Iterum Therapeutics Granted 180-Day Extension by Nasdaq to Regain Compliance with Bid Price Rule

DUBLIN, Ireland and CHICAGO, March 10, 2022 (GLOBE NEWSWIRE) -- Iterum Therapeutics plc (Nasdaq: ITRM) (the "Company"), a clinical-stage pharmaceutical company focused on developing next generation oral and IV antibiotics to treat infections caused by multi-drug resistant pathogens in both community and hospital settings, today announced that the Company received written notification from the Listing Qualifications Department of The Nasdaq Stock Market, LLC ("Nasdaq"), granting the Company's request for a 180-day extension to regain compliance with Nasdaq's minimum bid price requirement under Nasdaq Listing Rule 5550(a)(2) (the "Bid Price Rule"). The Company now has until September 5, 2022 to meet the requirement. If at any time prior to September 5, 2022, the bid price of the Company's ordinary shares closes at \$1.00 per share or more for a minimum of 10 consecutive business days, the Company will regain compliance with the Bid Price Rule, and the matter will be closed.

In accordance with Nasdaq Listing Rule 5810(c)(3)(A), Nasdaq staff determined that the Company was eligible for an additional 180 calendar day period, or until September 5, 2022, to regain compliance based on the Company meeting the continued listing requirement for the market value of publicly held shares and all other applicable requirements for initial listing on the Nasdaq Capital Market, with the exception of the bid price requirement, and the Company having provided written notice of its intention to cure the deficiency during the second compliance period, including by effecting a reverse share split, if necessary.

If the Company does not regain compliance with the Bid Price Rule during the additional 180-day extension, Nasdaq will provide written notification to the Company that its ordinary shares will be delisted. At that time, the Company may appeal the relevant delisting determination to a hearings panel pursuant to the procedures set forth in the applicable Nasdaq Listing Rules. However, there can be no assurance that, if the Company does appeal the delisting determination by Nasdaq to the hearings panel, that such appeal would be successful.

Nasdaq's extension notice has no immediate effect on the listing or trading of the Company's ordinary shares, which will continue to trade on the Nasdaq Capital Market under the symbol "ITRM".

About Iterum Therapeutics plc

Iterum Therapeutics plc is a clinical-stage pharmaceutical company dedicated to developing differentiated anti-infectives aimed at combatting the global crisis of multi-drug resistant pathogens to significantly improve the lives of people affected by serious and life-threatening diseases around the world. Iterum Therapeutics is advancing its first compound, sulopenem,
