(NYSE American LLC: INFU) ("InfuSystem" or the "Company"), a leading national durable medical equipment ("DME") solutions provider for manufacturers and health care providers in the United States and Canada, today reported financial results for the third quarter ended September 30, 2019.

- Net income for the quarter and year-to-date ended September 30, 2019 was \$1.1 million and \$0.6 million, respectively, compared to a net loss for the quarter and year-to-date ended September 30, 2018 of \$0.5 million and \$0.8 million, respectively.

Commenting on the third quarter, Richard Dilorio, chief executive officer of InfuSystem, said, "The growth we have discussed in prior periods continues to meet or exceed our plans, primarily related to the impact of the market share gains in our oncology business that began last year with elastomerics and is continuing this year with wins from our direct competitor in that therapy. We also continue to benefit from growth in our pain management and infusion products markets, with the third quarter being an especially strong quarter in product sales. Our disciplined approach to managing this growth has enabled us to enjoy similar improvements in our EBITDA and net cash flow provided by operations."

Mr. Dilorio continued, "It is rewarding to see our strategic plan and operating improvements being reflected in the performance of our stock price over recent months. I am especially

proud of our team's continued ability to execute on our significant growth initiatives while improving profitability."

Mr. Dilorio concluded, "I am confident that the management team changes we announced in October will enable us to accelerate and expand growth in our Integrated Therapies Platform which currently includes our oncology and pain management programs. We are finalizing our plans for 2020, but as part of our expanded offerings we expect to, starting in the fourth quarter of 2019 or the first quarter of 2020, provide modified segment reporting to improve visibility into the operations of our two business platforms, Integrated Therapies and DME Services."
