# Q2 2025 Earnings Conference Call

- July 31, 2025

Some of the statements, estimates or projections contained in this presentation are “forward-looking statements” within the meaning of the U.S. federal securities laws intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts contained, or incorporated by reference, in this presentation, including, without limitation, our expectations regarding our results of operations, future financial position, including our liquidity requirements and future capital expenditures, plans, prospects, actions taken or strategies being considered with respect to our liquidity position, including with respect to refinancing, amending the terms of, or extending the maturity of our indebtedness, our ability to comply with covenants under our debt agreements, expectations regarding our exchangeable notes, valuation and appraisals of our assets, expectations regarding our deferred tax assets, valuation allowances, expected fleet additions and cancellations, including expected timing thereof, our expectations regarding the impact of macroeconomic conditions and recent global events, and expectations relating to our sustainability program and decarbonization efforts may be forward-looking statements. Many, but not all, of these statements can be found by looking for words like “expect,” “anticipate,” “goal,” “project,” “plan,” “believe,” “seek,” “will,” “may,” “forecast,” “estimate,” “intend,” “future” and similar words. Forward-looking statements do not guarantee future performance and may involve risks, uncertainties and other factors which could cause our actual results, performance or achievements to differ materially from the future results, performance or achievements expressed or implied in those forward-looking statements. Examples of these risks, uncertainties and other factors include, but are not limited to the impact of: adverse general economic factors, such as fluctuating or increasing levels of interest rates, inflation, unemployment, underemployment, tariff increases and trade wars, and the volatility of fuel prices, declines in the securities and real estate markets, and perceptions of these conditions that decrease the level of disposable income of consumers or consumer confidence; our indebtedness and restrictions in the agreements governing our indebtedness that require us to maintain minimum levels of liquidity and be in compliance with maintenance covenants and otherwise limit our flexibility in operating our business, including the significant portion of assets that are collateral under these agreements; our ability to work with lenders and others or otherwise pursue options to defer, renegotiate, refinance or restructure our existing debt profile, near-term debt amortization, newbuild related payments and other obligations and to work with credit card processors to satisfy current or potential future demands for collateral on cash advanced from customers relating to future cruises; our need for additional financing or financing to optimize our balance sheet, which may not be available on favorable terms, or at all, and our outstanding exchangeable notes and any future financing which may be dilutive to existing shareholders; the unavailability of ports of call; future increases in the price of, or major changes, disruptions or reductions in, commercial airline services; changes involving the tax and environmental regulatory regimes in which we operate, including new and existing regulations aimed at reducing greenhouse gas emissions; the accuracy of any appraisals of our assets; our success in controlling operating expenses and capital expenditures; adverse events impacting the security of travel, or customer perceptions of the security of travel, such as terrorist acts, armed conflict, or threats thereof, acts of piracy, and other international events; public health crises and their effect on the ability or desire of people to travel (including on cruises); adverse incidents involving cruise ships; our ability to maintain and strengthen our brand; breaches in data security or other disturbances to our information technology systems and other networks or our actual or perceived failure to comply with requirements regarding data privacy and protection; changes in fuel prices and the type of fuel we are permitted to use and/or other cruise operating costs; mechanical malfunctions and repairs, delays in our shipbuilding program, maintenance and refurbishments and the consolidation of qualified shipyard facilities; the risks and increased costs associated with operating internationally; our inability to recruit or retain qualified personnel or the loss of key personnel or employee relations issues; impacts related to climate change and our ability to achieve our climate-related or other sustainability goals; our inability to obtain adequate insurance coverage; implementing precautions in coordination with regulators and global public health authorities to protect the health, safety and security of guests, crew and the communities we visit and to comply with related regulatory restrictions; pending or threatened litigation, investigations and enforcement actions; volatility and disruptions in the global credit and financial markets, which may adversely affect our ability to borrow and could increase our counterparty credit risks, including those under our credit facilities, derivatives, contingent obligations, insurance contracts and new ship progress payment guarantees; our reliance on third parties to provide hotel management services for certain ships and certain other services; fluctuations in foreign currency exchange rates; our expansion into new markets and investments in new markets and land-based destination projects; overcapacity in key markets or globally; and other factors set forth under “Risk Factors” in our most recently filed Annual Report on Form 10-K and subsequent filings with the Securities and Exchange Commission. The above examples are not exhaustive, and new risks emerge from time to time. There may be additional risks that we currently consider immaterial or which are unknown. Such forward-looking statements are based on our current beliefs, assumptions, expectations, estimates and projections regarding our present and future business strategies and the environment in which we expect to operate in the future. You are cautioned not to place undue reliance on the forward-looking statements included in this release, which speak only as of the date made. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in our expectations with regard thereto or any change of events, conditions or circumstances on which any such statement was based, except as required by law.

## Adjusted Net Cruise Cost ex. Fuel per Capacity Day<sup>1,2</sup>

**Expect to deliver ~\$200M+ in cumulative total savings by end of 2025;  
High confidence in delivering \$300M+ target through 2026**

1. Historical Adjusted Net Cruise Costs ex. Fuel per Capacity Day expressed as reported. Estimates expressed in Constant Currency.

2. Adjusted Net Cruise Costs represents a non-GAAP financial measure. See the Appendix for a reconciliation to the most directly comparable GAAP financial measure.

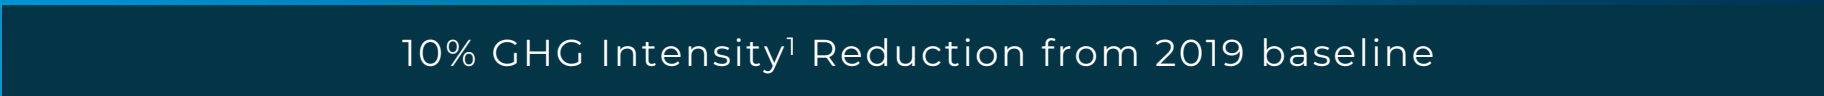

# CHARTING THE COURSE

## EXECUTING ON OUR STRATEGY

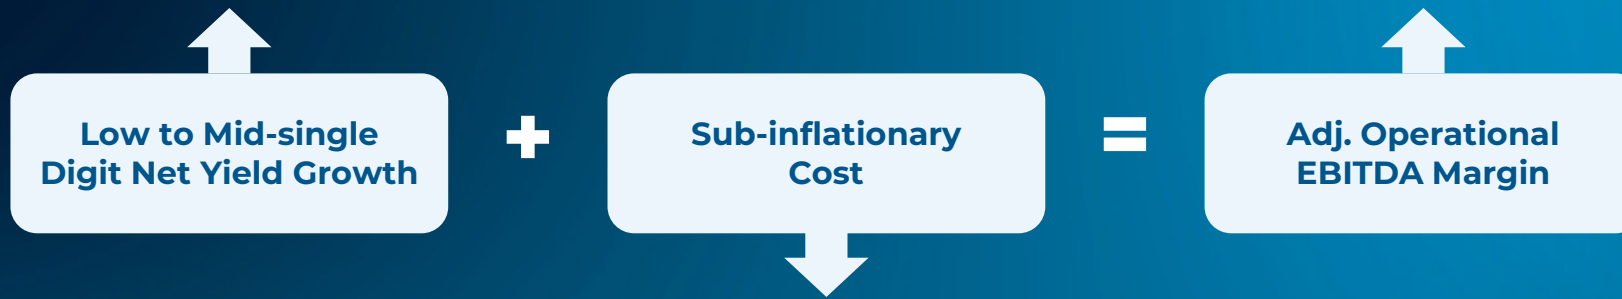

## STRONG 2026 FINANCIAL TARGETS

Adj. Operational EBITDA Margin	Adj. EPS	Net Leverage	Adj. ROIC
<b>~39%</b> Approaching historical margins	<b>~\$2.45</b> >30% CAGR from 2024 <sup>2</sup>	<b>Mid 4x</b> Strengthening the balance sheet	<b>12%</b> Record levels

1. GHG intensity is measured by MTCO<sub>2</sub>e on a per Capacity Day basis. The targets cover NCLH's emissions from its fleet of ships, islands and facilities (Scopes 1 & 2) as well as upstream fuel- and energy-related activities, including well-to-tank emissions (portion of Scope 3). Capacity Days is defined as Berths available for sale multiplied by the number of cruise days for the period for ships in service.

2. Based on May 2024 guidance.

## SUSTAINABILITY DISCLOSURE

Received “B” score for climate change and water in latest CDP submission, surpassing the Marine Transport Sector, North America and Global averages.

## SAFE OPERATIONS

100% of public health inspections passed, with over 93% of CDC-evaluated ships scoring 95 or higher, and 100% scoring 92 or higher.

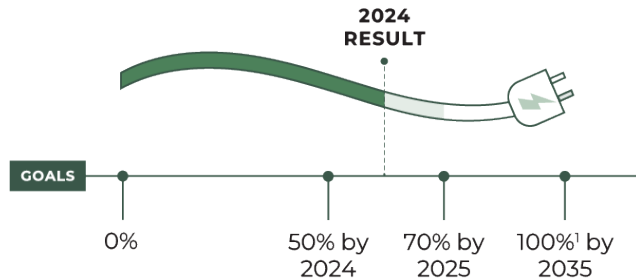

## COMMUNITY SUPPORT

Donated ~\$1.8M through our charitable giving programs in cash, cruise and other in-kind contributions, including ~80 cruise donations.

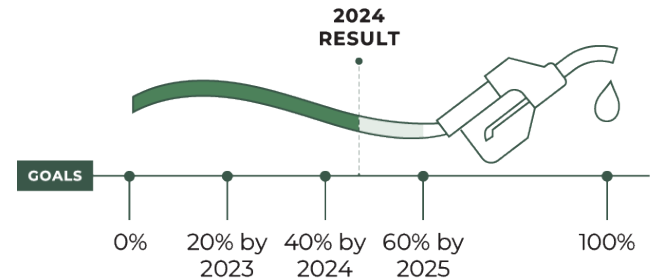

## SHORE POWER

**59%** of our fleet was equipped with shore power technology by the end of 2024.

## EXPLORING ALTERNATIVE FUEL

**47%** of our fleet was tested with biofuel blends, exceeding our 40% by 2024 goal.

## GOLD ESG LEADER

NCLH received top award at annual ESG Shipping Awards for two consecutive years, recognizing excellence in Climate Action, Social and Community Initiatives.

2024: Gold ESG Award

2025: Silver ESG Award

## BEST EMPLOYER AWARDS

1. In the case that it is determined unfeasible for shore power technology to be installed on a ship, we are supportive of the directional vision that the ship will operate an alternative low-carbon fuel while in port, where the supply is available.

## Q2 2025 RESULTS OVERVIEW

Adjusted Net Income	~\$571 million		~\$1,045 million
Adjusted EPS <sup>3</sup>	~\$1.14		~\$2.05

1. Net Yield and Adjusted Net Cruise Cost Excluding Fuel per Capacity Day expressed in Constant Currency. Additional guidance metrics can be found in the Appendix on slide 22 and in the Company's earnings release.

2. Total Dry-dock expense in Full Year 2025 of \$5 per Capacity Day is expected to be the same as the Full Year 2024 impact.

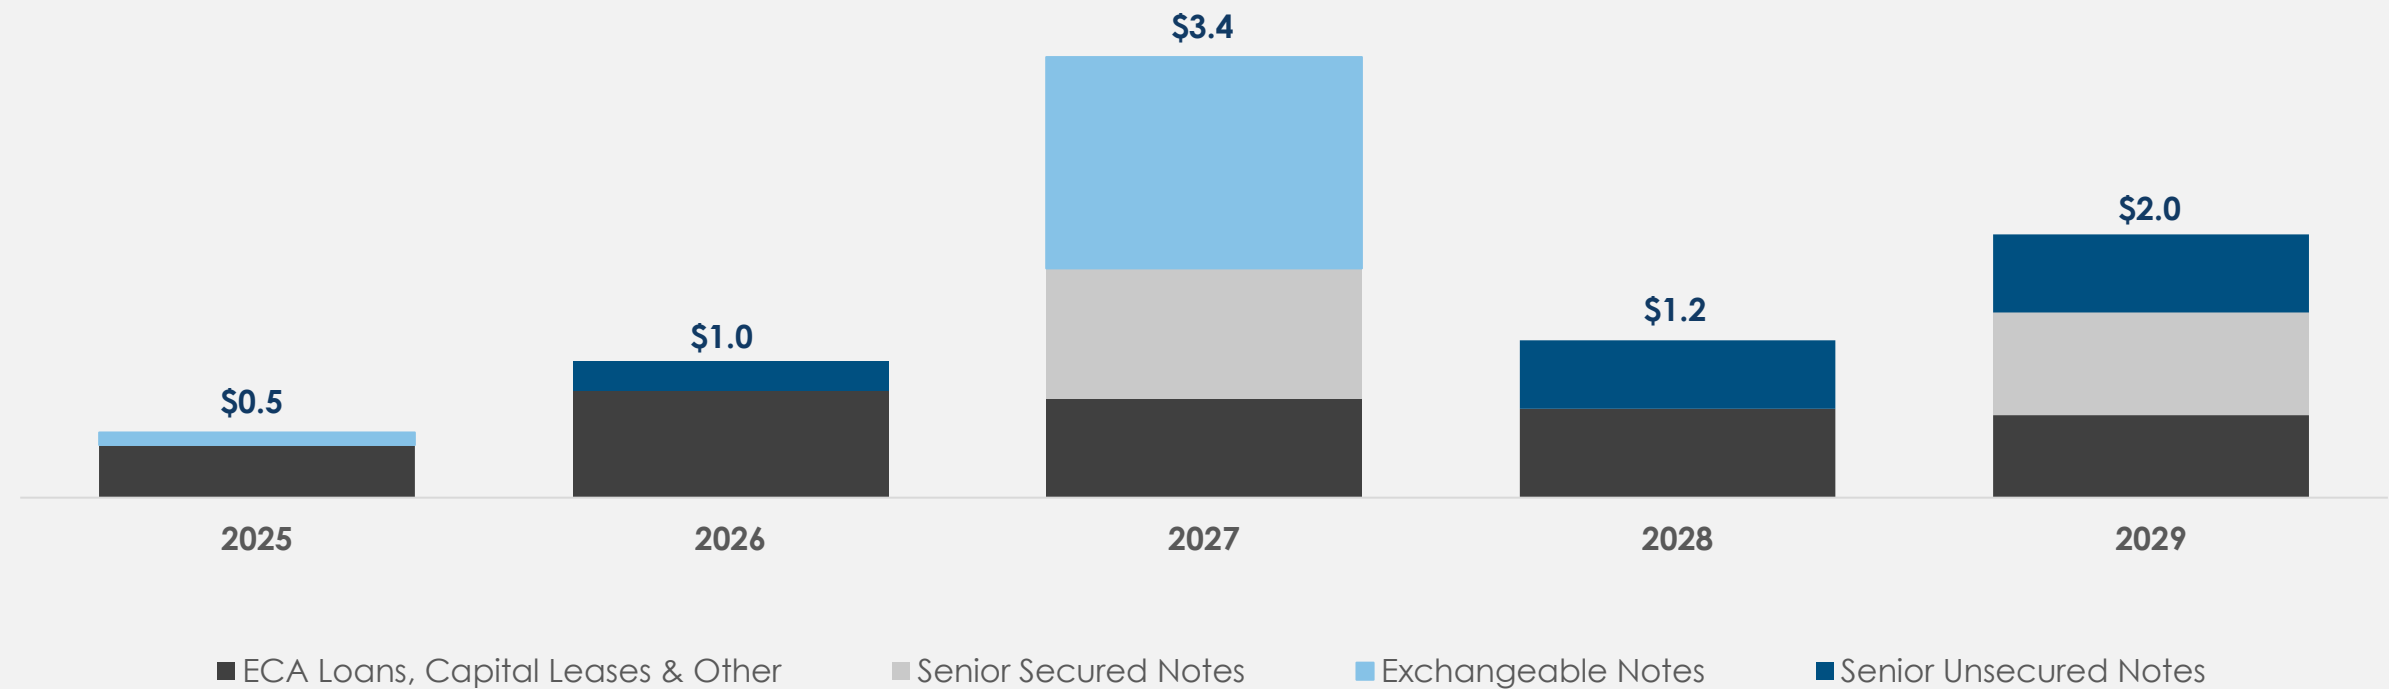

3. Based on guidance and using diluted weighted-average shares outstanding of approximately 503 million for Q3 and 507 million for FY 2025.

## Adj. Operational EBITDA Margin<sup>1</sup>

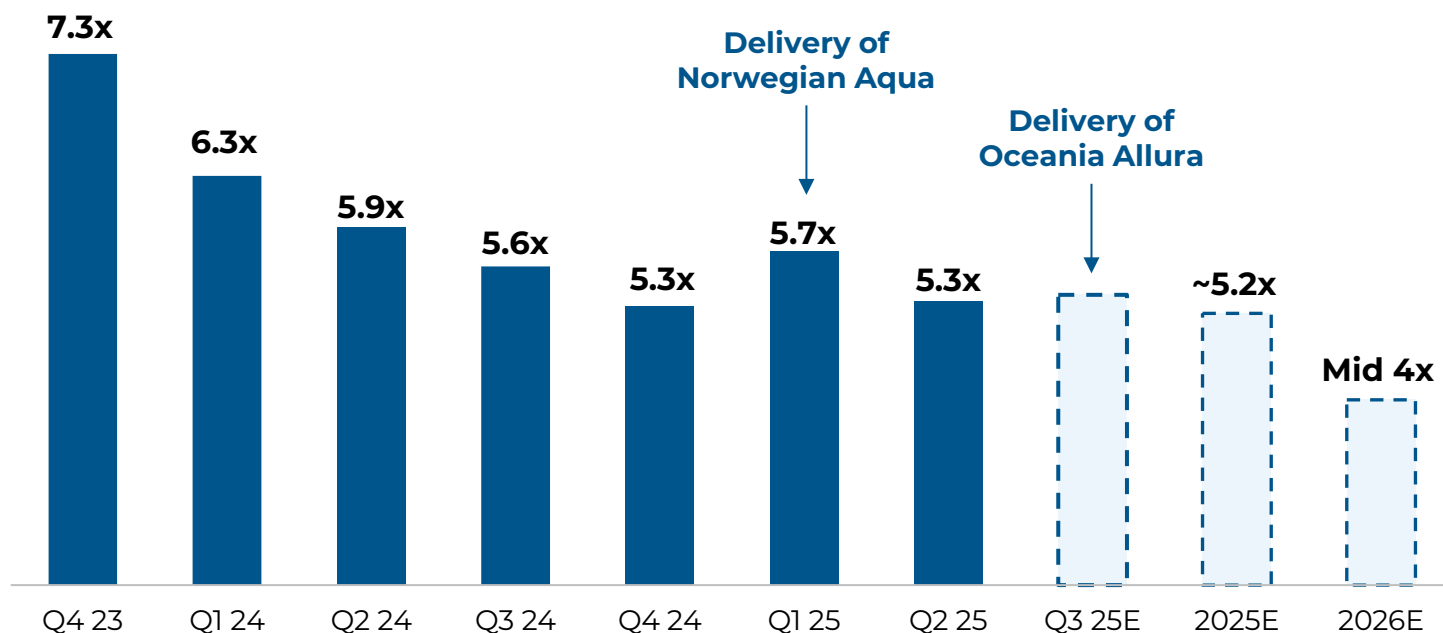

**Adj. Operational EBITDA Margin up 560 bps since year-end 2023**

As of 6/30/2025  
(\$ billions)

**Debt portfolio is 94% fixed rate, at a weighted average interest rate of ~4.3%**

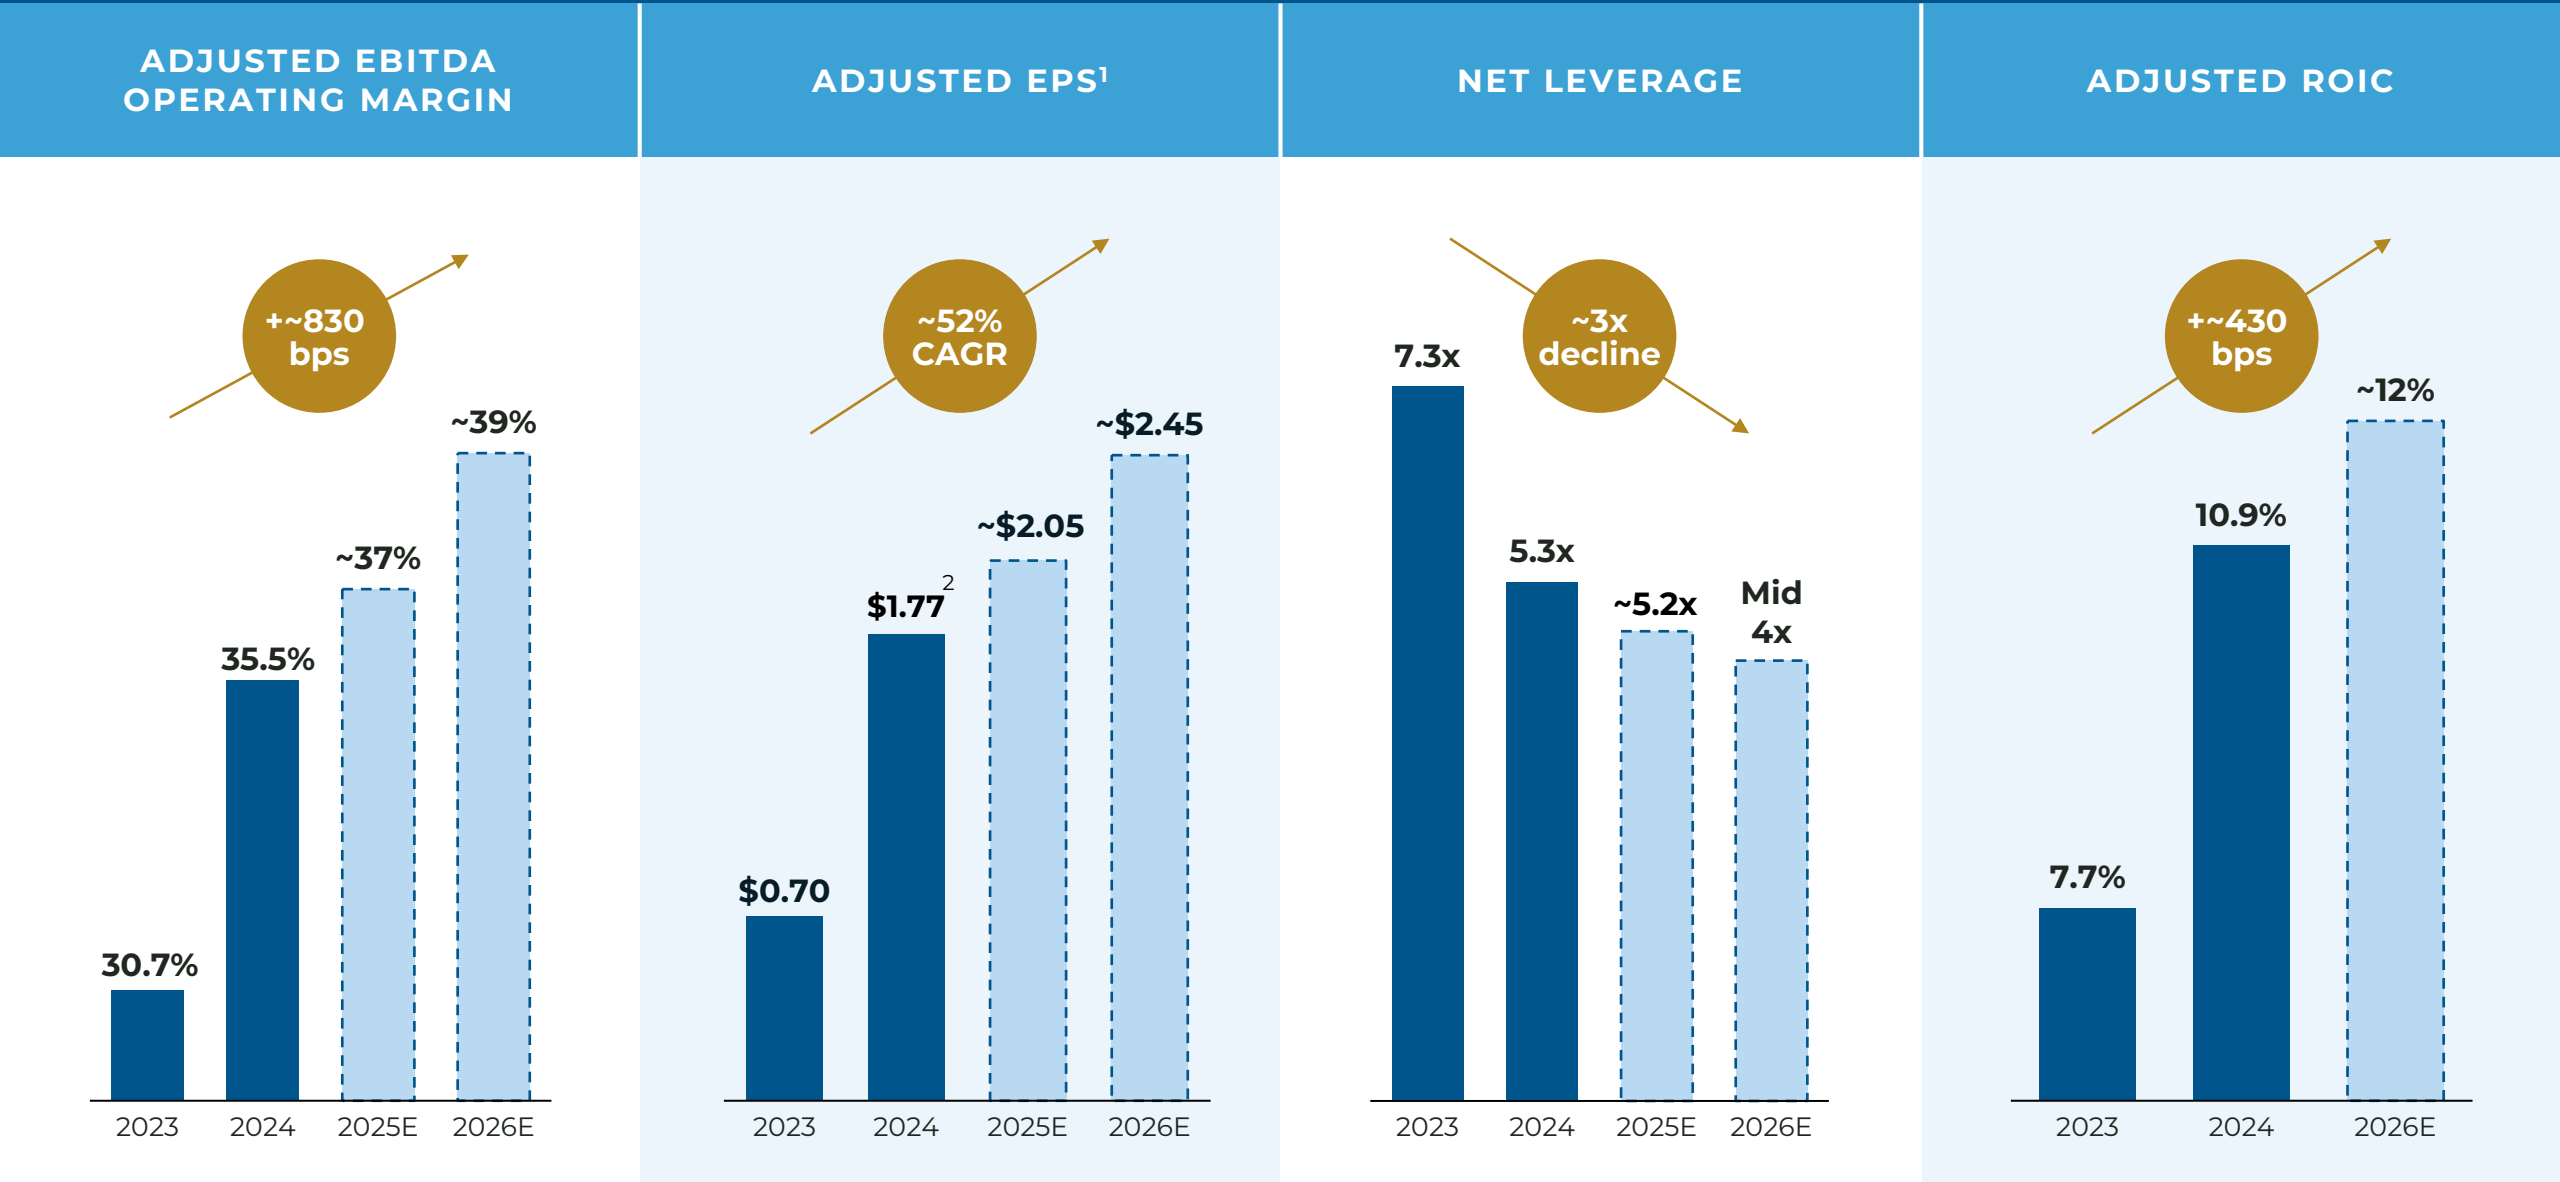

Note: All future repayments, total debt amounts and certain variable interest rates are forward-looking and involve risks and uncertainties and are subject to change based on future events. These statements should be considered in conjunction with the Cautionary Statement Concerning Forward-Looking Statements contained in our Q2 2025 earnings release.

Net Leverage Reduction<sup>1</sup>**Q2 2025 Net Leverage decreased to 5.3x**

Net Leverage expected to end 2025 at ~5.2x

Expect continued organic reduction in Net Leverage from current levels driven by Adj. EBITDA expansion and scheduled amortization payments

**Executing on multi-year plan to reduce Net Leverage levels and de-risk balance sheet to drive shareholder value**

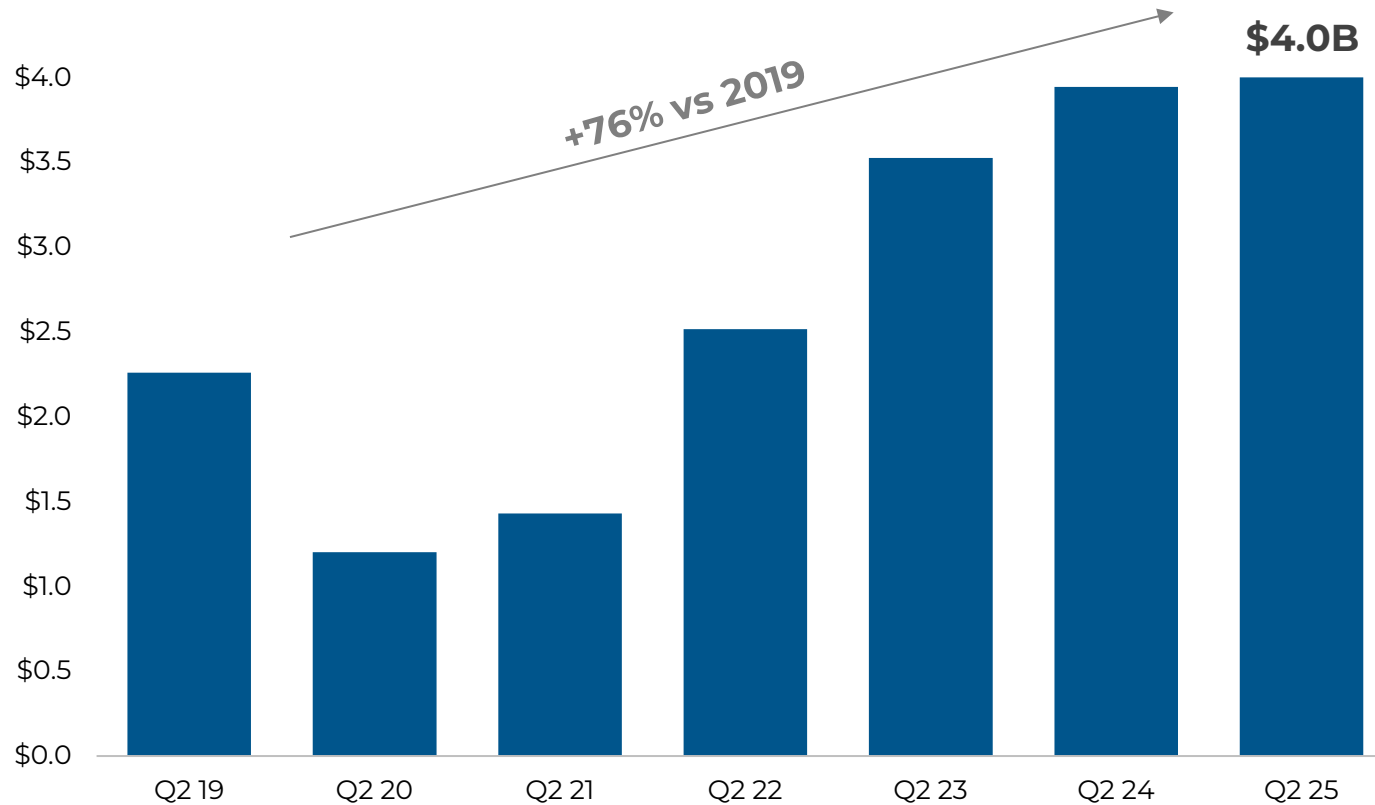

1. 2026 targets based on guidance and using diluted weighted-average shares outstanding of approximately 515 million.  
 2. Includes an approximate \$0.05 foreign exchange benefit, mainly related to the revaluation of advance ticket sales

1. Estimates provided for a range of scenarios for illustrative purposes only. Shares outstanding are based upon several estimates and assumptions. The number of shares in actual calculations of earnings per share will likely be different from those set forth above. Estimates are calculated using the "if-converted" method for exchangeable notes consistent with FASB accounting standards. The exchangeable notes considered for Q3 2025 and full year 2025 include our 1.125% Exchangeable Notes due 2027, our 2.5% Exchangeable Notes due 2027 and our 5.375% Exchangeable Notes due 2025. Our Exchangeable Notes Due 2025 have or are expected to be settled in shares, while both of our Exchangeable Notes due 2027 can be settled in cash or shares at our election. The premium on the 0.875% 2030 Exchangeable Notes Due 2030 will only be included in the diluted share count when the share price exceeds the conversion price.

2. Interest addback for earnings per diluted share, net of taxes.

# DEFINITIONS AND NON-GAAP INFORMATION AND RECONCILIATION

Non-GAAP financial measures should not be used as a substitute for GAAP financial measures, or considered in isolation, for the purpose of analyzing operating performance, financial position or cash flows. The Company does not provide certain estimated future results on a GAAP basis because the Company is unable to predict, with reasonable certainty, the future movement of foreign exchange rates or the future impact of certain gains and charges. These items are uncertain and will depend on several factors, including industry conditions, and could be material to the Company's results computed in accordance with GAAP.

**Adjusted EBITDA.** EBITDA adjusted for other income (expense), net and other supplemental adjustments.

**Adjusted EPS.** Adjusted Net Income divided by the number of diluted weighted-average shares outstanding.

**Adjusted Gross Margin.** Gross margin adjusted for payroll and related, fuel, food, other and ship depreciation. Gross margin is calculated pursuant to GAAP as total revenue less total cruise operating expense and ship depreciation.

**Adjusted EBITDA Margin.** Adjusted EBITDA divided by revenue.

**Adjusted Net Cruise Cost Excluding Fuel.** Net Cruise Cost less fuel expense adjusted for supplemental adjustments.

**Adjusted Net Income.** Net income (loss), adjusted for the effect of dilutive securities and other supplemental adjustments.

**Adjusted Operational EBITDA Margin.** Adjusted EBITDA divided by Adjusted Gross Margin.

**Adjusted ROIC.** An amount expressed as a percentage equal to (i) Adjusted EBITDA less depreciation and amortization plus other supplemental adjustments, divided by (ii) the sum of total long-term debt and shareholders' equity as of the end of a respective quarter, averaged for the most recent five fiscal quarters ending with the last date of the applicable fiscal year.

**Berths.** Double occupancy capacity per cabin (single occupancy per studio cabin) even though many cabins can accommodate three or more passengers.

**Capacity Days.** Berths available for sale multiplied by the number of cruise days for the period for ships in service excluding Norwegian Sky and Seven Seas Navigator when their charters begin in 2026 and Norwegian Sun and Insignia when their charters begin in 2027.

**Constant Currency.** A calculation whereby foreign currency-denominated revenues and expenses in a period are converted at the U.S. dollar exchange rate of a comparable period in order to eliminate the effects of foreign exchange fluctuations.

**Dry-dock.** A process whereby a ship is positioned in a large basin where all of the fresh/sea water is pumped out in order to carry out cleaning and repairs of those parts of a ship which are below the water line.

**EBITDA.** Earnings before interest, taxes, and depreciation and amortization.

**Net Cruise Cost.** Gross Cruise Cost less commissions, transportation and other expense and onboard and other expense.

**Net Debt.** Long-term debt, including current portion, less cash and cash equivalents.

**Net Leverage.** Net Debt divided by Adjusted EBITDA for the trailing twelve-months.

**Net Per Diem.** Adjusted Gross Margin divided by Passenger Cruise Days.

**Net Yield.** Adjusted Gross Margin per Capacity Day.

**Occupancy, Occupancy Percentage or Load Factor.** The ratio of Passenger Cruise Days to Capacity Days. A percentage in excess of 100% indicates that three or more passengers occupied some cabins.

**Passenger Cruise Days.** The number of passengers carried for the period, multiplied by the number of days in their respective cruises.
