Ameresco Reports First Quarter 2025 Financial Results

Total Revenue and Adj. EBITDA Growth of 18% and 32%, Respectively

Total Project Backlog and Contracted Backlog up 22% and 78% Y/Y, Respectively

Total Revenue Visibility of Nearly \$10 billion

Reiterates 2025 Revenue and Adjusted EBITDA Guidance

First Quarter 2025 Financial Highlights:

- Revenues of \$352.8 million
- Net loss attributable to common shareholders of \$5.5 million
- GAAP EPS of (\$0.10)
- Non-GAAP EPS of (\$0.11)
- Adjusted EBITDA of \$40.6 million

FRAMINGHAM, Mass.--(BUSINESS WIRE)-- Ameresco, Inc. (NYSE:AMRC), a leading energy solutions provider dedicated to helping customers navigate the energy transition, today announced financial results for the fiscal quarter ended March 31, 2025. The Company also furnished supplemental information in conjunction with this press release in a Current Report on Form 8-K. The supplemental information, which includes Non-GAAP financial measures, has been posted to the "Investors" section of the Company's website at www.ameresco.com. Reconciliations of Non-GAAP measures to the appropriate GAAP measures are included herein. All financial result comparisons made are against the prior year period unless otherwise noted.

CEO George Sakellaris commented, "The first quarter represented an excellent start to the year with both our Projects and Energy Asset businesses delivering strong double-digit growth. We also increased future revenue visibility through robust contract conversion and asset deployments. During the quarter, we added over \$367 million to awarded backlog while converting \$334 million of awards into contracts. At quarter end our contracted backlog stood at \$2.6 billion, almost 80% ahead of the previous year, driving our total project backlog to \$4.9 billion up 22% compared to last year. Revenue visibility across our businesses now stands at almost \$10 billion, adding to our long-term resilience.

"The Ameresco team continues to effectively and efficiently operate during these dynamic times. We are pleased to report that we have not encountered any additional cancellations or delays in our Federal contracts and those that we highlighted the previous quarter as being delayed or cancelled have now been "unpaused" or modified and are progressing. Importantly, we are now seeing a significant number of recently issued Federal RFPs, focused on our core competencies of resiliency and increasing power supply.

“Like every company in our industry we have also been dealing with rapidly changing tariff dynamics. While there will be some impact on costs, timing of deliveries and potentially lengthening implementation schedules, we believe that we have limited near-term exposure. We note that much of the equipment for ongoing Projects and Energy Assets has already been purchased and is in the country or already on our sites, shielding us from tariff and price increases. Beyond 2025, we will try to mitigate the effect of price increases during contract negotiations and repricing where possible. The Ameresco team has significant experience operating in such dynamic environments having successfully navigated Covid era inflation along with tariff impacts during previous administrations.

”Our increasing clarity and mitigation effort around Federal and tariff related dynamics, as well as the excellent visibility provided by our contracted project backlog and recurring revenue streams give us excellent visibility to delivering on our guidance for the year.”

First Quarter Financial Results

(All financial result comparisons made are against the prior year period unless otherwise noted.)

(in millions)	Q1 2025			Q1 2024		
	Revenue	Net Income (Loss) ⁽¹⁾	Adj. EBITDA	Revenue	Net (Loss) Income ⁽¹⁾	Adj. EBITDA
Projects	\$251.5	\$0.4	\$8.7	\$204.3	(\$6.0)	\$3.2
Energy Assets	\$56.7	(\$5.9)	\$30.1	\$43.2	\$(0.5)	\$21.2
O&M	\$24.8	\$0.7	\$1.7	\$25.3	\$3.7	\$4.8
Other	\$19.8	(\$0.7)	\$0.1	\$25.6	\$(0.1)	\$1.6
Total ⁽²⁾	\$352.8	(\$5.5)	\$40.6	\$298.4	\$(2.9)	\$30.8

⁽¹⁾ Net Income represents net income attributable to common shareholders.

⁽²⁾ Numbers in table may not sum due to rounding.

Total revenue increased 18% to \$352.8 million, with strong growth in Projects and Energy Assets revenue partially offset by a decline in Other revenue due to the divestiture of AEG at the end of 2024. Projects revenue grew 23% to \$251.5 million, driven by our continued focus on project execution and the conversion of our awarded backlog to contracts. The Company continues to benefit from the increased number of operating Energy Assets placed in service, fueling a 31% increase in energy asset revenue to \$56.7 million. The year-end sale of AEG led to the decline in Other revenue to \$19.8 million. Gross margin of 14.7% was in line with expectations, slightly impacted by a heavier mix of lower margin EPC revenue related to our European JV. Net loss attributable to common shareholders was \$5.5 million. Adjusted EBITDA of \$40.6 million, increased 32%.

The Company ended the quarter with \$71.6 million in unrestricted cash with total corporate debt including our subordinated debt, term loans and drawn amounts on our revolving line of credit declining to \$270.0 million. During the quarter the Company extended and increased our revolving credit facility and term loan with Bank of America, providing further financial flexibility and increased capacity to help fund our growth and successfully executed

approximately \$334.0 million in project financing commitments to help fund our Energy Asset business. Our Energy Asset Debt was \$1.4 billion with an Energy Debt Advance rate of 74% on the Energy Asset Book Value. Our Adjusted Cash from Operations during the quarter was \$1.4 million. Our 8-quarter rolling average Adjusted Cash from Operations was \$33.4 million.

Summary and Outlook

Given our strong start to the year and excellent visibility we are reiterating our 2025 revenue and adjusted EBITDA guidance of \$1.9 billion and \$235 million at the midpoints of our ranges, respectively. Our team's outstanding execution drove faster implementation during the first quarter of approximately \$30 million of project revenue. To assist with shaping for the remainder of the year, we are maintaining our expectation for the cadence of revenue in the second half of 2025 to represent approximately 60% of our total revenue. Accounting for our strong Q1 results, we anticipate Q2 revenue will be in the range of approximately \$400 - \$425 million.

Our 2025 guidance does not include the potential impact of a change in accounting principle related to sale-leaseback arrangements that is currently being assessed.

FY 2025 Guidance Ranges		
Revenue	\$1.85 billion	\$1.95 billion
Gross Margin	15.5%	16.0%
Adjusted EBITDA	\$225 million	\$245 million
Depreciation & Amortization	\$103 million	\$105 million
Interest Expense & Other	\$85 million	\$90 million
Effective Tax Rate	(50)%	(35)%
Income Attributable to Non-Controlling Interest	\$(5) million	\$(8) million
Non-GAAP EPS	\$0.70	\$0.90

The Company's Adjusted EBITDA and Non-GAAP EPS guidance excludes the impact of redeemable non-controlling interest activity, one-time charges, asset impairment charges, changes in contingent consideration, restructuring activities, as well as any related tax impact.

Conference Call/Webcast Information

The Company will host a conference call today at 4:30 p.m. ET to discuss first quarter 2025 financial results, business and financial outlook, and other business highlights. To participate on the day of the call, dial 1-888-596-4144, or internationally 1-646-968-2525, and enter the conference ID: 5277775, approximately 10 minutes before the call. A live, listen-only webcast of the conference call will also be available over the Internet. Individuals wishing to listen can access the call through the "Investors" section of the Company's website at www.amesco.com. If you are unable to listen to the live call, an archived webcast will be available on the Company's website for one year.

Use of Non-GAAP Financial Measures

This press release and the accompanying tables include references to adjusted EBITDA, Non-GAAP EPS, Non-GAAP net income and adjusted cash from operations, which are Non-GAAP financial measures. For a description of these Non-GAAP financial measures, including the reasons management uses these measures, please see the section following

the accompanying tables titled “Exhibit A: Non-GAAP Financial Measures”. For a reconciliation of these Non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with GAAP, please see Non-GAAP Financial Measures and Non-GAAP Financial Guidance in the accompanying tables.

About Ameresco, Inc.

Founded in 2000, Ameresco, Inc. (NYSE:AMRC) is a leading energy solutions provider dedicated to helping customers reduce costs, enhance resilience, and decarbonize to net zero in the global energy transition. Our comprehensive portfolio includes implementing smart energy efficiency solutions, upgrading aging infrastructure, and developing, constructing, and operating distributed energy resources. As a trusted full-service partner, Ameresco shows the way by reducing energy use and delivering diversified generation solutions to Federal, state and local governments, utilities, educational and healthcare institutions, housing authorities, and commercial and industrial customers. Headquartered in Framingham, MA, Ameresco has more than 1,500 employees providing local expertise in North America and Europe. For more information, visit www.ameresco.com.

Safe Harbor Statement

Any statements in this press release about future expectations, plans and prospects for Ameresco, Inc., including statements about market conditions, pipeline, visibility, backlog, pending agreements, financial guidance including estimated future revenues, net income, adjusted EBITDA, Non-GAAP EPS, gross margin, effective tax rate, interest rate, depreciation, tax attributes and capital investments, as well as statements about our financing plans, the impact the IRA, the impact of policies and regulatory changes implemented by the new U.S. administration, supply chain disruptions, shortage and cost of materials and labor, and other macroeconomic and geopolitical challenges; the impact from a possible change in accounting principle; our expectations related to our agreement with SCE including the impact of delays and any requirement to pay liquidated damages, and other statements containing the words “projects,” “believes,” “anticipates,” “plans,” “expects,” “will” and similar expressions, constitute forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those indicated by such forward looking statements as a result of various important factors, including: demand for our energy efficiency and renewable energy solutions; the timing of, and ability to, enter into contracts for awarded projects on the terms proposed or at all; the timing of work we do on projects where we recognize revenue on a percentage of completion basis; the ability to perform under signed contracts without delay and in accordance with their terms and the potential for liquidated and other damages we may be subject to; the fiscal health of the government and the risk of government shutdowns and reductions in the federal workforce; our ability to complete and operate our projects on a profitable basis and as committed to our customers; our cash flows from operations and our ability to arrange financing to fund our operations and projects; our customers’ ability to finance their projects and credit risk from our customers; our ability to comply with covenants in our existing debt agreements; the impact of macroeconomic challenges, weather related events and climate change; our reliance on third parties for our construction and installation work; availability and cost of labor and equipment particularly given global supply chain challenges, tariffs and global trade conflicts; global supply chain challenges, component shortages and inflationary pressures; changes in federal, state and local government policies and programs related to energy efficiency and renewable energy; the ability of customers to cancel or defer contracts included in our backlog; the output and performance of our energy

plants and energy projects; cybersecurity incidents and breaches; regulatory and other risks inherent to constructing and operating energy assets; the effects of our acquisitions and joint ventures; seasonality in construction and in demand for our products and services; a customer's decision to delay our work on, or other risks involved with, a particular project; the addition of new customers or the loss of existing customers; market price of our Class A Common stock prevailing from time to time; the nature of other investment opportunities presented to our Company from time to time; risks related to our international operation and international growth strategy; and other factors discussed in our most recent Annual Report on Form 10-K and our quarterly reports on Form 10-Q. The forward-looking statements included in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we specifically disclaim any obligation to do so. These forward-looking statements should not be relied upon as representing our views as of any date subsequent to the date of this press release.

Restructuring and other charges	\$(5) million	\$(8) million
Adjusted EBITDA	\$225 million	\$245 million

(1) Although net income is the most directly comparable GAAP measure, this table reconciles adjusted EBITDA to operating income because we are not able to calculate forward-looking net income without unreasonable efforts due to significant uncertainties with respect to the impact of accounting for our redeemable non-controlling interests and taxes.

Exhibit A: Non-GAAP Financial Measures

We use the Non-GAAP financial measures defined and discussed below to provide investors and others with useful supplemental information to our financial results prepared in accordance with GAAP. These Non-GAAP financial measures should not be considered as an alternative to any measure of financial performance calculated and presented in accordance with GAAP. For a reconciliation of these Non-GAAP measures to the most directly comparable financial measures prepared in accordance with GAAP, please see Non-GAAP Financial Measures and Non-GAAP Financial Guidance in the tables above.

We understand that, although measures similar to these Non-GAAP financial measures are frequently used by investors and securities analysts in their evaluation of companies, they have limitations as analytical tools, and investors should not consider them in isolation or as a substitute for the most directly comparable GAAP financial measures or an analysis of our results of operations as reported under GAAP. To properly and prudently evaluate our business, we encourage investors to review our GAAP financial statements included above, and not to rely on any single financial measure to evaluate our business.

Adjusted EBITDA and Adjusted EBITDA Margin

We define adjusted EBITDA as net income attributable to common shareholders, including impact from redeemable non-controlling interests, before income tax (benefit) provision, other expenses net, depreciation, amortization of intangible assets, accretion of asset retirement obligations, stock-based compensation expense, energy asset and goodwill impairment, contingent consideration, restructuring and other charges, gain or loss on sale of equity investment, and gain or loss upon deconsolidation of a variable interest entity. We believe adjusted EBITDA is useful to investors in evaluating our operating performance for the following reasons: adjusted EBITDA and similar Non-GAAP measures are widely used by investors to measure a company's operating performance without regard to items that can

vary substantially from company to company depending upon financing and accounting methods, book values of assets, capital structures and the methods by which assets were acquired; securities analysts often use adjusted EBITDA and similar Non-GAAP measures as supplemental measures to evaluate the overall operating performance of companies; and by comparing our adjusted EBITDA in different historical periods, investors can evaluate our operating results without the additional variations of depreciation and amortization expense, accretion of asset retirement obligations, stock-based compensation expense, impact from redeemable non-controlling interests, contingent consideration, restructuring and asset impairment charges. We define adjusted EBITDA margin as adjusted EBITDA stated as a percentage of revenue.

Our management uses adjusted EBITDA and adjusted EBITDA margin as measures of operating performance, because they do not include the impact of items that we do not consider indicative of our core operating performance; for planning purposes, including the preparation of our annual operating budget; to allocate resources to enhance the financial performance of the business; to evaluate the effectiveness of our business strategies; and in communications with the board of directors and investors concerning our financial performance.

Non-GAAP Net Income and EPS

We define Non-GAAP net income and earnings per share (EPS) to exclude certain discrete items that management does not consider representative of our ongoing operations, including energy asset and goodwill impairment, contingent consideration, restructuring and other charges, impact from redeemable non-controlling interest, gain or loss on sale of equity investment, and gain or loss upon deconsolidation of a variable interest entity. We consider Non-GAAP net income and Non-GAAP EPS to be important indicators of our operational strength and performance of our business because they eliminate the effects of events that are not part of the Company's core operations.

Adjusted Cash from Operations

We define adjusted cash from operations as cash flows from operating activities plus proceeds from Federal ESPC projects. Cash received in payment of Federal ESPC projects is treated as a financing cash flow under GAAP due to the unusual financing structure for these projects. These cash flows, however, correspond to the revenue generated by these projects. Thus, we believe that adjusting operating cash flow to include the cash generated by our Federal ESPC projects provides investors with a useful measure for evaluating the cash generating ability of our core operating business. Our management uses adjusted cash from operations as a measure of liquidity because it captures all sources of cash associated with our revenue generated by operations.
