Time: 8:30 a.m. EST
Location: Lotte New York Palace, New York

About NeuBase Therapeutics

NeuBase Therapeutics, Inc. is developing the next generation of gene silencing therapies with its flexible, highly specific synthetic antisense oligonucleotides. The proprietary NeuBase peptide-nucleic acid (PNA) antisense oligonucleotide (PATrOL™) platform allows for the rapid development of targeted drugs, increasing the treatment opportunities for the hundreds of millions of people affected by rare genetic diseases, including those that can only be treated through accessing of genomic loci or secondary and tertiary RNA structures. Using PATrOL technology, NeuBase aims to first tackle rare, genetic neurological disorders.
