

Ingram Micro Q3 2025 Earnings Supplement

Value Creation to Value Capture in the Age of AI

Important notice

This presentation contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. You can identify forward-looking statements because they contain words such as “believes,” “expects,” “may,” “will,” “should,” “seeks,” “intends,” “plans,” “estimates,” or “anticipates,” or similar expressions which concern our strategy, plans, projections or intentions. These forward-looking statements are included throughout this presentation and relate to matters such as our industry, growth strategy, goals and expectations concerning our market position, future operations, margins, profitability, capital expenditures, liquidity and capital resources, and other financial and operating information. By their nature, forward-looking statements: speak only as of the date they are made; are not statements of historical fact or guarantees of future performance; and are subject to risks, uncertainties, assumptions or changes in circumstances that are difficult to predict or quantify. Our expectations, beliefs, and projections are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management’s expectations, beliefs, and projections will result or be achieved, and actual results may vary materially from what is expressed in or indicated by the forward-looking statements. Certain important factors that involve risks and uncertainties and that could cause actual results to differ, possibly materially, from our expectations, beliefs, and projections reflected in such forward-looking statements can be found in the “Risk Factors” and “Cautionary Note Regarding Forward-Looking Statements” sections included in the Company’s Annual Report on Form 10-K and Quarterly Reports on Form 10-Q. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by any applicable securities laws. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made.

There are a number of risks, uncertainties, and other important factors that could cause our actual results to differ materially from the forward-looking statements contained in this presentation. Such risks, uncertainties, and other important factors include, among others, the risks, uncertainties, and factors included within the filings we make with the SEC from time to time and the following: general economic conditions; our estimates of the size of the markets for our products and services; our ability to identify and integrate acquisitions and technologies into our platform; our plans to continue to expand; our ability to continue to successfully develop and deploy Ingram Micro Xvantage™; our ability to retain and recruit key personnel; the competition our products and services face and our ability to adapt to industry changes and market conditions, including inflation, market volatility, and supply constraints for many categories of technology; current and potential litigation involving us; the global nature of our business, including the various laws and regulations applicable to us now or in the future; the effect of various political, geopolitical, and macroeconomic issues and developments, including changes in tariffs or global trade policies and the related uncertainties associated with such developments, import/export and licensing restrictions, and our ability to comply with laws and regulations we are subject to, both in the United States and internationally; our financing efforts; our relationships with our customers, original equipment manufacturers, and suppliers; our ability to maintain and protect our intellectual property; the performance and security of our services, including information processing and cybersecurity provided by third parties; our ownership structure; our dependence upon Ingram Micro Inc. and its controlled subsidiaries for our results of operations, cash flows, and distributions; and our status as a “controlled company” and the extent to which the interests of Platinum Equity, LLC together with its affiliated investment vehicles (“Platinum”) conflict with our interests or the interests of our stockholders. Ingram Micro, Xvantage, and associated logos are trademarks of Ingram Micro Inc. (an indirect subsidiary of Ingram Micro Holding Corporation) or its licensors.

This presentation and certain of the remarks made orally contain non-GAAP financial measures. Non-GAAP financial measures include adjusted income from operations, EBITDA, adjusted EBITDA, return on invested capital (“ROIC”), adjusted ROIC, non-GAAP net income, adjusted free cash flow, and non-GAAP EPS. We believe that these non-GAAP financial measures are useful in evaluating our business and the underlying trends that are affecting our performance. These non-GAAP measures are primary indicators that our management uses internally to conduct and measure its business and evaluate the performance of its consolidated operations, ongoing results, and trends. Our management believes these non-GAAP financial measures are useful as they provide meaningful comparisons to prior periods and an alternate view of the impact of acquired businesses. Information regarding these and other non-GAAP financial measures, including reconciliations to the most directly comparable GAAP financial measures, is provided in our quarterly earnings press releases, which are available on our Investor Relations website at <https://ir.ingrammicro.com>. See also the Appendix.

This presentation contains forward-looking estimates of non-GAAP diluted EPS for the fiscal fourth quarter 2025. We provide this non-GAAP measure to investors on a prospective basis for the same reasons (set forth above) that we provide it to investors on a historical basis. We are unable to provide a reconciliation of our forward-looking estimate of fiscal fourth quarter 2025 GAAP diluted EPS to a forward-looking estimate of fiscal fourth quarter 2025 non-GAAP diluted EPS because certain information needed to make a reasonable forward-looking estimate of GAAP diluted EPS for fiscal fourth quarter 2025 is unreasonably difficult to predict and estimate and is often dependent on future events that may be uncertain or outside of our control, such as unanticipated non-recurring items not reflective of ongoing operations. In addition, we believe such reconciliations would imply a degree of precision that would be confusing or misleading to investors. The unavailable information could have a significant impact on our future financial results. Our forward-looking estimates of both GAAP and non-GAAP measures of our financial performance may differ materially from our actual results and should not be relied upon as statements of fact.

Q3 2025 financial highlights

	Q3 2025	Y/Y Growth ⁽¹⁾
Net Sales (\$B)	\$ 12.6	+7.2%
Gross Profit (\$M)	\$ 870	+2.9%
Adjusted Income from Operations ⁽²⁾ (\$M)	\$ 258	+1.5%
Non-GAAP Net Income ⁽²⁾ (\$M)	\$ 169	+6.0%

Key Takeaways:

- Net sales up 7.2% driven by continued momentum across all geographies; particular product strength in Notebooks/Desktops, Servers and Storage, and particular geographic strength in Asia Pacific and Latin America
- Above or near high-end of guidance on all guided metrics
- Improved Opex % of Net Sales from Xvantage automation, continued optimization and cost reduction actions
