

# Arabian American Development Co. Announces Fiscal 2007 Fourth Quarter Financial Results

DALLAS, March 13 /PRNewswire-FirstCall/ -- Arabian American Development Co. (Nasdaq: ARSD) today announced financial results for the quarter and year ended December 31, 2007.

#### Recent Highlights:

- -- Al-Masane Al-Kobra Mining Company (ALAK) joint venture received the commercial license from the Saudi Arabia Ministry of Commerce, which enabled the joint venture to contract with construction companies, prepare for the transfer of mining assets and appoint independent auditors.
- -- The Company's application for listing its common stock on The NASDAQ Stock Market was approved and began trading under its current stock symbol, "ARSD", on January 29, 2008. The Company presided over the closing bell on February 1, 2008 to celebrate its listing on NASDAQ.
- -- Received permit from the Texas Commission on Environmental Quality for Company's South Hampton Resources, Inc. facilities expansion.

  Projected start-up date is late May or early June.
- -- Formal application to transfer the mining lease to ALAK was filed with the Saudi Arabia Ministry of Petroleum and Mineral Resources on February 23, 2008.

#### Financial Results

Consolidated revenue for the fourth quarter of fiscal 2007 was \$29.8 million, an increase of 32.1% compared to revenue of \$22.6 million in the fourth quarter last year and a 6.2% sequential increase compared to revenue of \$28.0 million in the third quarter of 2007. Refined product sales (predominantly C5 and C6 hydrocarbons and related products) represented \$28.5 million, or 95.6%, of total revenue for the fourth quarter 2007 and \$21.2 million, or 94.1% of total revenue for the fourth quarter last year. The Company generated \$1.3 million in toll processing fees during the fourth quarter 2007 consistent with \$1.3 million for the prior year's fourth quarter.

Gross profit on product sales and processing for the fourth quarter was \$2.9 million, or 9.7% gross profit margin, compared with gross profit of \$3.8 million, or 17.0% gross profit margin for the fourth quarter last year. The decrease in both whole dollars and as a percent of sales is primarily due to a change in the fair value of derivatives for feedstock and fuel gas. The cost of petrochemical product sales and processing and gross profit margin for the three months ended December 31, 2007 and 2006 includes an unrealized gain/(loss) of approximately \$(181,000) and \$1.6 million respectively, on the derivative agreements.

General and administrative expenses increased 35.8% to \$2.1 million from \$1.6 million from the fourth quarter last year primarily due to higher labor costs and increased business

activity and training of additional personnel associated with the expansion of the South Hampton Resources facility.

The Company reported \$492,000 in operating income compared to \$2.4 million for the fourth quarter of 2006. The Company reported net income of \$576,000, or \$0.03 per basic and fully diluted share (based on 22.9 and 23.3 million shares, respectively) compared to net income of \$2.0 million, or \$.09 per basic and fully diluted share last year (based on 22.9 and 23.2 million shares, respectively) for the fourth quarter 2006.

Nick Carter, Executive Vice President and Chief Operating Officer, of Arabian American, commented, "We achieved a number of major milestones during fiscal year 2007 and subsequent to the year end. Our common stock moved to the NASDAQ Global Select Market and began trading there on January 29, 2008. This gives our common stock greater visibility and liquidity, both of which benefit our shareholders. We then had the honor of presiding at the closing bell of NASDAQ at the end of that first week of trading. In addition, we recently announced that we received the permit from the Texas Commission on Environmental Quality for our facilities' expansion. The permitting process took longer than what we initially anticipated, moving the projected start-up date to late May or early June rather than early second quarter. The new facility is in a "non-attainment" area for air quality; therefore, the permit process took approximately two months longer than expected. The new facility will greatly expand our capacity, which is expected to double revenue and EBITDA opportunities, as well as, open up opportunities globally."

For the year ended December 31, 2007, the Company generated consolidated revenue of \$108.7 million, an increase of 10.3% compared to revenue of \$98.5 million for the prior period. Gross profit on product sales and processing year to date was \$19.8 million, or 18.2% gross profit margin, compared with gross profit of \$18.6 million, or 18.9% gross profit margin, for the year-ago period. General and administrative expenses increased 30.4% to \$7.6 million from \$5.8 million last year. The Company reported \$11.1 million in operating income compared to \$11.9 million in operating income last year. The Company reported net income of \$7.8 million, or \$0.34 per basic and \$0.33 per diluted share (based on 22.9 and 23.3 million shares, respectively) compared to net income of \$7.9 million, or \$.35 per basic and \$0.34 per diluted share last year (based on 22.9 and 23.0 million shares, respectively) last year.

Mr. Carter continued, "Several significant events also occurred in our ongoing efforts to finalize a joint stock corporation in Saudi Arabia for the Al-Masane Al-Kobra Mining Company (ALAK) joint venture. The joint venture received the commercial license from the Saudi Arabia Ministry of Commerce, which enabled it to contract with construction companies, prepare for transfer mining assets and appoint independent auditors. In addition, the formal application for the transfer of the mining lease to ALAK was filed with the Saudi Arabian Ministry of Petroleum and Mineral Resources on February 23, 2008. The Company believes that the Ministry will approve the transfer promptly since ALAK has agreed to fulfill all the provisions of the mining lease and has demonstrated its financial and technical competence to do so."

The Company completed the quarter with \$4.8 million in cash as of December 31, 2007, compared to \$2.9 million as of December 31, 2006. Trade receivables increased by \$3.4 million to \$12.3 million, primarily due to increased sales. The changes in the Balance Sheet accounts are part of the normal ebb and flow of the business and are not considered

unusual. Collections on accounts receivable remain timely and the higher balance reflects a return to normal sales levels from the dip at the end of December 2006. The Company had \$13.9 million in working capital as of December 31, 2007 and ended the quarter with a current ratio of 2.6 to 1. Both working capital and current ratio were calculated excluding the \$11 million non interest-bearing/non-recourse current note payable to the Saudi Government. Shareholders' Equity increased 17.6% during the quarter to \$52.6 million compared to \$44.7 million as of December 31, 2006.
