Perma-Fix Announces Positive Industry Feedback at its 17th Annual Nuclear Waste Management Forum

ATLANTA, GA / ACCESSWIRE / December 9, 2019 / Perma-Fix Environmental Services, Inc. ("Perma-Fix" or the "Company") (NASDAQ:PESI) recently hosted its 17th Nuclear Waste Management Forum 2019 from December 2-4, in Nashville, Tennessee with nearly 200 industry executives in attendance. The forum focused on radioactive waste and remediation challenges within the DOE complex along with new technologies and innovations in development to provide near-term solutions. The annual event provided industry leaders an opportunity to network with experts from a variety of U.S. and international waste generator sites, government officials, and other small and large businesses.

Featured speakers included Anne White, Former Assistant Energy Secretary for Environmental Management, and officials from the U.S. Department of Energy. One of the more popular events included a featured panel on Women in Nuclear.

The forum hosted a variety of speakers representing nuclear utility plants, international entities and US Department of Energy programs including Environmental Management, National Nuclear Security Administration and Office of Science. The 2019 forum panels consisted of: Department of Energy Programs Challenges and Initiatives; National Nuclear Security Administration Legacy Remediation Programs; New Market Offerings; Increased Value of Waste Technology Offerings; and Innovative Approaches to Meet Emerging Industry Challenges.

Through the two days of sessions, Perma-Fix introduced its latest technologies and applications regarding waste characterization, packaging, treatment, transportation, and disposition while sharing lessons learned that could improve safety and efficiency for their projects. Among topics discussed were Perma-Fix's most recent upgrades to its facilities to support client initiatives, as well as an introduction of the Perma-Sort^{SM} soil segregation process.

Mark Duff, President & CEO, stated, "This year's conference was a major success, as we provided a unique forum for Perma-Fix to strengthen existing relationships with clients and partners, while delivering a platform to review new developments in technologies and facilities to address the most complex waste management challenges in our industry. As Perma-Fix continues to grow and address new market challenges, this event serves as an ideal venue to discuss detailed customer issues and solutions, including technical considerations, as well as providing opportunities to team with other industry leaders and clients. This event and the positive feedback from the industry further illustrate our growing

reputation as a leader in the nuclear waste industry, with unique treatment capabilities, a growing service business, and impeccable safety record. We are committed to providing our customers and partners unmatched value in the marketplace."

About Perma-Fix Environmental Services

Perma-Fix Environmental Services, Inc. is a nuclear services company and leading provider of nuclear and mixed waste management services. The Company's nuclear waste services include management and treatment of radioactive and mixed waste for hospitals, research labs and institutions, federal agencies, including the DOE, the DOD, and the commercial nuclear industry. The Company's nuclear services group provides project management, waste management, environmental restoration, decontamination and decommissioning, new build construction, and radiological protection, safety and industrial hygiene capability to our clients. The Company operates three nuclear waste treatment facilities and provides nuclear services at DOE, DOD, and commercial facilities, nationwide.
