every team, from engineering to the business, has the context to act. We believe enterprises deserve a partner they can trust when it matters most, and we think being named a Gartner Leader for the 16th consecutive time reflects that trust."

Complimentary copies of the [2026 Gartner Magic Quadrant for Observability Platforms](#) are available on the Dynatrace website.
