Water Pilot Wins Install at Leading Florida Assisted Living Facility

Potential for Additional Installs if Pilot Proves Successful

PHOENIX, AZ / ACCESSWIRE / August 27, 2019 /Taronis Technologies, Inc., (“Taronis” or “the Company”) (NASDAQ:TRNX), a leading clean technology company in the renewable resources and environmental conservation industry, today announced that its majority-owned subsidiary, the Water Pilot, LLC (“Water Pilot”) has been awarded a paid pilot phase install for its Water Pilot water conservation technology. The install is scheduled to be completed in August at a large assisted living facility in Largo, Florida. This new client is a leading Florida assisted living facility operator.

“The Water Pilot technology and our Florida sales team continue to win new clients,” commented Scott Mahoney, CEO of [Taronis](#). “Our technology is proven to reduce water consumption by approximately 20% for the typical residential or commercial property. This typically results in reductions of up to 35% in water utility bills. These statistics are supported by more than 100 documented Water Pilot installs to date.”

“Our sales team is using this compelling empirical data to win new client relationships at an accelerating rate. It is our goal to fully impact global residential and commercial water consumption using both the Water Pilot and the AI Navigator. Our technology has the potential to conserve 650 billion gallons of fresh water every day. This is a rare opportunity where we can provide a clear financial benefit through a non-invasive technology that drives a more sustainable global economy,” concluded Mr. Mahoney.

About Taronis Technologies, Inc.

[Taronis Technologies, Inc.](#) (TRNX) owns a patented plasma arc technology that enables two primary end use applications for fuel generation and water decontamination.

The Company’s fuel technology enables a wide use of hydrocarbon feedstocks to be readily converted to fossil fuel substitutes. The Company is developing a wide range of end market uses for these fuels, including replacement products for propane, compressed natural gas and liquid natural gas. The Company currently markets a proprietary metal cutting fuel that is highly competitive with acetylene. The Company distributes its proprietary metal cutting fuel through Independent Distributors in the US and through its wholly owned distributors doing business as “MagneGas Welding Supply”. The Company operates 22 locations across California, Texas, Louisiana, and Florida.

The Company’s technology can also be implemented for the decontamination of waste water, including sterilizing water, eradicating all pathogens. The technology is being tested to determine if it can completely eliminate pharmaceutical contaminants such as antibiotics, hormones and other soluble drugs suspended in contaminated water. Lastly, the technology process is capable of reducing or eliminating other contaminants, such as harmful metals, as well as nitrogen, phosphorus, and potassium levels that trigger toxic algae blooms. The technology has prospective commercial applications in the agricultural, pharmaceutical, and municipal waste markets. For more information on Taronis, please visit the Company’s website at <http://www.TaronisTech.com>.

[Taronis](#) also owns a controlling interest in Water Pilot, LLC. The WATER PILOT® System immediately reduces water consumption and provides you with live remote consumption monitoring for long term leak protection and water asset management. An integral, client based alarm and notification system that reports to any mobile device. Water Pilot may be appropriate for a wide range of businesses or properties with a water meter.
