Trecora Resources Reports Third Quarter 2015 Results

Record Gross Profit Driven by Declining Feedstock Prices

EBITDA Increased by 19%

D-Train Initiated On-Specification Pentane Production in October

Conference Call at 4:30 pm ET Today

SUGAR LAND, Texas, Nov. 3, 2015 /PRNewswire/ -- Trecora Resources (NYSE: TREC) a leading provider of high purity specialty hydrocarbons and waxes, today announced financial results for the third quarter and nine months ended September 30, 2015.

Third Quarter 2015 Financial Highlights

- Gross profit of \$16.6 million, up 27% from \$13.0 million in the third quarter of 2014, and representing a record quarterly gross profit for the Company
- Gross profit margin of 24.8% compared with 17.0% in the third quarter of 2014
- Operating income of \$11.1 million, up 25% from \$8.8 million in the third quarter of 2014
- Adjusted EBITDA of \$13.9 million, or 20.7% of revenues, compared with \$10.4 million, or 13.5% of revenues, in the third quarter of 2014
- Net income for the third quarter was \$5.3 million, or \$0.21 per diluted share, compared with net income of \$5.8 million, or \$0.23 per diluted share, for the third quarter of 2014. Net income was negatively impacted by the reported loss in equity in the Al Masane Al Kobra Mining Company of \$2.1 million, or an estimated \$0.05 per diluted share on an after tax basis.
- Trecora Chemical contributes revenue of \$6.5 million and EBITDA of \$1.4 million

Third Quarter 2015 Results

Total revenue in the third quarter was \$66.9 million compared with \$76.9 million in the third

quarter of 2014. The decline in reported revenue was driven by a 48.5% reduction in the average per gallon cost of petrochemical feedstock in the third quarter, which rolls over into the formula pricing mechanism for over 50% of petrochemical product sales. Consequently, the average sales price of petrochemical products decreased by 31.1%. The lower feedstock costs more than offset the formula-driven price reductions resulting in higher profit margins.

Gross profit margin increased to 24.8% in the third quarter of 2015, compared with 17.0% in the third quarter of 2014.

Operating income for the third quarter was \$11.1 million compared with operating income of \$8.8 million for the third quarter of 2014.

Total adjusted EBITDA was \$13.9 million, an increase of 33.5% over adjusted EBITDA of \$10.4 million in the year-ago period. The adjusted EBITDA margin increased to 20.7% in the third quarter of 2015, compared with 13.5% in the third quarter of 2014.

Net income for the third quarter was \$5.3 million, or \$0.21 per diluted share, compared with net income of \$5.8 million, or \$0.23 per diluted share, for the third quarter of 2014. Net income was negatively impacted by the reported loss in equity in the Al Masane Al Kobra Mining Company of \$2.1 million, or an estimated \$0.05 per diluted share on an after tax basis.

Trecora President and CEO Simon Uphill-Brown commented, "In the third quarter we achieved a record quarterly gross profit and strong operational performance against a backdrop of lower feedstock prices that continued to impact our revenues. Our South Hampton Resources division generated solid results reflecting higher shipment volume, new customer orders and margin expansion from the third quarter of 2014. During the quarter, we were pleased to initiate the hydro de-sulfurization unit as part of our D-Train expansion initiative, and early in the fourth quarter, D-Train began producing on-specification pentanes – which is two months ahead of schedule. At Trecora Chemical, we benefitted from repeat orders from adhesives customers and additional custom processing projects. Finally, results at AMAK were affected by lower commodity prices and production issues related to shortages of production chemicals. Despite the challenging conditions at AMAK, we remain focused on expanding the size of the mine and enhancing operational efficiencies and recoveries."

South Hampton Resources (SHR)

Petrochemical volume in the third quarter increased 14% to 24.6 million gallons, compared with 21.6 million gallons in the third quarter of 2014. Excluding Canadian oil sands, prime product volumes in the third quarter of 2015 were up 14% from a year ago, driven in part by shipments to new customers and our first ever bulk shipment to Saudi Arabia. SHR's D-Train expansion is well ahead of schedule. International volume represented 20.7% of total petrochemical volume during the quarter, which is indicative of the decrease in oil sands shipments. SHR received its first order of nearly 400,000 gallons from a new Polyethylene facility in the Middle East.

Trecora Chemical (TC)

TC continues to make significant progress improving wax quality and consistency, with September generating the highest wax production volume by a significant margin. TC's third

quarter revenue was \$6.4 million, including \$2.4 million of custom processing fees. While the expansion of the custom processing distillation and hydrogenation capability continues to progress, the expected completion has been delayed to the third quarter of 2016 as we optimize the design for specific projects.

Al Masane Al Kobra Mining Company (AMAK)

We reported a loss in equity in AMAK of approximately \$2.1 million during the third quarter primarily due to a significant decline in commodity prices that resulted in an inventory write-down of \$3.0 million for AMAK with our share being \$1.1 million. Third quarter results were also negatively impacted by operating issues resulting in unplanned downtime and lower recoveries than expected. Copper recoveries returned to normal in September, as did zinc recoveries in early October.

Year-to-Date 2015 Results

Total revenue for the nine months ended September 30, 2015 was \$181.4 million, compared with revenue \$215.6 million in the first nine months of 2014. Total TC revenue for the nine months ended September 30, 2015 was \$18.4 million, which included \$6.6 million of processing fees.

Gross profit for the first nine months of 2015 was \$47.5 million, a 42% increase compared with \$33.5 million in the same period in 2014. Gross profit margin in the first nine months of 2015 was 26.2%, compared with 15.5% in the same period in 2014.

Adjusted EBITDA for the first nine months of 2015 was \$38.7 million, up 54% compared with \$25.2 million in the same period in 2014. Adjusted EBITDA margin in the first nine months of 2015 was 21.4%, compared with 11.7% in the same period of 2014.

Net income for the first nine months of 2015 was \$17.5 million, representing an increase of 31% as compared with \$13.4 million in the same period of 2014. Diluted EPS were \$0.69 compared with \$0.54 in the same period of 2014.

Balance Sheet

As of September 30, 2015, cash and cash equivalents were \$14.9 million compared with \$8.5 million at the close of 2014. Total debt was \$75.2 million. Capital expenditures during the quarter were \$6.7 million, which included D-train expansion construction and expansion of custom processing capacity at Trecora Chemical.

Earnings Call

Today's conference call and presentation slides will be simulcast live on the Internet, and can be accessed on the investor relations section of the Company's website at <http://www.trecora.com> or at <http://public.viavid.com/index.php?id=116796>. A replay of the call will also be available through the same link.

To participate via telephone, callers should dial in five to ten minutes prior to the 4:30 pm Eastern start time; domestic callers (U.S. and Canada) should call 1-888-337-8169 or 1-719-457-2627 if calling internationally, using the conference ID 1736924. To listen to the playback, please call 1-877-870-5176 if calling within the United States or 1-858-384-5517 if calling internationally. Use pin number 1736924 for the replay.

Use of Non-GAAP Measures

The Company reports its financial results in accordance with U.S. generally accepted accounting principles ("GAAP"). This press release contains the non-GAAP measures: Adjusted EBITDA and Adjusted EBITDA Margin. Our non-GAAP measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP.

Forward-Looking Statements

Statements in this press release that are not historical facts are forward looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based upon our belief, as well as, assumptions made by and information currently available to us. Because such statements are based upon expectations as to future economic performance and are not statements of fact, actual results may differ from those projected. These risks, as well as others, are discussed in greater detail in Trecora Resources' filings with the Securities and Exchange Commission, including Trecora Resources' Annual Report on Form 10-K for the year ended December 31, 2014, and the Company's subsequent Quarterly Reports on Form 10-Q. All forward-looking statements included in this press release are based upon information available to the Company as of the date of this press release.

About Trecora Resources (TREC)

TREC owns and operates a facility located in southeast Texas, just north of Beaumont, which specializes in high purity hydrocarbons and other petrochemical manufacturing. TREC also owns and operates a leading manufacturer of specialty polyethylene waxes and provider of custom processing services located in the heart of the Petrochemical complex in Pasadena, Texas. In addition, the Company is the original developer and a 35% owner of Al Masane Al Kobra Mining Co., a Saudi Arabian joint stock company.
