Pacific Ethanol Announces Board Member Resignation

SACRAMENTO, Calif., Oct. 5 /PRNewswire-FirstCall/ -- Pacific Ethanol, Inc. (Nasdaq: PEIX), the largest West Coast-based marketer and producer of ethanol, today announced that Robert Thomas has stepped down from the Board of Directors effective October 1st.

Chairman Bill Jones noted, "Robert Thomas provided valuable experience and insight as Pacific Ethanol was establishing its presence in the capital markets and as a publicly traded company. We wish him well as we look to fill this Board vacancy with an individual who will bring equally strong expertise and qualifications."

About Pacific Ethanol, Inc.

Pacific Ethanol is the largest West Coast-based marketer and producer of ethanol. Pacific Ethanol has ethanol plants in Madera, California, and Boardman, Oregon and has three additional plants under construction in Burley, Idaho; in the Imperial Valley near Calipatria, California; and at the port of Stockton, California. Pacific Ethanol also owns a 42% interest in Front Range Energy, LLC which owns an ethanol plant in Windsor, Colorado. Central to its growth strategy is its destination business model, whereby each respective ethanol plant achieves lower process and transportation costs by servicing local markets for both fuel and feed. In February 2007, Pacific Ethanol obtained a \$325 million credit facility to provide financing for its first five ethanol production facilities. Pacific Ethanol's goal is to achieve 220 million gallons per year of ethanol production capacity by the middle of 2008 and to increase total production capacity to 420 million gallons per year by the end of 2010. In addition, Pacific Ethanol is working to identify and develop other renewable fuel technologies, such as cellulose-based ethanol production and bio-diesel.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

With the exception of historical information, the matters discussed in this press release are forward-looking statements that involve a number of risks and uncertainties. The actual future results of Pacific Ethanol could differ from those statements. Factors that could cause or contribute to such differences include, but are not limited to, the ability of Pacific Ethanol to successfully and timely complete, in a cost-effective manner, construction of its four ethanol plants under construction; the ability of Pacific Ethanol to obtain all necessary financing to complete the construction of its other planned ethanol production facilities; the ability of Pacific Ethanol to timely complete its ethanol plant build-out program and to successfully capitalize on its internal growth initiatives; the ability of Pacific Ethanol to operate its plants at their planned production capacities; the price of ethanol relative to the price of gasoline; and the factors contained in the "Risk Factors" section of Pacific Ethanol's Form 10-K filed with the Securities and Exchange Commission on March 12, 2007.
