Executive Comments

“Revenue in Q1 2019 was a new record and exceeded \$5 million for the first time in our history,” said Todd Cravens, Galaxy’s President and CEO. “All of our continuing product segments grew in Q1, with very strong increases in our progressives and in our iGaming business. We hope that this momentum will continue in 2019 as we move forward in seeking licenses to sell in jurisdictions where we have not previously been able to do so.”

“Q1 showed a continuation of recent trends: year-over-year increases in revenue and Adjusted EBITDA, an increase in cash and a decrease in debt,” stated Harry Hagerty, Galaxy’s CFO. “We were very comfortably in compliance with the financial covenants in our bank credit agreement. Our balance sheet will change significantly as a result of the share redemption we completed in May 2019, but we believe the Company has several options to help it manage the significant increase in leverage.”
