Important Notices and Safe Harbor Statement

This presentation contains forward looking statements that involve substantial risks and uncertainties. All forward-looking statements included in this presentation are made only as of the date hereof and are subject to change without notice. Actual outcomes and results could differ materially from those suggested by this presentation due to the impact of many factors beyond the control of New Mountain Finance Corporation (“NMFC”), including those listed in the “Risk Factors” section of our filings with the United States Securities and Exchange Commission (“SEC”). Any such forward-looking statements are made pursuant to the safe harbor provisions available under applicable securities laws and NMFC assumes no obligation to update or revise any such forward-looking statements unless required by law. Certain information discussed in this presentation (including information relating to portfolio companies) was derived from third party sources and has not been independently verified and, accordingly, NMFC makes no representation or warranty with respect to this information.

The following slides contain summaries of certain financial and statistical information about NMFC. The information contained in this presentation is summary information that is intended to be considered in the context of our SEC filings and other public announcements that we may make, by press release or otherwise, from time to time. We undertake no duty or obligation to publicly update or revise the information contained in this presentation unless required by law. In addition, information related to past performance, while helpful as an evaluative tool, is not necessarily indicative of future results, the achievement of which cannot be assured. You should not view the past performance of NMFC, or information about the market, as indicative of NMFC’s future results. The performance data stated herein may have been due to extraordinary market conditions, which may not be duplicated in the future. Current performance may be lower or higher than the performance data quoted. This presentation does not constitute an offer to sell or the solicitation of an offer to buy any securities of NMFC.

Past performance is not indicative nor a guarantee of future returns, the realization of which is dependent on many factors, many of which are beyond the control of NMFC. There can be no assurances that future dividends will match or exceed historic ones, or that they will be made at all. Net returns give effect to all fees and expenses. Unless otherwise noted, information included herein is presented as of the date indicated on the cover page and may change at any time without notice. NMFC is subject to certain significant risks relating to our business and investment objective. For more detailed information on risks relating to NMFC, see the latest Form 10-K and subsequent quarterly reports filed on Form 10-Q.

Investment portfolio related activity, metrics and disclosures on slides 5, 10, 11, 13, 15, 18, 21, 22, 23, 24, 26, 27, 28 and 33 include the underlying collateral from securities purchased under collateralized agreements to resell and exclude the PPVA Black Elk (Equity) LLC investment. Figures shown herein are unaudited and may not add due to rounding.

This presentation contains non-GAAP financial information. NMFC’s management uses this information in its internal analysis of results and believes that this information may be informative to investors in gauging the quality of NMFC’s financial performance, identifying trends in our results and providing meaningful period-to-period comparisons. However, these non-GAAP measures should not be considered in isolation or as a substitute for or superior to any measures of financial performance calculated and presented in accordance with GAAP. Other companies may calculate this or similarly titled non-GAAP measures differently than we do.

The term Adjusted Net Investment Income as used throughout this presentation is not defined under GAAP and is not a measure of operating income, operating performance or liquidity presented in accordance with GAAP. In evaluating its business, NMFC considers and uses Adjusted Net Investment Income as a measure of its operating performance. Adjusted Net Investment Income is defined as net investment income adjusted to reflect income as if the cost basis of investments held at NMFC’s IPO date had stepped-up to fair market value as of the IPO date. Under GAAP, NMFC’s IPO did not step-up the cost basis of the predecessor operating company’s existing investments to fair market value. Since the total value of the predecessor operating company’s investments at the time of the IPO was greater than the investments’ cost basis, a larger amount of amortization of purchase or issue discount, and different amounts in realized gains and unrealized appreciation, may be recognized under GAAP in each period than if a step-up had occurred. For purposes of the incentive fee calculation, NMFC adjusts income as if each investment was purchased at the date of the IPO (or stepped-up to fair market value). **To view the reconciliation of Adjusted Net Investment Income, please see Appendix A at the end of this presentation.**

The S&P 500 Stock Index (the “S&P 500”) is an unmanaged index of 500 widely held, large-capitalization stocks from a broad variety of industries that is recognized by investors to be generally representative of the performance of the broad domestic economy. The S&P 500 Total Return Index reflects the reinvestment of all dividends and distributions. Please note an investor cannot invest directly in an index. References to the S&P 500 Total Return Index are for illustrative purposes only. The S&P 500 Financial Index comprises those companies included in the S&P 500 that are classified as members of the GICS financial sectors. The S&P 500 Total Return Index and the S&P Financials Index may not be the most appropriate comparison because the indices are unmanaged and significantly more diversified than NMFC. NMFC’s investments and portfolio holdings are materially different from the companies represented in the indices. Additionally, due to the allocation differences between the indices and NMFC, NMFC may experience more investment volatility than the unmanaged S&P 500 Index and the S&P 500 Financial Index, which may have accounted for the results of the comparison.

Relevant credit benchmarks include the Credit Suisse Leveraged Loan Index, the Credit Suisse HY Index II and the BDC Index (together, the “Benchmarks”). The Credit Suisse Leveraged Loan Index is an unmanaged market value weighted index designed to represent the universe of U.S. dollar-denominated leveraged loan markets. The Credit Suisse HY Index II is an unmanaged index designed to mirror the investable universe of U.S. dollar-denominated high yield debt market. The loans and other investments held by NMFC may be materially different in composition and diversification as compared to the loans comprising each of the Benchmarks described above. The BDC Index is not a tracked index and includes the median of other business development companies that have been public for as long as NMFC, equal-weighted. The portfolio of loans and other investments held by the BDC Index and relevant Peer Group referenced herein may be materially different in composition and risk profile than that of NMFC. The volatility of an index may be materially different from the performance attained by NMFC. In addition, NMFC’s holdings may differ significantly from the securities that comprise the indices. You cannot invest directly in an index.

¹ See Appendix A for GAAP and adjusted reconciliation; GAAP NII per weighted average share of \$0.36, \$0.35, \$0.35, \$0.36 and \$0.32 as of 12/31/2018, 3/31/2019, 6/30/2019, 9/30/2019 and 12/31/2019, respectively

² Includes members of senior management and other New Mountain employees; excludes independent directors; ownership % based on total shares outstanding at the end of the respective period

³ Based on NMFC's closing price of \$12.58, \$13.57, \$13.97, \$13.63 and \$13.74 per share on 12/31/2018, 3/29/2019, 6/28/2019, 9/30/2019 and 12/31/2019, respectively

⁴ Defined as the % of portfolio companies (by fair value) with LTM EBITDA at the time of investment less than \$100m and facility sizes as of each date less than \$300m; excludes NMFC Senior Loan Program I ("SLP I"), NMFC Senior Loan Program II ("SLP II"), NMFC Senior Loan Program III ("SLP III") and investments held by New Mountain Net Lease Corporation ("Net Lease")

⁵ Current Yield at Cost is calculated as annual stated interest rate plus annual amortization of original issue discount and market discount / premium earned on accruing debt and other income producing securities divided by total accruing debt and other income producing securities at amortized cost

⁶ Yield to Maturity ("YTM") at Cost assumes that the accruing investments in our portfolio as of each date are purchased at cost on that date and held until their respective maturities with no prepayments or losses and are exited at par at maturity. This calculation excludes the impact of existing leverage. YTM at Cost uses the LIBOR curves at each quarter's respective end date. The actual yield to maturity may be higher or lower due to the future selection of LIBOR contracts by the individual companies in our portfolio or other factors. See "Important Notices and Safe Harbor Statement"

⁷ Excludes PIK ("payment-in-kind" interest), revolvers, unfunded commitments, bridges, return of capital, and realized gains / losses

Review of NMFC

Overview

- Founded in October 2008 to apply New Mountain Capital, L.L.C.'s ("NMC" or "New Mountain") private equity strengths to attractive risk-reward opportunities in the U.S. debt markets
 - New Mountain is a leading alternative investment firm that currently manages private equity, public equity, and credit funds with over \$20 billion in assets under management and ~160 staff members
- Externally managed Business Development Company ("BDC")
 - Initial Public Offering ("IPO") completed in May 2011 (NYSE: NMFC)
 - Public float market capitalization has increased from \$147 million at IPO to approximately \$1,330 million as of December 31, 2019
 - As of December 31, 2019, New Mountain employees owned ~\$147 million of NMFC shares⁽¹⁾
- Targets investments up to a \$125 million hold size in:
 - "Defensive growth" middle market companies, typically generating \$10 – \$200 million of EBITDA
 - Senior secured debt (1st lien, 2nd lien or uni-tranche), mezzanine and other subordinated securities

Strategy

- NMFC's mandate is to primarily target businesses in the middle market that, consistent with New Mountain's private equity platform, are **quality, defensive growth** companies, in industries that are **well-researched** by New Mountain
- Mandate achieved by **utilizing existing New Mountain investment team** as primary underwriting resource; team combines operating executives with financial executives
- Target loan to value ratios typically average less than 50% of both sponsor purchase price and NMC valuation

Key Investment Highlights

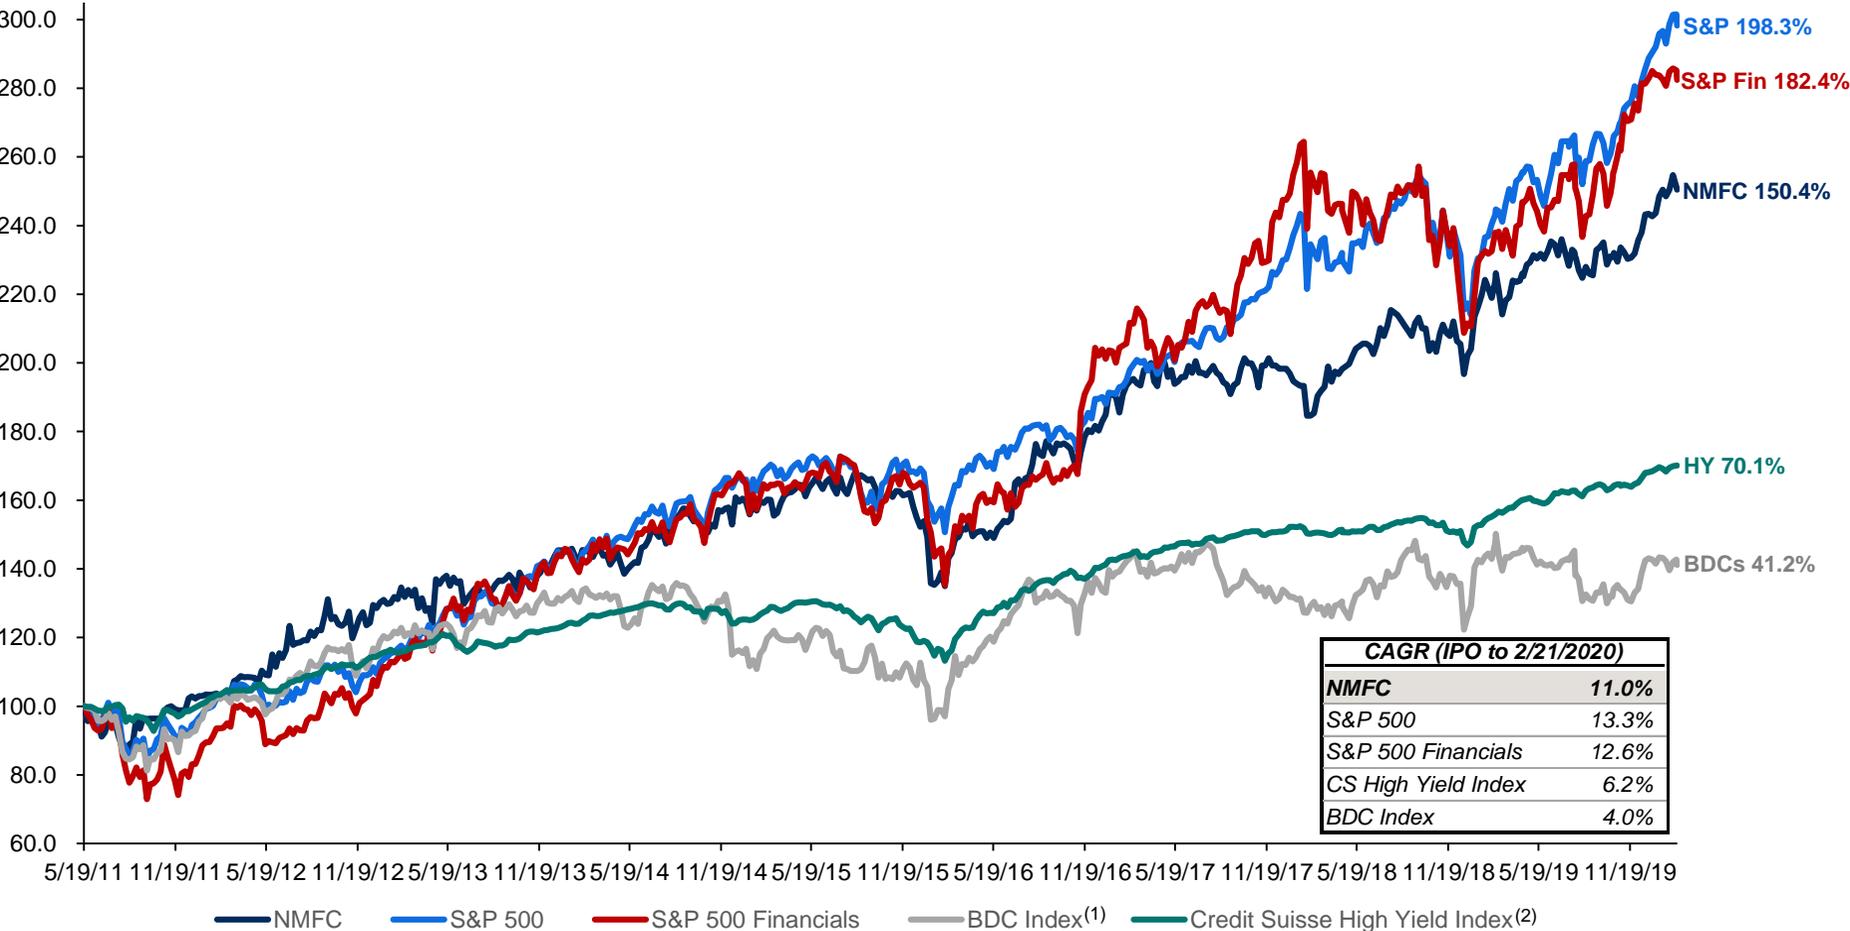

- Strong track record on credit and returns
- Well established New Mountain platform provides unique knowledge warehouse and sourcing capabilities
- Differentiated "defensive growth" investment strategy
- High quality and diverse portfolio
- Experienced management team who are also significant shareholders

NMFC Relative Return Performance – Indexed Total Return

¹ The BDC Index includes publicly-traded, externally-managed BDCs that have been publicly traded since NMFC's IPO (5/19/2011) with market capitalizations greater than \$300 million as of December 31, 2014, when NMFC began tracking this peer set. The BDC index includes median of Ares, Apollo, Prospect, Solar, Blackrock Capital, Pennant Park, Golub, THL Credit, Oaktree Specialty Lending Corporation, and Medley; equal-weighted, who may invest in assets with a materially different risk profile than NMFC. Refer to the Benchmarks disclosure on slide 2

² The Credit Suisse High Yield Index is an unmanaged index designed to mirror the investable universe of the US dollar-denominated high yield debt market

NMFC Cumulative Total Return Performance Versus Peers⁽¹⁾

¹ Peers include publicly-traded, externally-managed BDCs that have been publicly traded since NMFC's IPO (5/19/2011) with market capitalizations greater than \$300 million as of December 31, 2014, when NMFC began tracking this peer set. Peers include Ares, Apollo, Prospect, Solar, Blackrock Capital, Pennant Park, Golub, THL Credit, Oaktree Specialty Lending Corporation, and Medley

NMFC Return Attribution

(\$ per Share)

Since IPO, NMFC has distributed \$11.72 per share in regular dividends and \$0.61 per share in special dividends, and NMFC public shares have traded from \$13.75 at IPO to \$13.74 at close on 12/31/2019

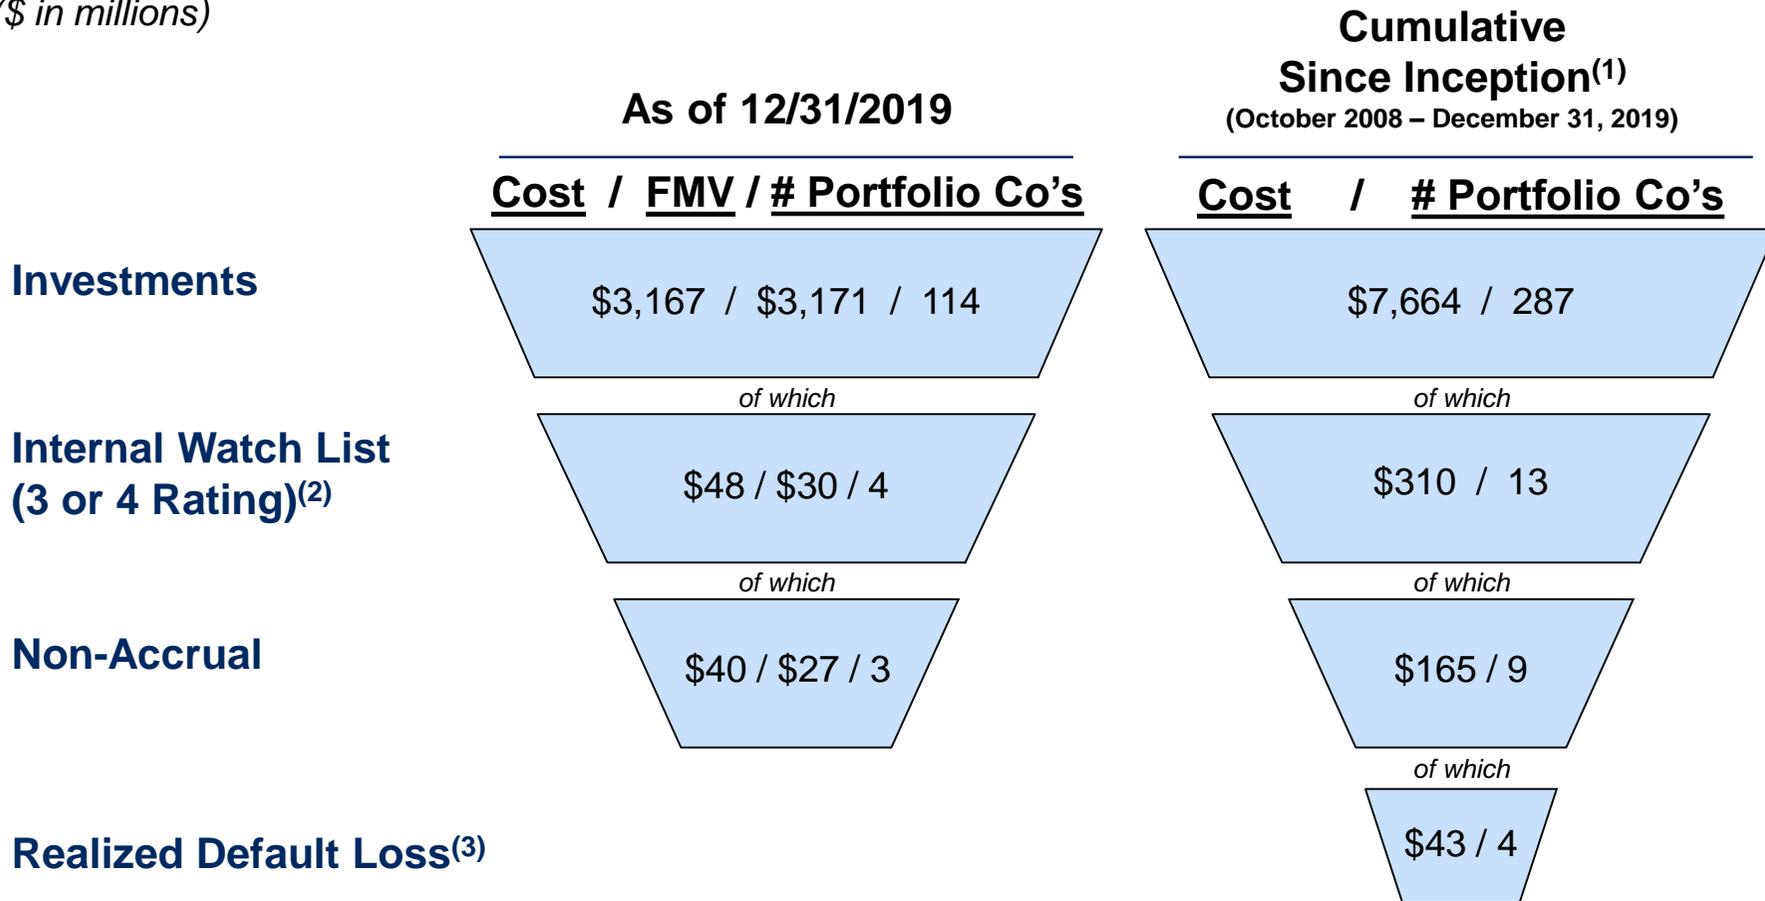

¹ NMFC priced its initial public offering on 5/19/2011 at \$13.75 per share; closing price on 12/31/2019 was \$13.74 per share

² Increase in value from trading multiple expansion shown only for cumulative period and is equal to change in share price over period less change in book value per share

Credit Performance

(\$ in millions)

¹ Since inception of predecessor entity in 10/2008 through 12/31/19

² Determined on a quarterly basis by Management. In addition to various risk management and monitoring tools, NMFC also uses a four-level numeric investment rating system to characterize and monitor the credit profile and expected level of returns on each portfolio investment. Ratings of 1 and 2 indicate the investment is performing materially above, or materially in-line, with expectations, respectively. All new loans are rated 2 when approved. A rating of 3 indicates the investment is performing materially below expectations, where the risk of loss has materially increased since the original investment. A rating of 4 indicates the investment is performing substantially below expectations and risks have increased substantially since the original investment. Payments may be delinquent. There is a meaningful possibility that we will not recoup our original cost basis in the investment and may realize a substantial loss upon exit. Where it is determined that an investment is underperforming, or circumstances suggest that the risk associated with a particular investment has significantly increased, a more aggressive monitoring of the affected portfolio company will be undertaken

³ Realized default loss represents positions, or portions of positions, where no recovery is expected

² NMFC priced its initial public offering on 5/19/2011; IPO – 12/31/2011 Adj. NII reflects nine months ended 12/31/2011 for comparability to the dividend

³ Includes non-recurring interest and incentive fee adjustment related to PPVA of (\$1.2) million in 2016, (\$1.2) million in 2017, (\$1.4) million in 2018 and \$3.8 million in 2019

⁴ Includes net YP distribution (net of incentive fee) and subsequent change in tax estimates of \$4.9 million in 2013, \$0.2 million in 2014 and \$0.5 million in 2015

⁵ Includes \$12.8 million reclassification from realized to unrealized loss related to UniTek material modification and \$15.2 million reclassification from realized to unrealized loss related to Edmentum material modification

⁶ From 2014 onwards, includes provision for income tax

⁷ Includes \$10.5 million reclassification from realized loss to unrealized depreciation related to Permian in 2016, \$27.1 million reclassification from unrealized depreciation to realized loss related to Transtar in 2016, which was reversed in 2017, \$14.5 million reclassification from realized loss to unrealized depreciation related to Sierra Hamilton in 2017, and \$15.0 million reclassification from realized loss to unrealized depreciation related to National HME in 2018

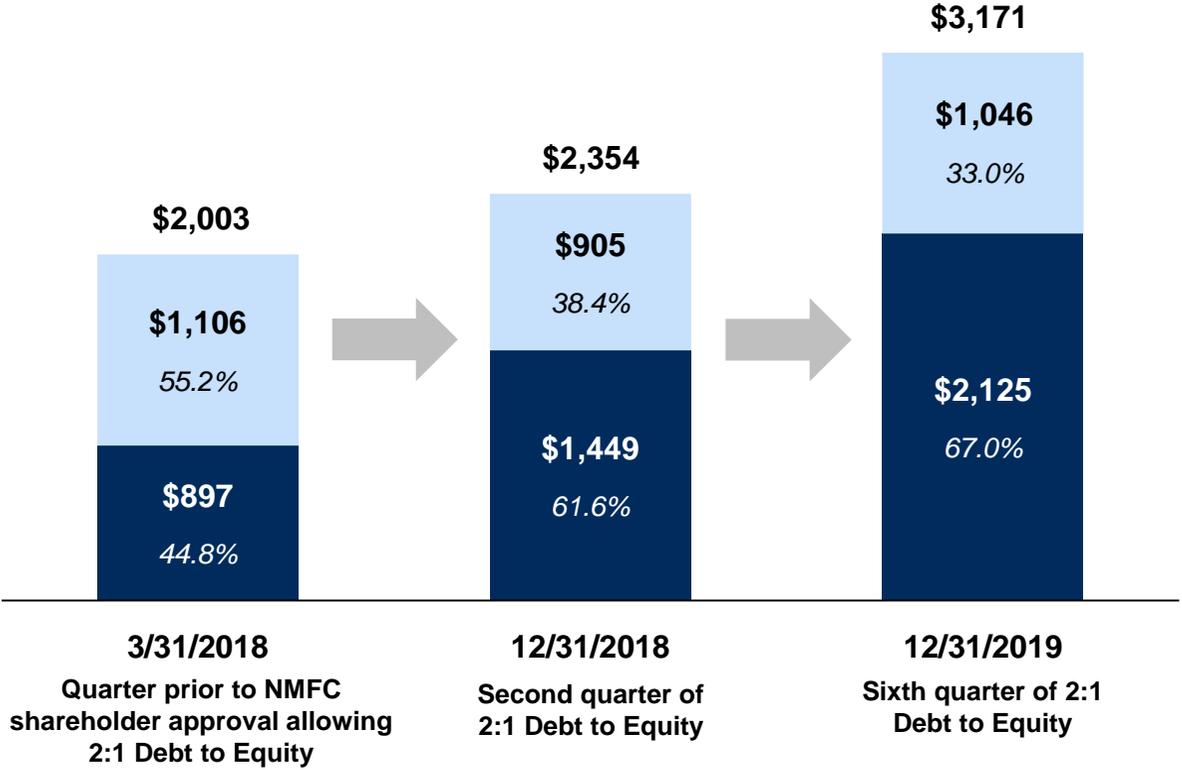

Asset Mix Migration (By Fair Value)

(\$ in millions) ■ First Lien Assets⁽¹⁾ ■ Non-First Lien Assets

Statutory Leverage⁽²⁾:

0.81x 1.23x 1.35x

Decreased \$60 million through Non-First Lien Net Sales & Repayments⁽³⁾

Increased \$1,228 million through First Lien Net Originations⁽¹⁾⁽³⁾

We have shifted originations towards senior investments as we have accessed incremental leverage; 105% of our net originations⁽³⁾ since Q1 2018 have been first lien assets

¹ First lien assets include membership interests in SLPs (underlying SLP assets are all first lien) and Net Lease (underlying leases are senior to corporate debt)
² Statutory debt / equity calculation excludes SBA-guaranteed debentures, which are fully funded, non-recourse, asset-backed securities that are excluded by SEC exemptive order from the definition of "senior securities" under the 1940 Act asset coverage test
³ Inclusive of fair value changes

Credit Market Conditions

- Credit markets were generally stable throughout 2019
- Direct lending deal flow in our core verticals was strong in Q4 and throughout 2019, but has been somewhat softer in Q1 due to normal seasonal weakness associated with the start of the new year
- In January and early February loan yields experienced downward pressure due to a temporary supply and demand imbalance
 - This pressure is likely to moderate as more deals are brought to market in the coming months
 - Recent macro risks including the Coronavirus could cause spreads to widen
- Private market multiples in our core sectors remain elevated
 - High-quality businesses continue to trade for 15-20x EBITDA in the private market
- Tranche sizes in club transactions have continued to grow over the last six months
- Base rates have declined since our last call
 - 3-month LIBOR is at 168 bps as of February 21, 2020 compared to 189 bps on November 1, 2019
- NMFC continues to be well positioned to capitalize on attractive yield oriented return opportunities:
 - NMC and NMFC have **always** proactively focused on defensive, acyclical business models
 - NMFC has a differentiated access to deal flow in the direct lending market
 - Long standing, recurring relationships with our sponsor clients

- Wells Fargo and Deutsche Bank credit facilities' borrowing base and liquidity are not tied to trading prices and valuations of securities
 - Covenants tied to underlying portfolio company operating performance, not mark-to-market
- Since our last call, our NMFC credit facility was upsized to \$189 million, our Deutsche Bank facility was upsized to \$280 million, and our SBA II debentures capacity was increased to \$150 million

¹ As defined in the credit agreement for the Wells Fargo Credit Facility

² Inclusive of a 25bps facility agent fee

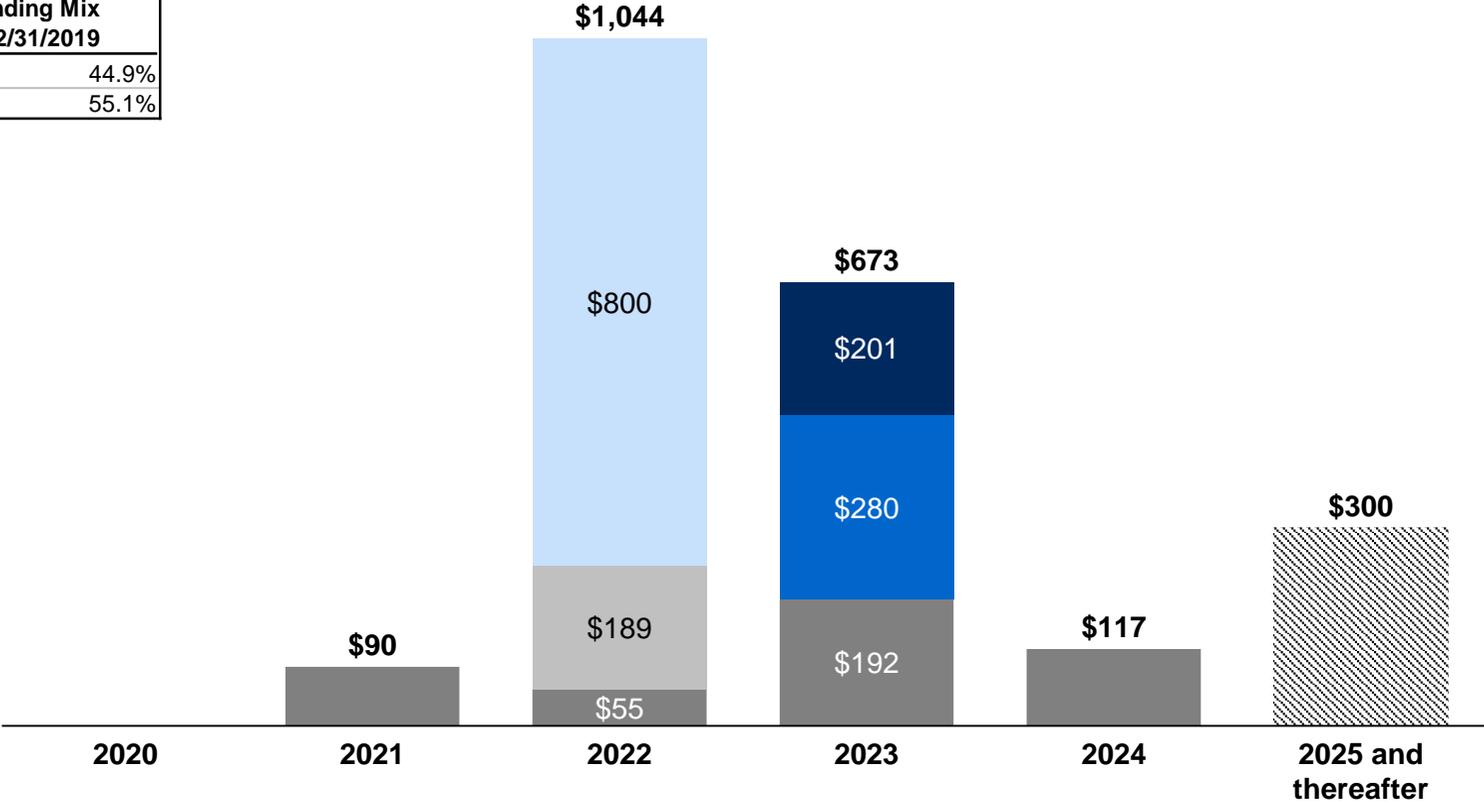

³ SBA-guaranteed debentures are fully funded, non-recourse, asset-backed securities, excluded by SEC exemptive order from the definition of "senior securities" under the 1940 Act asset coverage test

⁴ QTD weighted average interest rate shown for SBA I and SBA II guaranteed debentures reflects pooled interest rates and SBA's annual charges
