Letter from the CEO

I am pleased to report Greystone Housing Impact Investors LP's operating results for the fourth quarter of 2023. We reported the following financial results as of and for the three months ended December 31, 2023:

- Total revenues of \$25.2 million
- Net income of \$0.24 per Beneficial Unit Certificate ("BUC"), basic and diluted
- Cash Available for Distribution ("CAD") of \$0.27 per BUC
- Total assets of \$1.51 billion
- Total Mortgage Revenue Bond ("MRB") and Governmental Issuer Loan ("GIL") investments of \$1.2 billion

We reported the following notable transactions during the fourth quarter of 2023:

- Advanced funds on MRB and taxable MRB investments totaling \$24.6 million.
- Advanced funds on GIL and property loan investments totaling \$25.3 million.
- Advanced funds to joint venture equity investments totaling \$16.1 million, which includes funds advanced to two new joint venture equity investments, Freestone Greenville and Freestone Ladera.
- Sold the Suites on Paseo MF Property for gross proceeds of \$40.7 million and a reported gain on sale of \$10.4 million.
- Freddie Mac executed the forward purchase of one GIL investment during the quarter. Our GIL and property loan investments totaling \$53.4 million associated with construction financing of an affordable multifamily project were settled in full at par plus accrued interest.
- Completed a new secured financing transaction (the "TEBS Residual Financing") secured by our residual interests in three Freddie Mac Tax Exempt Bond Securitization financings ("TEBS Financings") for gross proceeds of \$61.5 million with most of the funds used to pay down existing variable-rate corporate debt with a higher interest rate and a shorter maturity.
- Received TOB trust financing proceeds totaling \$34.0 million as leverage on various investment fundings.

We continue to strategically invest in the affordable multifamily MRB and GIL asset classes where we believe we can earn attractive leveraged returns. We also continue to see consistent operating results from the properties underlying our affordable multifamily MRBs and GILs, with all such investments being current on contractual principal and interest payments as of December 31, 2023.

Other highlights of our investment portfolio include the following:

- We continue to execute on our hedging strategy, primarily through interest rate swaps, to reduce the impact of recently volatile market interest rates. We received net payments under our interest rate swap portfolio of approximately \$1.9 million and \$6.0 million during the three months and year ended December 31, 2023, respectively.
- Two joint venture equity investment properties have stabilized operations and two additional properties have begun leasing activities as of December 31, 2023. In addition, two properties began leasing activities in February 2024. Seven of our joint venture equity investments are currently under construction or in development, with none having experienced material supply chain disruptions for either construction materials or labor to date.

In addition, we issued 2,250,000 Series B Preferred Units to date in 2024. We issued 1,750,000 Series B Preferred Units, with a stated value of \$17.5 million, to a financial institution in exchange for 1,750,000 previously outstanding Series A Preferred Units. We also issued 500,000 Series B Preferred Units to a new institutional investor for gross proceeds of \$5.0 million. The Series B Preferred Units are non-cumulative, non-convertible, and non-voting units of limited partnership interests in the Partnership with an annual distribution rate of 5.75%, which is an attractive cost of capital for the Partnership. The earliest potential redemption date for the newly issued Series B Preferred Units is early 2030, with certain exceptions.

We have noticed traditional bank lenders are offering less credit or imposing more restrictive terms on borrowers, creating new opportunities for us to pursue beyond our traditional pipeline. We will continue to strategically work with strong sponsors on new investment opportunities where traditional sources of capital may not currently be available. We will also continue to seek to develop new relationships, particularly with those sponsors that are existing clients of Greystone and its affiliates.

Thank you for your continued support of Greystone Housing Impact Investors LP!

Greystone Housing Impact Investors LP was formed for the primary purpose of acquiring a portfolio of MRBs that are issued to provide construction and/or permanent financing of affordable multifamily residential and commercial properties. We also invest in GILs, which are similar to MRBs, to provide construction financing for affordable multifamily properties. We expect and believe the interest paid on the MRBs and GILs to be excludable from gross income for federal income tax purposes. In addition, we have invested in equity interests in multifamily, market rate properties throughout the U.S. We may own interests in multifamily properties (“MF Properties”) until the “highest and best use” can be determined. We continue to pursue a business strategy of acquiring additional MRBs and GILs on a leveraged basis, and other investments.

Debt Financing
(Dollar amounts in thousands)

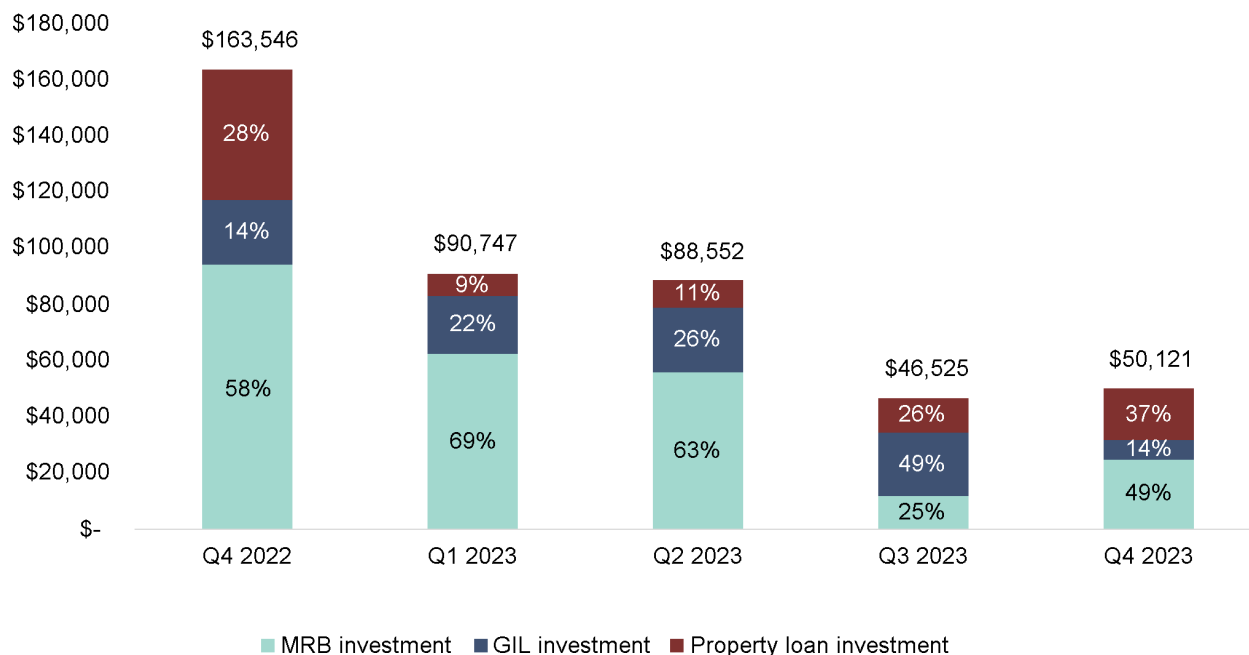

⁽¹⁾ The variable-rate debt financing is hedged through our interest rate swap agreements. Though the variable rate indices may differ, these interest rate swaps have effectively synthetically fixed the interest rate of the related debt financing.

⁽²⁾ The securitized assets and related debt financings each have variable interest rates. Though the variable rate indices may differ, the Partnership is largely hedged against rising interest rates.

Interest Rate Sensitivity Analysis

The interest rate sensitivity table below represents the change in interest income from investments, net of interest on debt and settlement payments for interest rate derivatives over the next twelve months, assuming an immediate parallel shift in the SOFR yield curve and the resulting implied forward rates are realized as a component of this shift in the curve and assuming management does not adjust its strategy in response. The amounts in the table below do not consider any potential non-cash derivative fair value adjustments in determining the net interest income impact.

Tax Income Information Related to Beneficial Unit Certificates

The following table summarizes tax-exempt and taxable income as percentages of total income allocated to the Partnership's BUCs on Schedule K-1 for tax years 2021 to 2023. This disclosure relates only to income allocated to the Partnership's BUCs and does not consider an individual unitholder's basis in the BUCs or potential return of capital as such matters are dependent on the individual unitholders' specific tax circumstances. The disclosure also assumes that the individual unitholder can utilize all allocated losses and deductions, even though such items may be limited depending on the unitholder's specific tax circumstances. Such amounts are for all BUC holders in the aggregate during the year. Income is allocated to individual investors monthly and amounts allocated to individual investors may differ from these percentages due to, including, but not limited to, BUC purchases and sales activity and the timing of significant transactions during the year.

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Tax-exempt income	40%	25%	32%
Taxable income	60%	75%	68%
	<u>100%</u>	<u>100%</u>	<u>100%</u>

Unrelated Business Taxable Income

In recent years, the Partnership has generated little to no Unrelated Business Taxable Income ("UBTI") for BUC unitholders. For tax years 2021 to 2023, the Partnership generated a net loss from activities considered to be UBTI as reported on investor Schedule K-1s. The rules around UBTI are complex, so please consult your tax advisor.
