Hercules Technology Growth Capital Locks \$25.0 Million of Borrowings from the SBA at a Rate of 2.877% Per Annum for a 10 Year Period

PALO ALTO, Calif.--(BUSINESS WIRE)-- Hercules Technology Growth Capital, Inc. (NASDAQ: HTGC), the leading specialty finance company devoted to addressing the capital needs of venture capital and private equity-backed technology-related companies, including clean technology, life sciences and select lower middle market companies at all stages of development, announced today that the company has locked in a rate of 2.877% per annum for 10 years on \$25.0 million of outstanding debentures under its second license. This brings the total pooled debentures outstanding to \$188.3 million out of the maximum \$225.0 million permitted under its SBIC license.

About Hercules Technology Growth Capital, Inc.:

Hercules Technology Growth Capital, Inc. is a NASDAQ traded specialty finance firm providing customized loans to public and private technology-related companies, including clean technology, life science and select lower middle market technology companies at all stages of development. Since its founding in 2003, Hercules has committed over \$2.4 billion in flexible financing solutions to over 170 companies, enabling these companies to maximize their equity by leveraging these assets. Hercules' strength comes from its deep understanding of credit and the industries it serves, allowing it to partner with venture capital and private equity companies for a less dilutive source of growth capital helping companies to bridge through their critical stages of growth. Hercules offers a full suite of growth capital products at all levels of the capital structure, ranging from \$500,000 to \$30 million, lines of credit to term loans. The company is headquartered in Palo Alto, California and has additional offices in Massachusetts and Colorado. Providing capital to publicly-traded or privately-held companies backed by leading venture capital and private equity firms involves a high degree of credit risk and may result in potential losses of capital.
