

VF Reports 2015 Fourth Quarter and Full Year Results; Announces Outlook for 2016

- **2015 revenue up 1 percent to \$12.4 billion (up 6 percent currency neutral); excluding changes in foreign currency and last year's 53rd week, 2015 revenue increased 7 percent;**
- **2015 EPS was up 20 percent to \$2.85 from \$2.38 per share in 2014; adjusted EPS, which excludes noncash impairment charges in both 2015 and 2014, was flat at \$3.08 (up 12 percent currency neutral);**
- **2016 revenue expected to increase at a mid single-digit percentage rate;**
- **2016 gross margin expected to approximate 48.8 percent, net of an anticipated 70 basis points of negative impact from changes in foreign currency;**
- **2016 currency neutral EPS expected to increase 11 percent (up 5 percent reported) compared to adjusted EPS of \$3.08 in 2015; and,**
- **Expected to return \$1.5 billion to shareholders in 2016 through share repurchases and dividends.**

GREENSBORO, N.C.-- VF Corporation (NYSE: VFC) today reported financial results for its fourth quarter and full year ended January 2, 2016. All per share amounts are on a diluted basis. This release refers to amounts as "reported", "currency neutral" and "adjusted." Currency neutral and adjusted amounts are non-GAAP financial measures described below under the "Currency Neutral – Excluding the Impact of Foreign Currency" and "Adjusted Amounts – Excluding Noncash Impairment Charges" paragraphs, respectively. Unless otherwise noted, currency neutral and reported amounts are the same. This release also refers to the impact of the 53rd week of 2014, as described under the "52/53 Week Fiscal Year" paragraph.

"The final quarter of 2015 challenged many companies to leverage core strengths and adapt quickly to a changing landscape," said Eric Wiseman, VF Chairman and Chief Executive Officer. "Our focus, discipline and agility amid a softer consumer environment, record warm weather and a strengthening U.S. dollar have us well positioned to navigate what we believe to be a relatively short-term challenge. Going forward, I remain confident in VF's ability to deliver continued long-term profitable growth and value creation for our shareholders."

"Our full year 2015 was also affected by many of the same challenges we saw in the fourth quarter, including a tough comparison against 2014's 53rd week," continued Wiseman. "In fact, when normalized over 2014 and 2015, currency neutral revenue grew 7 percent and earnings grew 13 percent annually over this period, in line with our long-term earnings growth target."

Fourth Quarter 2015 Review

- **Revenue** was down 5 percent (down 1 percent currency neutral). Excluding the impact of changes in foreign currency and the 53rd week, fourth quarter revenue increased 3 percent.
- **Gross margin** was 49.0 percent on a currency neutral basis, in line with last year. Reported gross margin was down 70 basis points to 48.3 percent as benefits from more favorable product costs and continued mix shift to higher margin businesses were offset by foreign currency headwinds and aggressive efforts to manage inventory.
- A \$144 million pre-tax, noncash impairment charge (\$0.23 per share after tax) was recorded to reduce the carrying value of intangible assets related to our *7 For All Mankind*[®], *Ella Moss*[®] and *Splendid*[®] brands.
- **Operating income**, on an adjusted basis, declined 6 percent to \$541 million in the fourth quarter. On a GAAP basis, fourth quarter operating income was \$397 million. Adjusted **operating margin** reached 15.8 percent, net of 70 basis points of foreign currency headwinds, compared with 16.2 percent in the fourth quarter of 2014. On a GAAP basis, fourth quarter operating margin was 11.6 percent compared with 5.1 percent in last year's same period.
- Adjusted **earnings per share** was \$0.95 per share compared with \$0.98 per share during the same period last year. Excluding the negative impact of foreign currency, fourth quarter adjusted earnings per share was up 5 percent. On a GAAP basis, earnings per share was up 157 percent to \$0.72.

The following table provides comparisons of changes in reported, currency neutral, and currency neutral excluding the 53rd week revenue growth rates for the fourth quarter of 2015.

Q4 2015

	% Change Reported	% Change Currency Neutral	% Change Currency Neutral & Excluding 53rd Week
Coalition Revenue			
Outdoor & Action Sports	(3%)	1%	5%
Jeanswear	(2%)	1%	6%
Imagewear	(13%)	(12%)	(7%)
Sportswear	(9%)	(9%)	(6%)
Contemporary Brands	(19%)	(17%)	(10%)
Total Coalition Revenue	(5%)	(1%)	3%

Full Year 2015 Review

- **Revenue** increased 1 percent (up 6 percent currency neutral) to \$12.4 billion driven by strength in our Outdoor & Action Sports coalition, and our international and direct-to-consumer platforms. For comparison purposes, excluding the impact of changes in foreign currency and the 53rd week, full year revenue increased 7 percent.
- **Gross margin** on a currency neutral basis improved 30 basis points to 49.1 percent. Reported gross margin was 48.3 percent, compared with 48.8 percent in 2014. For the full year, a continued shift in our revenue mix toward higher-margin businesses and more favorable product costs was more than offset by an 80 basis point negative impact from changes in foreign currency and aggressive efforts to manage inventory.

- **Operating income** on an adjusted basis was \$1.8 billion, in line with 2014. On a GAAP basis, full year operating income was \$1.7 billion. Adjusted **operating margin** was 14.6 percent in 2015, net of 70 basis points of foreign currency headwinds, compared with 14.9 percent in 2014. On a GAAP basis, operating margin was 13.4 percent in 2015 compared with 11.7 percent in 2014.
- Adjusted **earnings per share** was in line with 2014 adjusted EPS of \$3.08 per share (up 12 percent currency neutral). On a GAAP basis, full year earnings per share was \$2.85, an increase of 20 percent compared with 2014.

The following table provides comparisons of changes in reported, currency neutral, and currency neutral excluding the 53rd week revenue growth rates for the full year 2015.

2015

	% Change Reported	% Change Currency Neutral	% Change Currency Neutral & Excluding 53rd Week
Coalition Revenue			
Outdoor & Action Sports	3%	9%	11%
Jeanswear	0%	4%	5%
Imagewear	(2%)	(1%)	0%
Sportswear	(2%)	(2%)	(1%)
Contemporary Brands	(14%)	(11%)	(9%)
Total Coalition Revenue	1%	6%	7%

Coalition Review

Fourth quarter revenue for the **Outdoor & Action Sports** coalition was down 3 percent (up 1 percent currency neutral) to \$2.1 billion. Full year Outdoor & Action Sports revenue increased 3 percent in 2015 (up 9 percent currency neutral) to \$7.4 billion. Excluding the negative impact of foreign currency and the 53rd week, fourth quarter and full year revenue increased 5 percent and 11 percent, respectively.

Fourth quarter revenue for *The North Face*[®] brand was down 4 percent (down 2 percent currency neutral) impacted significantly by record warm weather. Excluding the negative impact of foreign currency and the 53rd week, fourth quarter revenue for *The North Face*[®] brand was up 1 percent. By region, *The North Face*[®] brand's revenue was down at a low-single digit percentage rate in the Americas, down at a low-teen percentage rate in Europe (down mid single-digit currency neutral), and down at a low-single digit percentage rate in Asia Pacific (up low single-digit currency neutral). For the full year, revenue for *The North Face*[®] brand grew 1 percent (up 5 percent currency neutral) to \$2.3 billion. Excluding the negative impact of foreign currency and the 53rd week, 2015 revenue for *The North Face*[®] brand grew 6 percent.

Revenue for the *Vans*[®] brand in the fourth quarter was up 3 percent (up 8 percent currency neutral). Excluding the negative impact of foreign currency and the 53rd week, fourth quarter revenue for the *Vans*[®] brand increased 13 percent. Revenue in the Americas region was up at a low single-digit percentage rate in the quarter (up mid single-digit currency neutral), up more than 20 percent in the Asia Pacific region and down at a mid single-digit rate (up high single-digit currency neutral) in Europe. Revenue for the *Vans*[®] brand for the full year was up 7 percent (up 14 percent currency neutral) to reach \$2.2 billion. Excluding the negative

impact of foreign currency and the 53rd week, 2015 revenue for the *Vans*® brand was up 16 percent.

Timberland® brand revenue was down 4 percent (up 1 percent currency neutral) in the fourth quarter impacted significantly by record warm weather. Excluding the negative impact of foreign currency and the 53rd week, fourth quarter revenue for the *Timberland*® brand grew 5 percent. In the Americas region, revenue was down at a low single-digit rate and in Europe, the *Timberland*® brand was down at a high single-digit rate (up at a mid single-digit rate currency neutral). In Asia Pacific, fourth quarter revenue was down at a mid single-digit percentage rate (down low single-digit currency neutral). Full year *Timberland*® brand revenue was up 2 percent to \$1.8 billion, or an increase of 10 percent on a currency neutral basis. Excluding the negative impact of foreign currency and the 53rd week, 2015 revenue for the *Timberland*® brand increased 12 percent.

Fourth quarter operating income for Outdoor & Action Sports declined 11 percent to \$386 million (down 5 percent currency neutral). Operating margin was 18.4 percent in the quarter and 17.1 percent for the full year.

Jeanswear fourth quarter revenue was down 2 percent (up 1 percent currency neutral) to \$737 million. Excluding the negative impact of foreign currency and the 53rd week, fourth quarter revenue for Jeanswear was up 6 percent. Revenue for the Americas region was down at a low single-digit rate (flat currency neutral). In Europe, revenue was down at a low double-digit percentage rate (up low single-digit currency neutral) and in Asia, revenue was up at a mid single-digit rate (up low double-digit currency neutral). In 2015, global Jeanswear revenue was flat at \$2.8 billion (up 4 percent currency neutral).

Fourth quarter revenue for the *Wrangler*® brand was down 4 percent (down 1 percent currency neutral) with mid single-digit growth in the U.S. mass channel offset by weakness in the western specialty business. *Wrangler*® brand revenue in Europe was down at a low-teen percentage rate (down low single-digit currency neutral) and up at a high single-digit rate (up low double-digit currency neutral) in Asia Pacific. Full year revenue for the *Wrangler*® brand was unchanged on a reported basis, or up 4 percent currency neutral to reach \$1.7 billion.

Revenue for the *Lee*® brand in the fourth quarter was in line with last year's same period (up 5 percent currency neutral) including low single-digit growth in the Americas region, a mid single-digit percentage increase in Asia Pacific (up low double-digit currency neutral) and a high single-digit decline in Europe (up mid single-digit currency neutral). For the full year, reported revenue for the *Lee*® brand was consistent with 2014, or up 5 percent on a currency neutral basis.

Operating income for Jeanswear in the fourth quarter was down 1 percent to \$141 million (up 9 percent currency neutral). Operating margin increased 40 basis points to 19.1 percent in the quarter, and was up 40 basis points for the full year to 19.2 percent.

Imagewear revenue was down 13 percent (down 12 percent currency neutral) in the fourth quarter to \$259 million with low single-digit growth in the Licensed Sports Group business offset by more than 20 percent lower revenue in the workwear business due primarily to the impact of considerably lower oil and gas exploration. Excluding the negative impact of

foreign currency and the 53rd week, fourth quarter revenue for Imagewear was down 7 percent. For the full year, revenue for the Imagewear coalition was down 2 percent (down 1 percent currency neutral) to \$1.1 billion.

Fourth quarter operating income for Imagewear was down 19 percent to \$39 million, with a 100 basis point decline in operating margin to 15.2 percent. For the full year, Imagewear operating margin was 14.6 percent, a 30 basis point decline over 2014.

Sportswear fourth quarter revenue decreased 9 percent to \$196 million. *Nautica*® brand revenue was down at a low double-digit percentage rate and the *Kipling*® brand's U.S. business was up at a low single-digit percentage rate compared with the same period last year. Excluding the negative impact of foreign currency and the 53rd week, fourth quarter revenue for Sportswear was down 6 percent. For the year, Sportswear coalition revenue was down 2 percent to \$635 million.

In the fourth quarter, operating income decreased 12 percent to \$28 million with a 50 basis point decrease in operating margin to 14.5 percent. 2015 operating margin for the Sportswear coalition improved 40 basis points to 12.4 percent, reflecting ongoing efforts to elevate the *Nautica*® brand's business model.

Contemporary Brands coalition fourth quarter revenue was down 19 percent (down 17 percent currency neutral) to \$86 million. Excluding the negative impact of foreign currency and the 53rd week, fourth quarter revenue for Contemporary Brands was down 10 percent. For the full year, Contemporary Brands coalition revenue was down 14 percent (down 11 percent currency neutral) to \$344 million.

International Review

International revenue in the fourth quarter was down 6 percent (up 4 percent currency neutral). Excluding the negative impact of foreign currency and the 53rd week, fourth quarter international revenue was up 7 percent. Revenue in Europe was down 9 percent (up 2 percent currency neutral) and in the Asia Pacific region was up 3 percent (up 8 percent currency neutral). Revenue in the Americas (non-U.S.) region was down 8 percent (up 7 percent currency neutral). International revenue was 33 percent of total VF fourth quarter sales, the same ratio as 2014. For the full year, international revenue represented 36 percent of total VF sales, compared with 38 percent in 2014.

Direct-to-Consumer Review

Direct-to-consumer revenue was down 1 percent (up 3 percent currency neutral) in the fourth quarter, a result negatively impacted by record warm weather and a sluggish economic environment. Excluding the negative impact of foreign currency and the 53rd week, fourth quarter direct-to-consumer revenue was up 11 percent. There were 1,520 VF owned retail stores at the end of 2015. Direct-to-consumer revenue reached 34 percent of total revenue in the fourth quarter compared with 32 percent in the 2014 period. For the full year, direct-to-consumer revenue was 27 percent of total VF revenue compared with 26 percent in 2014.

Balance Sheet Review

Inventories were up 9 percent compared with December 2014 levels with more than half of the increase directly attributable to cold weather products. In 2015, VF's cash generation from operations reached \$1.1 billion and the company returned nearly \$1.3 billion to shareholders through dividends and share repurchases.

Adjusted Amounts – Excluding Noncash Impairment Charges

As a result of our annual review of intangible assets, we recorded a \$144 million pre-tax, noncash impairment charge in the fourth quarter of 2015 to reduce the carrying value of intangible assets related to our *7 For All Mankind*®, *Ella Moss*® and *Splendid*® brands. On an after-tax basis, the charge totaled \$97 million, which decreased fourth quarter and full year 2015 earnings per share by \$0.23.

In 2014, we recorded a \$396 million pre-tax, noncash impairment charge in the fourth quarter to reduce the carrying value of goodwill and intangible assets related to our *7 For All Mankind*®, *Ella Moss*® and *Splendid*® brands. On an after-tax basis, the charge totaled \$307 million, which decreased fourth quarter and full year 2014 earnings per share by \$0.70.

All “adjusted amounts” referenced herein exclude the effects of these noncash impairment charges. Reconciliations of measures in accordance with U.S. generally accepted accounting principles (“GAAP”) to adjusted amounts are presented in the supplemental financial information included with this release, which identify and quantify all excluded items.

Currency Neutral – Excluding the Impact of Foreign Currency

This release refers to “currency neutral” amounts for the fourth quarter and full year 2015, and 2016 outlook. Currency neutral amounts exclude both the impact of translating foreign currencies into U.S. dollars and the impact of currency rate changes on foreign currency denominated transactions. This release also refers to “reported” amounts in accordance with GAAP, which include translation and transactional impacts from foreign currency exchange rates. Reconciliations of GAAP measures to currency neutral amounts for the fourth quarter and full year 2015 are presented in the attached supplemental financial information, which identify and quantify all excluded items.

52/53 Week Fiscal Year

VF operates and reports using a 52/53 week fiscal year ending on the Saturday closest to December 31 of each year, and as a result, a 53rd week is added every five or six years. VF's 2014 fiscal year included a 53rd week, which was the week ended January 3, 2015. Similarly, while fiscal quarters normally consist of 13-week periods, the fourth quarter of 2014 included a 14th week. For comparability between 2015 and 2014 financial results, certain estimates referenced herein exclude the impact of the 53rd week of 2014, which added approximately 1 percent of revenue growth.

2016 Outlook

“Going forward, we believe the current environment provides a significant opportunity for VF. With history as our teacher, we know that powerful brands and companies with strong balance sheets can capitalize on environments like this. That is exactly our intention,”

continued Wiseman. “By focusing on our strengths – driving innovation into the marketplace, telling great stories to connect with consumers and operating with financial discipline – we will seize this opportunity to complete 2016 better positioned than we ever have been.”

Key points related to VF’s full year 2016 outlook include:

- **Revenue** is expected to increase at a mid single-digit percentage rate, including about one percentage point of negative impact from changes in foreign currency. By coalition, revenue for **Outdoor & Action Sports** is expected to increase at a high single-digit percentage rate; mid single-digit growth for **Jeanswear**; low single-digit growth for **Imagewear**; a slight decline in **Sportswear**; and, a mid single-digit decline in the **Contemporary Brands** business.
- **International** revenue is expected to increase at a high single-digit rate on a currency neutral basis (up mid single-digit reported). European revenue is expected to be up at a mid single-digit rate currency neutral (up low single-digit rate reported). In the Asia Pacific region, full year currency neutral revenue is expected to increase at a low double-digit percentage rate (up high single-digit reported). And in the Americas (non-U.S.) region, revenue is expected to be up at a low-teen percentage rate currency neutral (up low single-digit reported).
- **Direct-to-consumer** revenue is expected to grow at a low double-digit percentage rate, including about a point of negative impact from changes in foreign currency. Direct-to-consumer growth in 2016 will be driven by an increase of approximately 80 stores and comparable sales growth including an expected increase of more than 20 percent in e-commerce revenue.
- **Gross margin** is expected to improve by about 50 basis points to 48.8 percent, which includes about 70 basis points of headwind from changes in foreign currency.
- **Operating margin** is expected to reach 14.4 percent, including about 70 basis points from the anticipated negative impact of changes in foreign currency.
- **Earnings per share**, on a currency neutral basis, is expected to increase 11 percent (up 5 percent reported) compared to an adjusted EPS of \$3.08 in 2015.
- **Cash flow from operations** is expected to reach \$1.3 billion.
- VF expects to spend approximately \$1 billion under the company’s **share repurchase** program. This represents a more than 35 percent increase over repurchases made in 2015, and when combined with the **annual dividend**, should return \$1.5 billion to shareholders in 2016.
- Other full year assumptions include an approximate 23 percent **effective tax rate** and **capital expenditures** of approximately \$300 million.

In the first quarter of 2016, we expect currency neutral revenue and earnings per share to be about flat. On a reported basis, revenue in the first quarter is expected to be about flat and earnings per share is expected to be down at a low double-digit percentage rate. In the second quarter of 2016, revenue should increase at a low single-digit percentage rate with a low single-digit decline in currency neutral earnings per share, or down high single-digit as reported. The second quarter of 2015 benefitted from a lower tax rate related to the settlement of prior years’ tax audits. Currency neutral revenue growth in the second half of

2016 should increase at a high single-digit percentage rate, with the strongest performance coming in the fourth quarter. We expect second half earnings per share to increase at a mid to high-teen percentage rate.

Dividend Declared

VF's Board of Directors declared a quarterly dividend of \$0.37 per share, payable on March 18, 2016 to shareholders of record on March 8, 2016.

Webcast Information

VF will hold its 2015 fourth quarter conference call and webcast today at approximately 8:30 a.m. Eastern Time. Interested parties should call (888) 820-9418 (U.S.) or (913) 312-9323 (international) to access the call. The conference call will be broadcast live and accessible at www.vfc.com. A replay of the conference call will be available through Feb. 26, 2016 at the same location or via telephone at 877-870-5176 (access code: 1884533).

About VF

VF Corporation (NYSE: VFC) is a global leader in the design, manufacture, marketing and distribution of branded lifestyle apparel, footwear and accessories. The company's largest brands are *The North Face*®, *Vans*®, *Timberland*®, *Wrangler*®, *Lee*® and *Nautica*®. For more information, visit www.vfc.com.

Forward-looking Statements

Certain statements included in this release and the attachments are "forward-looking statements" within the meaning of the federal securities laws. Forward-looking statements are made based on our expectations and beliefs concerning future events impacting VF and therefore involve a number of risks and uncertainties. You can identify these statements by the fact that they use words such as "will," "anticipate," "estimate," "expect," "should," and "may" and other words and terms of similar meaning or use of future dates. We caution that forward-looking statements are not guarantees and that actual results could differ materially from those expressed or implied in the forward-looking statements. Potential risks and uncertainties that could cause the actual results of operations or financial condition of VF to differ materially from those expressed or implied by forward-looking statements in this release include, but are not limited to, the level of consumer demand for apparel, footwear and accessories; disruption to VF's distribution system; VF's reliance on a small number of large customers; the financial strength of VF's customers; VF's ability to implement its business strategy; VF's ability to grow its international and direct-to-consumer businesses; VF and its customers' ability to maintain the strength and security of information technology systems; stability of VF's manufacturing facilities and foreign suppliers; volatile and unpredictable weather patterns; continued use by VF's suppliers of ethical business practices; VF's ability to protect trademarks and other intellectual property rights; possible goodwill and other asset impairment; foreign currency fluctuations; changes in tax liabilities, and legal, regulatory, political and economic risks. More information on potential factors that could affect VF's financial results is included from time to time in VF's public reports filed with

the Securities and Exchange Commission, including VF's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q.

Currency Neutral Financial Information

VF is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by VF from translating its foreign revenues and expenses into U.S. dollars, and from entering foreign currency transactions. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present currency neutral financial information, which is a non-GAAP financial measure that excludes the incremental current year impact of foreign currency exchange. We use currency neutral information to provide a framework to assess how our business performed excluding the effects of changes in the rates used to calculate foreign currency translation and transaction gains and losses. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a currency neutral basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period). Similarly, transaction gains and losses on a currency neutral basis are calculated using exchange rates from the comparable period of the prior year.

These currency neutral performance measures should be viewed in addition to, and not in lieu of or superior to, our operating performance measures calculated in accordance with GAAP. The currency neutral information presented may not be comparable to similarly titled measures reported by other companies.

Currency Neutral Financial Information

VF is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by VF from translating its foreign revenues and expenses into U.S. dollars, and from entering foreign currency transactions. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present currency neutral financial information, which is a non-GAAP financial measure that excludes the incremental current year impact of foreign currency exchange. We use currency neutral information to provide a framework to assess how our business performed excluding the effects of changes in the rates used to calculate foreign currency translation and transaction gains and losses. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a currency neutral basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period). Similarly, transaction gains and losses on a currency neutral basis are calculated using exchange rates from the comparable period of the prior year.

These currency neutral performance measures should be viewed in addition to, and not in lieu of or superior to, our operating performance measures calculated in accordance with GAAP. The currency neutral information presented may not be comparable to similarly titled measures reported by other companies.

Non-GAAP Financial Information

The financial information above has been presented on a GAAP basis and on an adjusted basis which excludes the impact of impairment charges for goodwill and intangible assets. These adjusted presentations are non-GAAP measures. Management believes these measures provide investors with useful supplemental information regarding VF's underlying business trends and the performance of VF's ongoing operations and are useful for period-over-period comparisons of such operations.

Management uses the above financial measures internally in its budgeting and review process and, in some cases, as a factor in determining compensation. While management believes that these non-GAAP financial measures are useful in evaluating the business, this information should be considered as supplemental in nature and should be viewed in addition to, and not in lieu of or superior to, VF's operating performance measures calculated in accordance with GAAP. In addition, these non-GAAP financial measures may not be the same as similarly titled measures presented by other companies.
