

Twin Vee PowerCats Launches Next Gen BoatsForSale.com Marketplace for Buyers and Sellers

Faster Deals, Lower Costs, Bigger Market Reach

FORT PIERCE, FL / ACCESS Newswire / August 19, 2025 / Twin Vee PowerCats Co. (Nasdaq:VEEE), ("Twin Vee" or the "Company"), a manufacturer, distributor, and marketer of power sport boats, today announced the launch of its fully enhanced BoatsForSale.com platform, delivering a top-tier online experience for boat buyers, private sellers, and dealers. Since acquiring the technology in February, Twin Vee has executed a targeted plan to elevate the platform to meet and exceed the performance and customer experience expectations of the other popular websites in the recreational marine industry.

Focusing on key priorities, the Twin Vee team believes that it has transformed BoatsForSale.com into a serious competitor in the boat listing marketplace. At the forefront of these upgrades is an Al-driven natural language search engine that replaces outdated, rigid search filters. Buyers can now find boats using intuitive phrases such as "fishing boats in Ft. Lauderdale" or "pontoon boats under \$200,000 near me", delivering a dramatically improved search experience.

"We believe that no other boat listing competitor comes close to this functionality," said Joseph Visconti, President and CEO of Twin Vee. "By focusing on the buyer's experience with natural language search, we're creating better results for our boat buyers. And that

translates into happy private sellers and dealers."

SEO optimization has also been a top priority. With advanced indexing, tagging, and strategic enhancements, BoatsForSale.com has increased organic search traffic by 67% and improved Florida search rankings by over 400% in just months. "Increasing by these percentages, in such a short time, shows the focus and strength of our team, and we've only just begun," said Tom Huffman, the Company's Chief Information Officer and head of Twin Vee's Digital Division. "We fully expect to be side-by-side in organic search with our main competitor, Boats Group."

Other advancements include:

- **Dealer Insights & Inventory Management**: A modern and polished dashboard providing unprecedented visibility into leads and seller inventory performance.
- Al-Driven Listing Automation: Photo-based transformations auto-generate complete listings, including standards, features, and SEO-tagged descriptions, ensuring consistency and maximizing visibility in organic search results.

According to Huffman, these initiatives save sellers significant time, create professional-grade listings, and increase the likelihood of converting leads into sales.

"We've executed our top priorities in short order and are now poised to provide superior results for our customers," added Visconti. "We're proud of our progress and look forward to announcing more innovations as we continue to disrupt and improve the marine industry."
