# Abeona Therapeutics Reports Third Quarter 2023 Financial Results and Corporate Developments

*Abeona's first-ever U.S. Biologics License Application (BLA) submission completed in September 2023*

*FDA decision on priority review and acceptance of BLA for pz-cel (prademagene zamikeracel, formerly known as EB-101) in recessive dystrophic epidermolysis bullosa (RDEB) expected by late-November 2023*

*Initiated commercial readiness activities for potential U.S. launch of pz-cel*

CLEVELAND, Nov. 13, 2023 (GLOBE NEWSWIRE) -- Abeona Therapeutics Inc. (Nasdaq: ABEO) today reported financial results for the third quarter of 2023 and provided corporate updates.

"In the third quarter, we made substantial progress in our evolution from a late-stage clinical development company to one with significant commercial opportunity," said Vish Seshadri, Chief Executive Officer of Abeona. "With the completion of Abeona's first-ever U.S. BLA submission, we moved a step closer toward the potential approval of pz-cel as the first therapy that delivered instantaneous wound coverage and multi-year healing in RDEB wounds with a one-time application in clinical trials. In addition, we are also establishing Abeona's capabilities in late-stage development and manufacturing of autologous engineered cell therapies. Lastly, we have initiated commercial readiness activities for our potential launch of pz-cel."

## Third Quarter and Recent Progress

### *Pz-cel for RDEB*

- The proposed non-proprietary (generic) name prademagene zamikeracel (referred to as "pz-cel" going forward) was approved by the World Health Organization as the International Nonproprietary Name for Abeona's investigational autologous, COL7A1 gene-corrected epidermal sheets formerly known as EB-101.
- In August, Abeona completed a positive pre-BLA meeting in which it reached alignment with the U.S. Food and Drug Administration (FDA) that the pz-cel clinical efficacy and safety data appear adequate to support a BLA submission. The FDA also agreed that retroviral vector manufactured at Abeona and Indiana University appear comparable based on the data that Abeona provided in its briefing book.
- In September, Abeona submitted a BLA to FDA seeking approval with priority review of pz-cel for RDEB. The FDA's decision on BLA acceptance is typically made during the 60-day window following submission. If accepted with Priority Review, Abeona expects

potential BLA approval in the second quarter of 2024.

*Strengthened balance sheet, initiated U.S. commercial launch preparations for pz-cel*

- Abeona raised \$25 million in a registered direct offering priced at-the-market with select existing institutional investors to primarily fund the Company's initial commercial preparations in support of the potential U.S. launch of pz-cel.
- Appointed Madhav Vasanthavada, Ph.D., M.B.A. as Chief Commercial Officer and Head of Business Development. Dr. Vasanthavada brings over 20 years of diverse leadership experience in the life sciences industry with recent experience in launching autologous cell therapies at Bristol Myers Squibb (BMS) and Celgene.
- Started U.S. commercial launch planning activities for pz-cel, including initiating onboarding discussions with EB treatment sites, payer engagement, and hiring key commercial roles.

### **Third Quarter Financial Results**

Cash, cash equivalents, restricted cash and short-term investments totaled \$54.1 million as of September 30, 2023, including the net proceeds from the \$25 million registered direct offering in July 2023, as compared to \$37.1 million as of June 30, 2023. Abeona estimates that its cash and cash equivalents, restricted cash and short-term investments as of September 30, 2023 are sufficient resources to fund operations into the fourth quarter of 2024.

Research and development expenses for the three months ended September 30, 2023 were \$7.1 million, compared to \$5.5 million for the same period of 2022. General and administrative expenses were \$4.2 million for the three months ended September 30, 2023, compared to \$3.9 million for the same period of 2022. Net loss attributable to common shareholders was \$11.8 million for the third quarter of 2023, or \$0.48 loss per common share as compared to a net loss attributable to common shareholders of \$6.4 million, or \$1.00 loss per common share, in the third quarter of 2022.

### **Conference Call Details**

Abeona Therapeutics will host a conference call and webcast today, November 13, 2023, at 8:30 a.m. ET, to discuss its financial results and developments. To access the call, dial 888-506-0062 (U.S. toll-free) or 973-528-0011 (international) and Entry Code: 963663 five minutes prior to the start of the call. A live, listen-only webcast and archived replay of the call can be accessed on the Investors & Media section of Abeona's website at [www.abeonatherapeutics.com](http://www.abeonatherapeutics.com). The archived webcast replay will be available for 30 days following the call.

### **About Abeona Therapeutics**

Abeona Therapeutics Inc. is a clinical-stage biopharmaceutical company developing cell and gene therapies for serious diseases. Abeona's lead clinical program is pz-cel (prademagene zamikeracel, formerly known as EB-101), its investigational autologous, COL7A1 gene-corrected epidermal sheets currently in development for recessive dystrophic epidermolysis bullosa. The Company's development portfolio also features AAV-based gene therapies for ophthalmic diseases with high unmet medical need. Abeona's novel, next-generation AAV capsids are being evaluated to improve tropism profiles for a variety of devastating diseases.

Abeona's fully integrated cell and gene therapy cGMP manufacturing facility produced pz-cel for the pivotal Phase 3 VIITAL™ study and is capable of clinical and potential commercial production of AAV-based gene therapies. For more information, visit [www.abeonatherapeutics.com](http://www.abeonatherapeutics.com).

### Forward-Looking Statements

*This press release contains certain statements that are forward-looking within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and that involve risks and uncertainties. We have attempted to identify forward-looking statements by such terminology as “may,” “will,” “believe,” “anticipate,” “expect,” “intend,” “potential,” and similar words and expressions (as well as other words or expressions referencing future events, conditions or circumstances), which constitute and are intended to identify forward-looking statements. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, numerous risks and uncertainties, including but not limited to, the timing and outcome of our Biologics License Application submission to the FDA for pz-cel; continued interest in our rare disease portfolio; our ability to enroll patients in clinical trials; the outcome of future meetings with the FDA or other regulatory agencies, including those relating to preclinical programs; the ability to achieve or obtain necessary regulatory approvals; the impact of any changes in the financial markets and global economic conditions; risks associated with data analysis and reporting; and other risks disclosed in the Company's most recent Annual Report on Form 10-K and subsequent periodic reports filed with the Securities and Exchange Commission. The Company undertakes no obligation to revise the forward-looking statements or to update them to reflect events or circumstances occurring after the date of this press release, whether as a result of new information, future developments or otherwise, except as required by the federal securities laws.*
