The company broadcasts from the trading floor of the New York Stock Exchange.

About AgriFORCE

AgriFORCE Growing Systems Ltd. (NASDAQ: AGRI) is an AgTech company focused on developing and acquiring agriculture IP that changes the way plant cultivation and processing is done to provide more sustainable and better quality food, medicine and vaccines, nutraceuticals and plant based products and ingredients. The company has developed a proprietary facility and automated growing system IP for high-value crops focused on improving the way that plants are grown. The Company calls its facility design and automated growing system the "AgriFORCE Grow House." The Company has designed its AgriFORCE Grow House to produce in virtually any environmental condition and to optimize crop yields to as near their full genetic potential possible, while substantially eliminating the need for the use of pesticides and/or irradiation.
