Twin Vee PowerCats' 22 BayCat Named to Best Catamarans for 2025 List

FORT PIERCE, FL, AL / [ACCESS Newswire](#) / October 7, 2025 / [Twin Vee PowerCats Co.](#) (Nasdaq:VEEE), ("Twin Vee" or the "Company"), a manufacturer, distributor, and marketer of power sport boats, today announced its recently relaunched 22 BayCat has been recognized by Boat Trader as one of the ["Best Catamarans for 2025."](#)

In the article, the 22 BayCat, which launched in May 2025, is praised for combining its classic versatility with cutting-edge construction and modern features. Boat Trader's review, penned by long-time marine writer Lenny Rudow, emphasizes the 22 BayCat's dual-purpose design, suitable for those who "fished the shallows one day and the ocean the next."

A core component of the article was 22 BayCat's upgraded, modern construction. The Company employs advanced vacuum-infusion techniques in the hull, which results in a lighter, stronger, and more consistent structure. This advanced manufacturing process contributes directly to improved fuel economy and a smoother, quieter ride quality.

For anglers, Mr. Rudow lauded the robust feature set, noting its readiness to roll with a powder-coated T-top and amenities such as "a pair of 25-gallon livewells, a tackle station under the helm seat, and four rocket launchers across the back of the top." According to Twin Vee, the 22 BayCat features a 65-gallon fuel tank and is capable of handling up to 200 maximum horsepower, providing excellent range and performance for its class.

The publication also recognized the BayCat's family-friendly appeal, noting it can be easily configured with options like bow cushions, back rests, a Magma grill, and a head compartment in the console. Furthermore, the article highlighted the boat's key competitive advantage: its accessible pricing. This affordability, the Company notes, makes the 22 BayCat a compelling entry point, especially for first-time boat owners.

"The BayCat's placement on this list validates the immense work our team put into designing a 22-foot boat that delivers versatility and value to the market," remarked Joseph C. Visconti, CEO and President of Twin Vee PowerCats Co. "The original 22-foot BayCat was a cherished classic, and we meticulously re-engineered it with the latest advancements in technology, materials, and build processes. We encourage anyone interested to experience the exceptional ride quality and value proposition for themselves on a sea trial from one of our authorized dealers."
