InfuSystem Holdings Reports \$10.9 Million of Revenue and \$3.2 Million of Adjusted EBITDA for the First Quarter of 2010

MADISON HEIGHTS, MI--(Marketwire - May 4, 2010) - InfuSystem Holdings, Inc. (OTCBB: INHI) (OTCBB: INHIW) (OTCBB: INHIU), the leading provider of ambulatory infusion pumps and associated clinical services, today announced financial results and provided a business update for the first quarter ended March 31, 2010.

Revenue for the first quarter ended March 31, 2010 was \$10.9 million, a 19% improvement compared to \$9.2 million for the same period in 2009. The increase in revenue was predominantly the result of continuing to drive business in new customer accounts.

Mr. Sean McDevitt, Chief Executive Officer, commented, "I am extremely pleased with the first quarter results. It is clear that the strategic decisions we made last summer are producing tangible benefits. The positive impact of the changes we made in our sales organization, coupled with an increased focus on operational improvements and execution, are generating positive results today and position us well for the future. Looking forward, we continue to remain focused on the core business, while evaluating additional growth opportunities that would leverage our penetration in oncology, our expertise in pump fleet management and billing, as well as our strong reputation for customer service."

Financial Results for the First Quarter 2010

Revenue for the first guarter ended March 31, 2010 was \$10,934,000, a 19% improvement compared to \$9,227,000 for the same period in 2009. The increase in revenues is primarily due to obtaining business at new customer facilities, as well as deeper penetration at existing facilities. Operating income for the first guarter of 2010 was \$1,492,000, an 18% improvement compared to \$1,261,000 for the same period in 2009. The increase in operating income was primarily due to higher revenues and lower stock-based compensation expense, partially offset by higher provision for doubtful accounts. The increase in provision for doubtful accounts compared to the year ago period is related to a small increase in the mix of billings directly to patients, as compared to billings to third-party payors, as well as a slight decrease in the amount expected to be collected from patients. The net loss for the first quarter of 2010 was (\$12,000) or \$0.00 per diluted share, compared to net loss of (\$2,507,000) or (\$0.14) per diluted share, for the same period in 2009. The net income for the first guarter of 2010 included a (\$389,000) loss on derivative financial instruments, which was predominantly attributable to the successful exchange of 73% of the Company's warrants, compared to a (\$2,642,000) loss on derivative financial instruments in the first quarter of 2009.

Adjusted EBITDA for the first quarter ended March 31, 2010 was \$3,220,000, a 12%

improvement compared to \$2,868,000 for the same period in 2009. The increase in EBITDA for the first quarter of 2010 was primarily due to higher revenues, partially offset by higher provision for doubtful accounts. The Company defines Adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, and excludes gain (loss) on derivative financial instruments and stock-based compensation, and other non-recurring charges. Adjusted EBITDA is not a measure of performance calculated in accordance with generally accepted accounting principles in the United States ("GAAP"). The Company believes the presentation of Adjusted EBITDA is a relevant and useful measure to assist a reader's ability to understand the Company's operating performance. The Company's management likewise utilizes Adjusted EBITDA as a means to measure its operating performance. Reconciliation from Adjusted EBITDA, a non-GAAP measure, to net income can be found in the appendix.

Total cash and cash equivalents were \$7,718,000 at the end of the first quarter, compared to \$7,750,000 at the end of 2009. As of March 31, 2010, InfuSystem had \$23,760,000 of debt outstanding, compared to \$24,141,000 at year end 2009.

Conference Call

The company will host an investor conference call today at 5:00 p.m. ET to discuss its financial results for the first quarter 2010. The investor conference call will be available via live webcast on InfuSystem's website at <u>www.infusystem.com</u> in the Investors section. To participate by telephone, the dial-in number is (888) 256-1027. The access code is 7124623. Investors are advised to dial into the call at least ten minutes prior to the call to register. A replay of the call can be accessed by dialing (888) 203-1112, confirmation number 7124623. An online archive of the conference call will remain on the Company's website for at least 90 days after the call.

About InfuSystem Holdings, Inc.

InfuSystem is the leading supplier of infusion services to oncologists and other outpatient treatment settings. The Company provides pole mounted and ambulatory pumps, supplies and related clinical, biomedical and billing services to practices and patients, nationwide. The Company's unique suite of services appeals to practices, patients and payors by improving access to clinically necessary medical equipment, while driving down costs and maximizing clinical outcomes.

Forward-Looking Statements

Except for the historical information contained herein, the matters discussed in this press release are forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from those predicted by such forward-looking statements. These risks and uncertainties include general economic conditions, as well as other risks detailed from time to time in InfuSystem's publicly filed documents.
