## CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This communication contains certain forward-looking statements, including, but not limited to, certain plans, expectations, goals, projections, and statements, which are not historical facts and are subject to numerous assumptions, risks, and uncertainties. Statements that do not describe historical or current facts, including statements about beliefs and expectations, are forward-looking statements. Forward-looking statements may be identified by words such as expect, anticipate, believe, intend, estimate, plan, target, goal, or similar expressions, or future or conditional verbs such as will, may, might, should, would, could, or similar variations. The forward-looking statements are intended to be subject to the safe harbor provided by Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995.

While there is no assurance that any list of risks and uncertainties or risk factors is complete, below are certain factors which could cause actual results to differ materially from those contained or implied in the forward-looking statements: changes in general economic, political, or industry conditions; the magnitude and duration of the COVID-19 pandemic and related variants and mutations and their impact on the global economy and financial market conditions and our business, results of operations, and financial condition; uncertainty in U.S. fiscal and monetary policy, including the interest rate policies of the Federal Reserve Board; volatility and disruptions in global capital and credit markets; movements in interest rates; reform of LIBOR; competitive pressures on product pricing and services; success, impact, and timing of our business strategies, including market acceptance of any new products or services including those implementing our "Fair Play" banking philosophy; the nature, extent, timing, and results of governmental actions, examinations, reviews, reforms, regulations, and interpretations, including those related to the Dodd-Frank Wall Street Reform and Consumer Protection Act and the Basel III regulatory capital reforms, as well as those involving the OCC, Federal Reserve, FDIC, and CFPB; the possibility that the anticipated benefits of the transaction with TCF are not realized when expected or at all, including as a result of the impact of, or problems arising from, the integration of the two companies or as a result of the strength of the economy and competitive factors in the areas where Huntington does business; and other factors that may affect the future results of Huntington. Additional factors that could cause results to differ materially from those described above can be found in Huntington's Annual Report on Form 10-K for the year ended December 31, 2021, and in its subsequent Quarterly Reports on Form $10-Q$ for the quarters ended March 31, 2022, June 30, 2022, and September 30, 2022, each of which is on file with the Securities and Exchange Commission (the "SEC") and available in the "Investor Relations" section of Huntington's website http://www.huntington.com, under the heading "Publications and Filings" and in other documents Huntington files with the SEC.

All forward-looking statements speak only as of the date they are made and are based on information available at that time. Huntington does not assume any obligation to update forward-looking statements to reflect circumstances or events that occur after the date the forwardlooking statements were made or to reflect the occurrence of unanticipated events except as required by federal securities laws. As forwardlooking statements involve significant risks and uncertainties, caution should be exercised against placing undue reliance on such statements.

- Net interest income up $\$ 333$ million (+29\%) reflecting higher NIM and average loans
- Net interest income ex PAA and PPP increased \$374 million (+34\%)
- Reported NIM increased 67 basis points versus prior year

## Deposit Costs | Stable Core Deposit Base

## Deposit Cost vs Fed Funds Target Rate

## Balance Sheet Management Strategy

## Proactive management to protect net interest income against volatile rate backdrop

- Dynamic and prudent hedging strategy, managing both downside risk and upside potential. In Q4:
- Executed a net $\$ 3.2$ billion of receive-fixed swaps, $\$ 0.8$ billion of swaption collars, and $\$ 0.1$ billion of pay fixed swaps
- Reserving hedge capacity providing flexibility to appropriately respond to continued rate volatility
- Continue to dynamically manage hedge position subject to risk profile and market conditions

Hedging Balance Update (EOP)

## Securities portfolio positioned to capitalize on higher yields while protecting capital

- Securities yields increased 52 bps
- New purchase yield of $5.17 \%, 91 \mathrm{bps}$ higher from prior quarter
- $41 \%$ of portfolio classified as HTM to protect capital
- AFS portfolio partially hedged with pay fixed swaps; reduces duration risk and protects OCI / capital and liquidity

## Key Highlights

## Strong Credit Quality

- Recent performance is a reflection of strong customer selection and the favorable impact of COVID related stimulus
- NCOs normalizing from historic low levels primarily driven by macroeconomic conditions

## Solid Reserve Profile

- Disciplined allowance philosophy in face of economic uncertainty
- Variety of economic scenarios along with sensitivity exercises are utilized
- Results in an appropriately prudent coverage ratio since CECL implementation

## Medium-Term Financial Targets

## 2023 Outlook

FY23 vs. FY22
Guidance
As of 1/20/23

## Net Charge-offs

## Commentary

Driven mainly by commercial, with modest growth in consumer

Led by continued acquisition and deepening of customer and primary bank relationships

Supported by earning asset growth and expanded fullyear net interest margin

Growth in key strategic areas: capital markets, payments, and wealth management

Offset by impact from lower PAA, operating lease revenue, mortgage banking income, deposit service charges, and retention of SBA loan production

Driven by disciplined expense management while preserving critical long-term investment

Continued normalization of net charge-offs

## Appendix

## Basis of Presentation

## Use of Non-GAAP Financial Measures

This document contains GAAP financial measures and non-GAAP financial measures where management believes it to be helpful in understanding Huntington's results of operations or financial position. Where non-GAAP financial measures are used, the comparable GAAP financial measure, as well as the reconciliation to the comparable GAAP financial measure, can be found in this document, conference call slides, or the Form 8-K related to this document, all of which can be found in the Investor Relations section of Huntington's website, http://www.huntington.com.

## Annualized Data

Certain returns, yields, performance ratios, or quarterly growth rates are presented on an "annualized" basis. This is done for analytical and decision-making purposes to better discern underlying performance trends when compared to full-year or year-over-year amounts. For example, loan and deposit growth rates, as well as net charge-off percentages, are most often expressed in terms of an annual rate like $8 \%$. As such, a $2 \%$ growth rate for a quarter would represent an annualized $8 \%$ growth rate.

## Fully-Taxable Equivalent Interest Income and Net Interest Margin

Income from tax-exempt earning assets is increased by an amount equivalent to the taxes that would have been paid if this income had been taxable at statutory rates. This adjustment puts all earning assets, most notably tax-exempt municipal securities and certain lease assets, on a common basis that facilitates comparison of results to results of competitors.

## Earnings per Share Equivalent Data

Notable income or expense items may be expressed on a per common share basis. This is done for analytical and decision-making purposes to better discern underlying trends in total corporate earnings per share performance excluding the impact of such items. Investors may also find this information helpful in their evaluation of our financial performance against published earnings per share mean estimate amounts, which typically exclude the impact of Notable Items. Earnings per share equivalents are usually calculated by applying an effective tax rate to a pre-tax amount to derive an after-tax amount, which is divided by the average shares outstanding during the respective reporting period. Occasionally, when the item involves special tax treatment, the aftertax amount is disclosed separately, with this then being the amount used to calculate the earnings per share equivalent.

## Basis of Presentation

## Rounding

Please note that columns of data in this document may not add due to rounding.

## Notable Items

From time to time, revenue, expenses, or taxes are impacted by items judged by management to be outside of ordinary banking activities and/or by items that, while they may be associated with ordinary banking activities, are so unusually large that their outsized impact is believed by management at that time to be infrequent or short term in nature. We refer to such items as "Notable Items." Management believes it is useful to consider certain financial metrics with and without Notable Items, in order to enable a better understanding of company results, increase comparability of period-to-period results, and to evaluate and forecast those results.
