Business Results and Corporate Update

August 20, 2025

Forward Looking Statements

This presentation contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, and other securities laws. Words such as “expect,” “will,” “anticipates,” “estimates” and variations of such words and similar future or conditional expressions are intended to identify forward-looking statements. Such forward-looking statements, including statements herein regarding our business opportunities and prospects, strategy, future revenue expectations, licensing initiatives, recent funding and M&A activities as well as our plans to integrate acquired businesses and technologies, are necessarily based upon estimates and assumptions that, while considered reasonable by us and our management, are inherently uncertain. Readers are cautioned not to place undue reliance on these forward-looking statements. Actual results may differ materially from those indicated by these forward-looking statements as a result of various risks and uncertainties including, but not limited to, the following: the risk that we are unable to satisfy all closing conditions in connection with the senior notes issuance described above, and the acquisition of certain assets from CSI; our ability to successfully integrate all IP that we have acquired; risks regarding our ability to utilize the assets we acquire to successfully grow our market share; risks regarding our ability to open up new revenue streams as a result of the various agreements we have entered into and assets we have acquired; our current liquidity position and the need to obtain additional financing to support ongoing operations; general market, economic and other conditions; our ability to continue as a going concern; our ability to maintain the listing of our common stock on Nasdaq; our ability to manage costs and execute on our operational and budget plans; our ability to achieve our financial goals; the degree to which our licensees implement the licensed technology into their products, if at all; the timeline to any such implementation; risks related to technology innovation and intellectual property, and other risks as more fully described in our filings with the U.S. Securities and Exchange Commission. The information in this presentation is provided only as of the date of this presentation, and we undertake no obligation to update any forward-looking statements contained in this communication based on new information, future events, or otherwise, except as required by law.

New Businesses and Products Driving Revenue

- **Q2 2025 Recognized Revenue of \$1.7 Million, Reflecting 467% Year-Over-Year Growth, and Secured \$2.5 Million in Additional Patent Licensing Bookings from NYAIX/NASDAQ Exchange Partnership.** DVLТ will receive Nyiax shares for payment.
- The **176% sequential revenue growth** in Q2 leads to our target of \$12M-\$15M in the second half of 2025 and \$40M-\$50M in 2026, driven by high-margin data licensing, IP monetization, and new exchange launches.
- Passage of Genius Act opens large scale licensing opportunities in the U.S. banking industry. Datavault AI is pursuing a standards-based licensing approach and litigation-enforced licensing with world-class litigation counsel at **FISH & GT**. Financial damages analysis and legal processes are underway for the sustained licensing program.
- Standards-based licensing strategy in HD wireless transmission and multi channel spacial sound patent pooling strategy has been initiated through partnership with counsel at Greenberg Traurig.

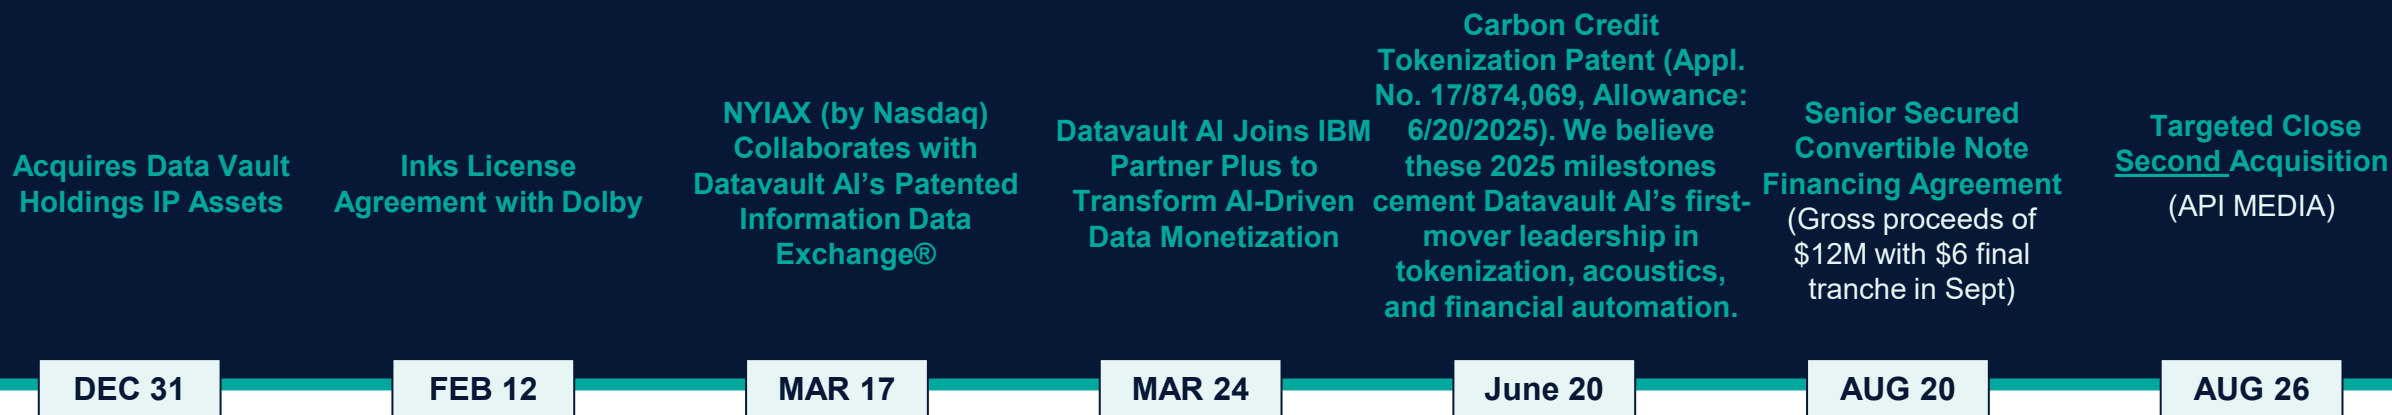

Strategic Initiatives for Q3 2025

- Launch new **International Elements Exchange**, **International NIL Exchange**, and **American Politics Exchange**, leveraging Datavault's Web3 infrastructure and high-performance computing backbone.
- Advance commercialization of IBM-powered AI agents within Datavault's platform.
- Complete 2025 strategic acquisitions in Acoustic and Data divisions, expanding core growth markets.
- Execute plans for supercomputing and AI development strategy to support long-term scale.
- Provide update on API Media integration and next steps.

Strategic Milestones & Recent Advances

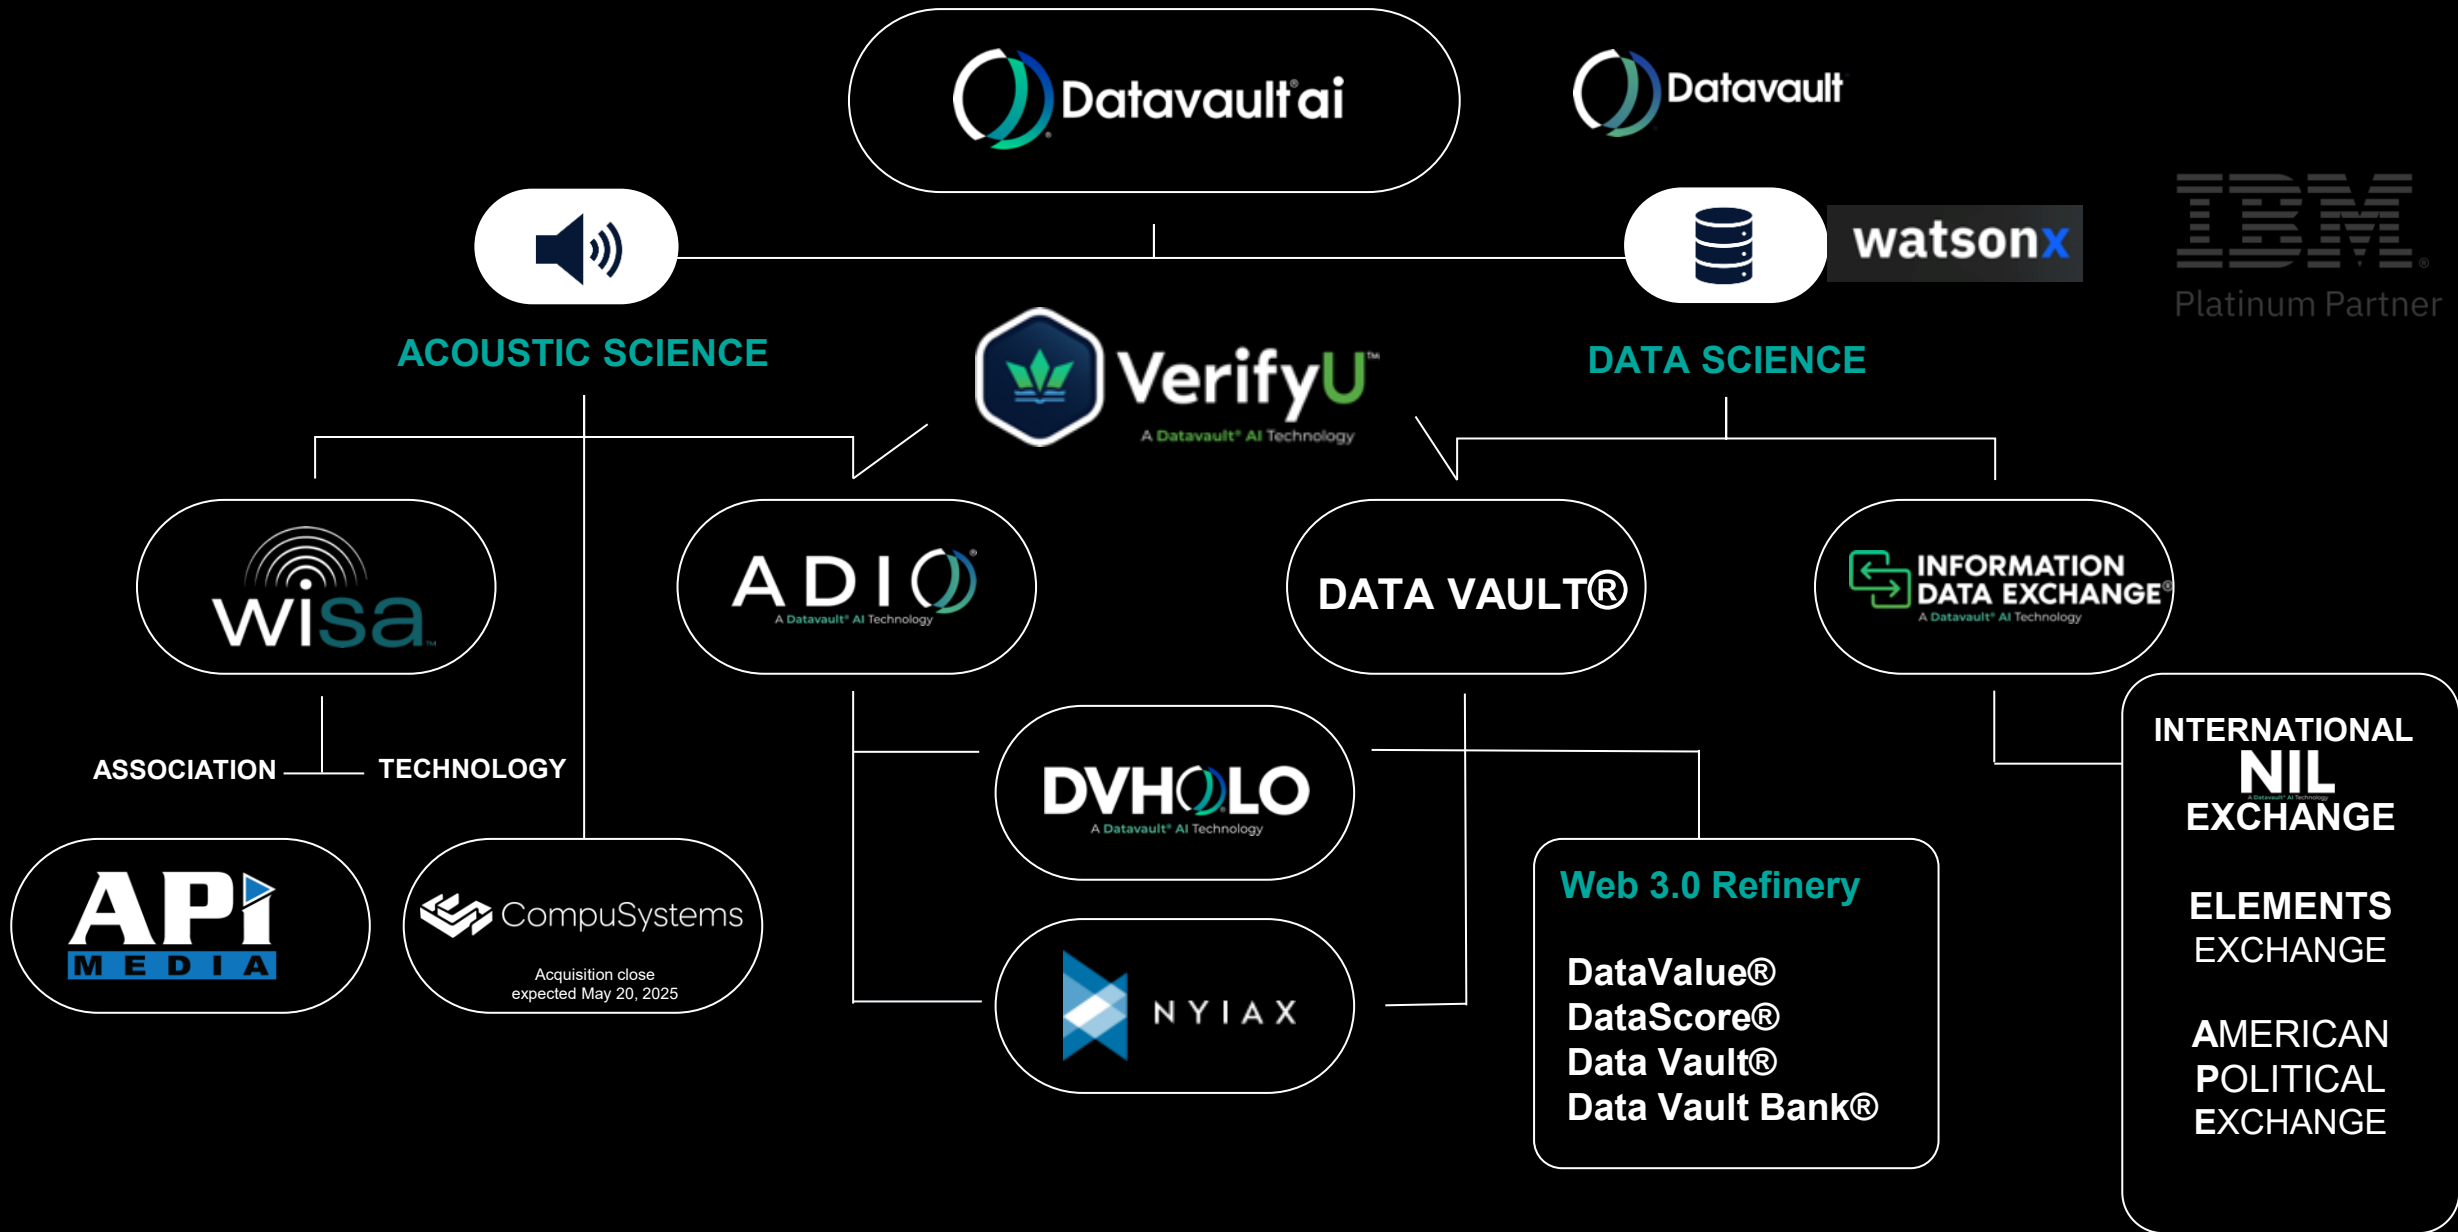

IBM Partner Plus

As one of IBM's 500 global partners, Datavault AI will leverage IBM watsonx™ to enhance its AI agents—Data Vault Bank®, DataScore® and DataValue®—driving the next wave of AI-powered financial modeling and tokenization.

PATH TO PROFITABILITY

Strategic partnerships and licensing, along with pending CSI acquisition and additional future, to drive revenue growth in 2026

Intellectual Property Expansion

Filed 5 new patents and expanded trademarks, increasing the combined portfolio to **72 patents** as of August 2025.

Robust IP Portfolio: 72 patent assets (30 issued, 10 allowed, 32+ pending) and 28 trademarks (14 issued, 11 allowed, 3 pending).

Core Focus Areas: Acoustic sciences (wireless audio, inaudible tones) and data sciences (tokenization, valuation, blockchain exchanges).

Strategic Alignment: IP underpins partnerships (e.g., **Burke Products, IBM**), regulatory approvals (FEC), and market expansions (Elements Exchange).

Growth Outlook: Driving secure data monetization, AI-driven valuation, and acoustic innovations with a **\$50M** revenue target by 2026 across defense, biotech, and finance.

The next generation of advanced and scalable **cryptoanchors** that enable **digital tracking, tracing and authentication** of physical items

Government GSA# Has been Acquired for Datavault AI

NYIAX is a pioneer in transparent trading technology built on the **Nasdaq financial framework**.

This partnership will integrate Datavault AI's patented Information Data Exchange® (IDE) and award-winning Data Vault® platform with NYIAX's blockchain exchange technology.

The collaboration will enable businesses to scale, list, price, and trade data and digital assets efficiently, creating new revenue opportunities.

This partnership positions us to capture a share of the projected **\$700 billion data monetization market in 2025***

We furthered this strategic relationship in a licensing agreement with NYIAX that integrates Datavault AI's ADIO® technology into NYIAX's cutting-edge advertising exchange, creating one of the world's first fully functional ultrasonic advertising platforms.

*Data Monetization Market to touch US\$ 708.86 Bn by 2025 - TMR

IBM **Partner Plus**

The IBM Partner Plus program helps businesses access leading technology for growth.

Datavault AI's inclusion drives adoption of AI-driven data valuation and licensing across industries, positioning it as a leader in AI-driven financial modeling.

AI-powered data assets projected to become the next trillion-dollar market.

Datavault AI has developed a fully integrated AI-powered ecosystem that enables organizations to monetize their data assets through its three flagship AI agents

- 1 Data Vault Bank®**
A Web 3.0-powered AI engine that converts enterprise data into structured, tradable assets.
- 2 DataScore®**
A patented AI-driven scoring and risk analysis tool that assess data quality and ensures compliance with GDPR, CCPA, and other regulatory standards.
- 3 DataValue®**
A patented AI-driven pricing engine that assigns real-world financial valuations to enterprise data, creating new liquidity and trading opportunities.

By integrating these AI agents with IBM watsonx, Datavault AI will enable enterprises to harness AI-powered data valuation without the risks of regulatory scrutiny or privacy violations.

Datavault AI will leverage IBM's synthetic data generation technology, allowing clients to train AI models without exposing sensitive customer data—a key advantage for industries with strict privacy requirements.

Data Vault®

Innovative technology on a highly secure and encrypted platform

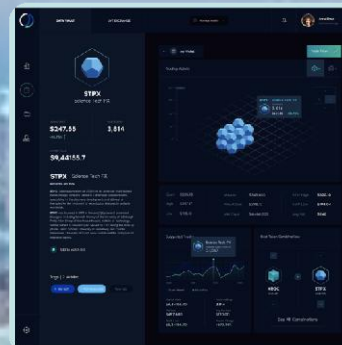

An intuitive, gamified user interface

Designed for valuation, collaboration, and trading of data assets on the Information Data Exchange®

1. DataScore

Score data for regulatory, privacy, accuracy, completeness and a myriad of others data attributes.

2. DataValue

Obtain accurate valuation of data assets powered by IBM WatsonX.

3. Data Vault Bank

Mint smart contracts

Turning data into cash...

Data is our commodity.

In today's data-driven world, businesses face mounting challenges related to data security, ownership, and monetization. Datavault AI addresses these challenges by providing a secure, transparent, and scalable solution for managing and monetizing data assets.

Security & Reliability

Businesses struggle with securing and privatizing data assets, especially in the age of AI, where unreliable or unsecured data can undermine entire systems.

Data Ownership

Issues around data ownership, including the lack of a reliable and transparent ecosystem for data exchange.

Audio & Web 3.0 Disconnect

Audio technologies have remained largely disconnected from the emerging Web 3.0 ecosystem.

Data Science Division

Focused on revolutionizing data management, valuation, and monetization in the Web 3.0 era.

DataValue®
DataScore®
Data Vault®
Information Data Exchange® (IDE)

Acoustic Science Division

Combines breakthrough audio technologies with data-over-sound innovations, redefining how sound and data interact in the Web 3.0 ecosystem.

ADIO®
CompuSystems (CSI)
WISA®
WISA Association

Integration of ADIO® + CompuSystems

Connecting to audiences. Moving the industry forward.

Increase Exhibitor Value

Provide M3 Expo Wallet prospect-matching algorithms to identify and align attendees with an exhibitor's ideal profile and drive attended engagement with ADIO haptics.

Enhance Attendee Experience

Provide highly targeted attendees who opt-in with ADIO technology's inaudible tones to be delivered in real-time.

Support Organizers

Deliver scores of actionable data.
Improve attendee satisfaction.
Improve ROI for exhibitors.

Upselling CSI into Datavault and ADIO Customers

REVENUE DRIVERS

- DVHOLO
- ADIO – New Patented Audio Mesh Network
- Data Vault – A breakthrough in no touch agentic data management
- **DataScore and Data Vault Bank**
- WiSA – New Patent Pooling Licensing Strategy Underway

- Industry Standard in HD Wireless Sound Transmission

Leading the Industry into Web 3.0

Financial Outlook and Funding Strategic Growth

Q2 Op. Ex. Breakdown (millions)	
Non-cash M&A Charges	\$1.1
Non-cash Amortization and Stock Compensation	\$3.5
One time M&A Expenses	\$0.9
All Other Expenses	\$7.0
Total	\$12.5

- Goal is to align expenditures with higher opportunity product lines
- Improve cost efficiencies by year with \$4M target

Revenue Targets (\$ in Millions)

1H 2025 Actual	\$2.36M
2H 2025 Revenue Target ¹	\$12M to \$15M
2026 Revenue Target	\$40M to \$50M
¹ Assumes closing of API & Other Strategic Initiatives to Drive Growth
