About Anebulo Pharmaceuticals, Inc.

Anebulo Pharmaceuticals, Inc. is a clinical-stage biopharmaceutical company developing novel solutions for people suffering from acute cannabinoid intoxication and substance abuse. Its lead product candidate, ANEB-001, is intended to reverse the negative effects of acute cannabinoid intoxication within one hour of administration. ANEB-001 is a competitive antagonist at the human cannabinoid receptor type 1 (CB1) with good oral bioavailability and brain penetration (rat brain:plasma ratio of approximately 1.5). Clinical trials completed to date have shown that ANEB-001 is rapidly absorbed, well tolerated, and may lead to weight loss, an effect that is consistent with CB1 antagonism in the central nervous system.
