RALEIGH, N.C., Aug 5, 2008 (PrimeNewswire via COMTEX News Network) -- Triangle Capital Corporation (Nasdaq:TCAP) ("Triangle" or the "Company"), a leading specialty finance company that provides customized financing solutions to lower middle market companies located throughout the United States, today announced its results for the second quarter of 2008.

"The recent tightness in the credit markets has been favorable to Triangle allowing us to structure several attractive new investments," commented Garland S. Tucker, III, President and CEO of Triangle. "The significant deployments of capital we made during the quarter coupled with steady portfolio performance helped generate a 32.9% increase in net investment income as compared to the first quarter of 2008," Tucker continued.

#### Second Quarter 2008 Results

Total investment income during the second quarter of 2008 was \$5.0 million, compared to total investment income of \$3.3 million for the second quarter of 2007, representing an increase of 52.7%. The Company's increase in investment income is primarily attributable to a \$1.8 million increase in total loan interest, fee and dividend income and a \$0.5 million increase in total paid-in-kind interest income due to a net increase in portfolio investments from June 30, 2007, to June 30, 2008.

Net investment income during the second quarter of 2008 was \$2.5 million, compared to net investment income of \$1.6 million for the second quarter of 2007, representing an increase of 54.6%. Net investment income per share during the second quarter of 2008 was \$0.37 compared to \$0.25 during the second quarter of 2007.

The Company's net increase in net assets resulting from operations was \$2.8 million during the second quarter of 2008, as compared to \$2.2 million during the second quarter of 2007. The Company's net increase in net assets resulting from operations was \$0.41 per share during the second quarter of 2008 as compared to \$0.33 per share during the second quarter of 2007.

The Company's net asset value per share at June 30, 2008, was \$13.73 as compared to the Company's net asset value per share at June 30, 2007, of \$13.75. As of June 30, 2008, the Company's weighted average yield on all of its outstanding debt investments was approximately 14.0%.

#### Dividend Information

On July 21, 2008, Triangle announced that its board of directors had declared a cash dividend of \$0.35 per share. This is the Company's sixth consecutive quarterly dividend since its initial public offering in February, 2007, and reflects a 34.6% increase over the same quarter in 2007. The dividend will be payable as follows:

Record Date: August 14, 2008
Payment Date: September 4, 2008

Commenting on the dividend, Steven C. Lilly, Chief Financial Officer, stated, "Triangle's dividend continues to pace well ahead of our original expectations. With over \$41 million of new investments completed in the second quarter, we are optimistic about the prospect of additional dividend growth during the second half of 2008."

Triangle has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend, stockholders who have not opted out of the DRIP will have their cash dividends automatically reinvested in additional shares of the Company's common stock, rather than receiving cash dividends.

When the Company declares and pays dividends, it determines the allocation of the distribution between current income, accumulated income and return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the dividend allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes.
