# Blue Eagle Lithium Inc. Announces Official Launch of Website and Introduces Core Leadership Team

HENDERSON, Nev., Aug. 27, 2018 (GLOBE NEWSWIRE) -- Blue Eagle Lithium Inc. (OTCQB:BEAG) ("Blue Eagle" or the "Company") is pleased to announce the official launch of the Company's new corporate website and to introduce Blue Eagle's core leadership team of energy, lithium and exploration specialists.

Blue Eagle is a lithium exploration company engaged in identifying, evaluating, and developing early-stage lithium exploration opportunities in North America. The company's initial property is located in Railroad Valley, Nevada, a highly prospective green-fields Petro-Lithium brine target area that features many similarities to the nearby Clayton Valley and which the company believes warrants an extensive exploration program. The company has a 100% Working Interest in 200 placer claims. The staked claims cover 4,000 acres (~1,619 hectares).

## Website Launch

Blue Eagle is pleased to launch its new corporate website at [www.blueeaglelithium.com](http://www.blueeaglelithium.com). The website provides a detailed overview of the Company's structure and focus; Blue Eagle's property, Company management, an overview of the growing lithium market, relevant industry news, company news, brochure, fact sheets, all contact details, and Investor Relations area.

## Leadership Team

Blue Eagle's core leadership team comprises of experienced leaders that represent many years of industry experience in the energy, financial, and geology fields. The following biographies provide overviews of key team members' experience and expertise.

### Rupert Ireland: CEO, Board of Directors

Rupert Ireland brings to Blue Eagle Lithium more than 20 years of experience in the energy, financial services, and technology sectors. He has first-hand knowledge in operations and significant business relationships, including being a principal of the private equity and merchant banking alliance Gladstone Global. All are vital to the successful direction and execution of Blue Eagle's business objectives and future fund raising requirements.

Prior to Blue Eagle, Rupert has been involved with an oil and gas project, building his

expertise in various areas such as taking an early stage project through to a drilling program. His previous experience includes roles as Head of Trading at Carax (now Tradition), and Sales Trading at City Index, with clients including JP Morgan, Citibank and other major hedge funds. Rupert attended the University of Newcastle.

#### **Rod Murray: Chief Operations Officer (COO)**

Rod Murray has 30 years of oil industry experience, primarily in new ventures and the management of projects and operations in developing countries and the US. His projects have ranged from multi-million to billion-dollar wildcat exploration, discovery, appraisal and development scenarios. Over the course of his career in the energy sector, Rod has managed over 200 projects, working for most of the majors including BHP, BP, Shell, Amoco, Chevron and Mobil.

Over the years he developed a proven track record of forging strong relationships with government officials, investors and operators. Rod spent his early career as a Consultant and Operations Geologist in Europe, Africa and the North Sea. Rod is a graduate of the Royal School of Mines, Imperial College (MSc. Petroleum Geology), and the University of Manchester (BSc. Geology).

#### **Gavin Harrison: Director of Operations**

Gavin Harrison is a well-known figure in the US lithium and “petro lithium” exploration industry, having quickly dispatched and acquired 500,000+ acres of mineral lands equating to over 25,000 mineral claims in Utah, Arizona and Nevada on behalf of clients during the lithium land rush in 2016. His reputation and hard-earned experience in the lithium industry is invaluable to Blue Eagle. Gavin's company, Harrison Land Services (HLS), has a wide range of exploration instruments and equipment for carrying out field tasks and is a well-equipped field service company.

#### **Robert FE Jones: Board Advisor**

Robert FE Jones is a seasoned geophysicist with 40 years of experience in the energy sector. Most recently, Robert has worked as an independent and is currently in NED roles for Caithness Petroleum and Tristone Energy.

Robert has strong capability across all aspects of energy exploration and development, founded on technical excellence in geoscience/exploration. He has successfully delivered over 400 projects, including new ventures, exits, re-organizations, and major discoveries in South America, the Arctic, Asia, Middle East, Europe and West Africa. Robert is a Certified Petroleum Geophysicist (AAPG) and a graduate (MSc. Marine Geotechnics, BSc. Physics) of University College of North Wales.

#### **Management Comments**

"We're very fortunate to have assembled a team of this caliber," commented Blue Eagle's CEO, Rupert Ireland. "My own years of participation in the energy, financial services, and technology sectors have taught me the vital importance of first-hand experience when it comes developing early stage exploration companies. The team's collective knowledge allows us to make the correct planning decisions, which is the back bone of successful exploration. I'm looking forward to working with our initial team, we are keen to implement our exploration program and look to secure the key partnerships needed to move this company forward. Among our first steps will be to announce our plans for Blue Eagle's

initial exploration program which we are finalizing now.”

**On behalf of the Board,**

Rupert Ireland,  
Chief Executive Officer

**About Blue Eagle Lithium Inc.**

Blue Eagle Lithium is a publicly traded (OTCQB:BEAG) lithium exploration and development company based in Henderson, Nevada. The company is engaged in identifying, evaluating, and developing early-stage lithium exploration opportunities in North America. Blue Eagle’s team comprises experienced leaders that represent over 60 years of industry experience in the energy, financial, and geology fields. Blue Eagle has a 100% Working Interest in 200 placer claims in Railroad Valley, Nevada, a highly prospective green-fields lithium brine target in the heart of the Basin and Range geologic province. The staked claims, covering 4,000 acres (~1,619 hectares) over a large portion of Railroad Valley, are ready for the next phase of lithium exploration.
