# The Leading Enterprise Al Platform

**UBS Global TMT Conference | December 2021** 

## Forward Looking Statements & Disclaimers

This presentation of Veritone, Inc. (the "Company") contains forward-looking statements that involve substantial risks and uncertainties. The words "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "predict," "project," "target," "potential," "would," "could," "should," and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements, and you should not place undue reliance on our forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements we make. The forward-looking statements contained in this presentation reflect our current views with respect to future events.

Forward-looking statements represent our management's beliefs and assumptions only as of the date of this presentation. We have included important factors in the cautionary statements included in the Annual Report on Form 10-K and other periodic reports that we have filed with the Securities and Exchange Commission (the "SEC"), particularly in the Risk Factors sections, that we believe could cause actual results or events to differ materially from the forward-looking statements that we make. Except as required by law, we assume no obligation to update these forward-looking statements publicly, or to update the reasons why actual results could differ materially from those anticipated in the forward-looking statements, even if new information becomes available in the future.

Before you invest, you should read the Company's Annual Report on Form 10-K and the other documents the Company has filed with the SEC for more complete information about the Company. You may obtain these documents for free on the Company's website or by visiting EDGAR on the SEC website at www.sec.gov.

In addition to the Company's GAAP financial results, this presentation also includes certain non-GAAP financial measures. Tables detailing the items excluded from these non-GAAP financial measures and reconciling such non-GAAP measures with the most directly comparable GAAP measures are included in the Appendix.

The Company has provided these non-GAAP measures because management believes such information to be important supplemental measures of performance that are commonly used by securities analysts, investors and other interested parties in the evaluation of companies in its industry. Management also uses this information internally for forecasting and budgeting.

These non-GAAP financial measures should not be considered as an alternative to net income (loss), operating income (loss) or any other financial measures so calculated and presented, nor as an alternative to cash flow from operating activities as a measure of liquidity. Other companies (including the Company's competitors) may define these non-GAAP measures differently. These non-GAAP measures may not be indicative of the historical operating results of the Company or predictive of potential future results. Investors should not consider these non-GAAP financial measures in isolation or as a substitute for analysis of the Company's results reported in accordance with GAAP.

This presentation also contains information using industry publications that generally state that the information contained therein has been obtained from sources believed to be reliable, but such information may not be accurate or complete. While we are not aware of any misstatements regarding the information from these industry publications, we have not independently verified any of the data from third-party sources nor have we ascertained the underlying economic assumptions relied on therein.

This presentation is being made exclusively to qualified institutional buyers ("QIBs") as defined in Rule 144A under the U.S. Securities Act of 1933, as amended (the "Securities Act"). The securities described herein have not been and will not be registered under the Securities Act and may not be offered or sold in the United States except to QIBs in reliance on Rule 144A of the Securities Act or pursuant to an exemption from, or transaction not subject to, the registration requirements of the Securities Act. This document does not constitute an offer to sell, or a solicitation of an offer to purchase, any securities in any jurisdiction where such offer or sale is not permitted. Any purchaser of such securities will be deemed to have made certain representations and acknowledgements, including, without limitation, that the purchaser is a "qualified institutional buyer" as defined under Rule 144A of the Securities Act.

## **Commercial Enterprise Solutions**

### Built to Solve Your Business Challenges

Veritone is helping some of the world's most recognizable brands accelerate the gap between traditional enterprise software and cognitive insights enabled by AI solutions and bespoke applications, empowering greater efficiencies, accelerating decision making and driving revenue growth

Gain value from your video, audio, images, text, and data through metadata extraction, search, and visualization, enhancing customer support and system integrations

## Content Management & Monetization

Unlock the full potential of your content efforts with Al-powered DAM and synthetic voice creation

### **Talent Acquisition**

Increase the number of qualified applicants, decrease the time to find and hire the best candidates, while removing inefficient HR processes

### **Media Intelligence**

Provide proof-of-performance metrics for broadcast-to-web attribution while tracking all of your content to make it easier to reuse, provide airchecks and validate sponsorships

#### **SELECTED CUSTOMERS**

#### **VERITONE MANAGED SERVICES**

#### VERITONE ONE.

Full-service performance advertising agency utilizing aiWARE<sup>TM</sup> actionable intelligence and leader in the dialtal influencer

Veritone Licensing

Team of experts and proprietary AI help find footage, rights and clearances for content buyers and rightsholders

## Government and Regulated Industries

### **Government Solutions**

Veritone works with some of the largest federal, state, and local government agencies, solving problems of transparency, compliance, and inefficiencies with Al solutions and bespoke applications

### **Data Insight**

Gain value from video, audio, images, text, and data through metadata extraction, search, and visualization, enhancing customer support and system integrations

#### Redaction

Save time and costs while freeing up valuable resources by using Veritone Al to automate the redaction of sensitive information within audio, video and image-based evidence

### **Biometric Identification**

Authenticate users identify callers and suspects by recognizing voices and faces in videos, images, and calls

#### Recruitment

Increase the number of qualified applicants, decrease the time to find and hire the best candidates, while removing inefficient HR processes

### **Transcription & Translation**

Legal and contact center teams, automate manual work with near-realtime transcription and translation of any data source

#### **SELECTED CUSTOMERS**

#### **SELECTED CHANNEL PARTNERS**

**Deloitte.** 

## Government and Regulated Industries (Cont'd)

### **Energy Solutions**

Veritone is empowering energy companies with the technology to prepare for changing business models and help the world obtain more efficient energy systems and infrastructure

### **Real-time Forecasting**

Al-powered Forecaster generates highly accurate energy demand, supply and price forecasts using historical and real time data modeling of predicted weather, power demand and DER device data.

### **Solar Smoothing**

The Al-driven Optimizer leverages battery storage for solar smoothing to confidently supplement the gaps in solar power, while minimizing maintenance costs and increasing reliability of solar generation.

### **Distributed Energy Resources**

Distributed AI agents ensure optimal economic dispatch of energy between multiple Distributed Energy Resources (DERs) allowing for autonomous, continuous operation when portions of the grid fail.

### **Voltage & VAR Optimization**

Controls the flow of power on the distribution system to increase efficiency and reliability, reduce distribution energy losses, and accommodate new power flows, such as those originating from distributed generation

### The Veritone aiWARETM Platform

### Transform audio, video, text, and other data sources into actionable intelligence

#### **FAST TO MARKET**

"OS for Al" ecosystem of hundreds of best-ofbreed, ready-to-deploy Al engines

#### **FUTURE PROOF**

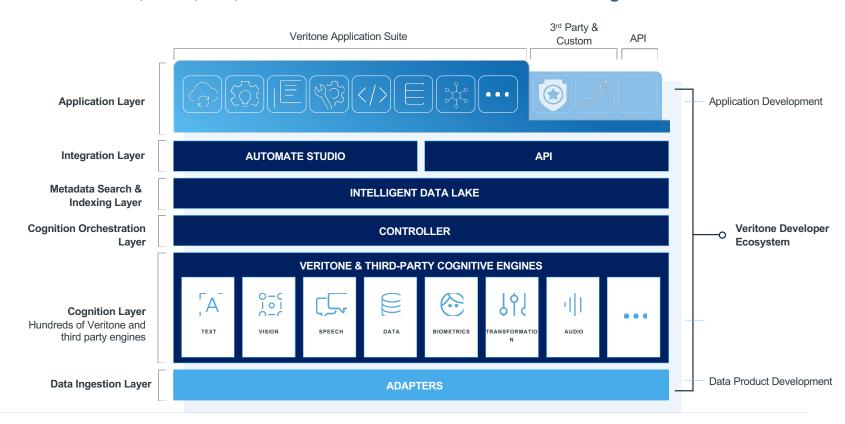

Single development interface for your apps, across AI engine vendors

#### **ACCESSIBLE**

**Low-code** workflows for BAs and citizen developers

#### **SCALABLE**

Scalable to handle massive amounts of video and audio, data in near real time

## Strategic Rationale for PandoLogic

Veritone has been focused on the promise of moving humans from "In the Loop" to On the Loop"

Human involvement is required for the process to occur

ON THE LOOP

Machines do the bulk of the work. Human involvement becomes a check, to ensure processes are running normally and to verify accuracy

Creates leading AI + Human Capital Management software and SaaS solutions for employers requiring more efficient, unbiased and scalable hiring

**Expands market** into HR and talent acquisition with leading multinational and Fortune 100 companies

Significantly diversifies
SaaS revenues

Unlocks new growth and development opportunities as the platforms are integrated

Instant accretion and financial scale to drive additional growth acceleration

Further utilizes AI to create deeper insight, transparency and efficiencies in hiring
