(NASDAQ:DRMA, DRMAW) ("Dermata" or the "Company"), a clinical-stage biotechnology company focusing on the treatment of medical and aesthetic skin conditions, announced today that Dermata's CEO, Gerald Proehl, has been invited to present at the Healthcare Virtual Conference Part II, presented by Maxim Group LLC and hosted by M-Vest, on Tuesday, June 20<sup>th</sup> to Thursday, June 22<sup>nd</sup> at 9:00 A.M. ET.

The exponential growth in knowledge and expertise in science and medicine continues to drive opportunities in the healthcare space. These include multiple therapeutic categories and emerging technologies, which our presenting companies at this year's Maxim Healthcare Conference are focused on, and for many, that includes key data-driven events in 2023. Maxim Senior Analysts will host a wide range of biotechnology and medical device companies in a series of presentations and interactive discussions with CEOs and key management. We will also be hosting several topical industry panels that promise to be timely and engaging.

This conference will be live on M-Vest. To attend, just sign up to become an M-Vest member.

## **About Dermata Therapeutics**

Dermata Therapeutics, Inc. is a clinical-stage biotechnology company focusing on the treatment of medical and aesthetic skin conditions. The Company's lead product candidate, DMT310, is the first product candidate being developed from its *Spongilla* technology platform. DMT310 is a once-weekly topical product candidate derived from a naturally sourced freshwater sponge with multiple unique mechanisms of action. In addition to acne, DMT310 has been studied for the treatment of psoriasis and rosacea. The Company's second product candidate, DMT410, uses its *Spongilla* technology as a new method for needle-free intradermal delivery of botulinum toxin for the treatment of multiple aesthetic and medical skin conditions. Dermata is headquartered in San Diego, California. For more information, please visit <http://www.dermatarx.com/>.

## **Forward-Looking Statements**

Statements in this press release that are not strictly historical in nature are forward-looking statements. These statements are based on the Company's current beliefs and expectations and new risks may emerge from time to time. Forward-looking statements are subject to known and unknown risks, uncertainties, assumptions, and other factors including, but are not limited to, statements related to: the potential development and commercialization of product candidates; the ability of the Company's product candidates to achieve applicable endpoints in clinical trials; whether the results of the Company's product candidates will lead to future product development; and whether the Company will have the ability to obtain adequate funding for future development of its product candidates. These statements are only predictions based on current information and expectations and involve a number of risks and uncertainties. Actual events or results may differ materially from those projected in any of such statements due to various factors, including the risks and uncertainties inherent in drug development, approval and commercialization, and the fact that past results of clinical trials may not be indicative of future trial results. For a discussion of these and other factors, please refer to Dermata's filings with the Securities and Exchange Commission. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. This caution is made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. All forward-looking statements are qualified in their entirety by this cautionary statement and Dermata undertakes no obligation to revise or update this press release to reflect events or circumstances after the date hereof, except as required by law.
