1. Overview and Purpose of Document

This document contains the Pillar 3 disclosures as at 30 June 2019 in respect of the capital and risk management of Bank of America Merrill Lynch International Designated Activity Company, ("BAMLI DAC"), an Irish credit institution.

Capital Requirements Directive IV ("CRD IV"), the European Union ("EU") legislation implementing Basel III, came into effect on 1 January 2014. This mandates the quantity and quality of capital that firms are required to hold, introducing an EU wide liquidity regime and establishing leverage requirements. This legislation consists of three Pillars. Pillar 1 is defined as "Minimum Capital Requirement", Pillar 2 "Supervisory Review Process" and Pillar 3 "Market Discipline". The aim of Pillar 3 is to encourage market discipline by allowing market participants to access key pieces of information regarding the capital adequacy of institutions through a prescribed set of disclosure requirements.

This document discloses the information prescribed by these guidelines on a quarterly basis, which includes information on capital adequacy, leverage and liquidity.

For further information on BAMLI DAC's risk management objectives and policies, liquidity and asset encumbrance, please refer to BAMLI DAC's annual Pillar 3 disclosure for the year ended 31 December 2018 on Bank of America's corporate website: http://investor.bankofamerica.com.

1.1. BAMLI DAC

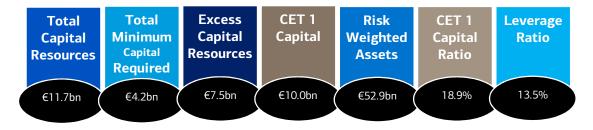

BAMLI DAC is a registered credit institution in the Republic of Ireland which is authorised and regulated by the Central Bank of Ireland ("CBI") and supervised under the single supervisory mechanism ("SSM"). BAMLI DAC is headquartered in Dublin with branches in Amsterdam, Brussels, Frankfurt, London, Madrid, Milan, Paris, Stockholm and Zurich.

BAMLI DAC is a wholly owned subsidiary of Bank of America N.A. ("BANA") and the ultimate parent continues to be Bank of America Corporation ("BAC"). As at 30 June 2019, BAMLI DAC was rated by Fitch Ratings, Inc ("Fitch") (AA- / F1+) and by S&P Global ("S&P") (A+/A-1).

1.2. BAMLI DAC's Capital Position at 30 June 2019

Figure 1 illustrates BAMLI DAC's key capital metrics. BAMLI DAC's Capital Resources consist of Common Equity Tier 1 ("CET1") capital and BAMLI DAC continues to maintain capital ratios and resources significantly in excess of its minimum requirement.

Figure 1. Summary of BAMLI DAC's Key Metrics as at 30 June 2019^1

¹All of BAMLI DAC's Tier 1 capital is CET1, therefore CET1 Capital Ratio and Tier 1 Capital ratio are the same.

2. Basis of Preparation

BAMLI DAC financial statements are prepared in accordance with Irish Companies Law and Generally Accepted Accounting Practices. In accordance with these it applies the recognition and measurement requirements of International Financial Reporting Standards ("IFRS") that have been adopted in the EU.

The information contained in these disclosures has been prepared in accordance with the Capital Requirement Directive, on a solo basis. All tables included in these disclosures are as at 30 June 2019, with prior quarter end comparable values as at 31 March 2019.

In addition, the report does not constitute any form of forward looking record or opinion on BAMLI DAC. Although the Pillar 3 disclosure is intended to provide transparent information on a common basis, the information contained in this document may not be directly comparable with the information provided by other banks. Any financial information included herein is unaudited.

This Pillar 3 disclosure is published on BAC's corporate website: http://investor.bankofamerica.com.

3. Capital Resources

Capital Resources represent the amount of regulatory capital available to an entity to cover all risks. Defined under Capital Requirements Directive CRD IV, Capital Resources are designated into two tiers, Tier 1 and Tier 2. Tier 1 capital consists of CET1 and Additional Tier 1 ("AT1"). CET1 is the highest quality of capital and typically represents equity and audited reserves; AT1 usually represents contingent convertible bonds; Tier 2 capital typically consists of subordinated debt and hybrid debt capital instruments.

BAMLI DAC adopted IFRS9 for the accounting of financial instruments on 1 January 2018. The introduction of the expected credit loss ("ECL") model did not result in a material adjustment to equity as at the date of adoption of IFRS9. For this reason, BAMLI DAC is not applying the transitional arrangements for IFRS9.

BAMLI DAC's Capital Resources of €11.7bn (Q1: €11.9bn) consist of Tier 1 and Tier 2 capital. All of BAMLI DAC's Tier 1 capital is made up of CET1, and Tier 2 capital is comprised of subordinated debt.

The decrease in capital resources is driven by movements in exchange rates.

Table 1 Regulatory Capital Resources and Ratios Summary

(Euros in Millions)

Common Equity Tier 1 (CET1) Capital	9,968
Additional Tier 1 (AT1) capital	-
Tier 1 Capital (T1 = CET1 + AT1)	9,968
Tier 2 (T2) Capital	1,757
Total Capital (TC = T1 + T2)	11,725
Total Risk Weighted Assets	52,859
Capital Ratios and Buffers	
Common Equity Tier 1 (as a percentage of risk exposure amount)	18.9%
Tier 1 (as a percentage of risk exposure amount)	18.9%
Total Capital (as a percentage of risk exposure amount)	22.2%

4. Minimum Capital Requirement

BAMLI DAC is subject to a Minimum Capital Requirement set out in the CRR and CBI requirements in order to meet its total SREP capital requirement. BAMLI DAC is required to hold capital in addition to its Minimum Capital Requirement to meet CRD IV buffers and local CBI obligations.

The Minimum Capital Requirement principally comprises of Credit Risk, Counterparty Credit Risk, and Operational Risk requirements. BAMLI DAC has a minimum capital requirement of €4.2bn (Q1: €4.1bn) comprising of the risk requirements outlined in Table 2.

Table 2. Overview of RWAs and Minimum Capital Requirement

			Minimum capital
	RW	/As	requirements
(Euros in Millions)	Q2 2019	Q1 2019	Q2 2019
Credit risk (excluding CCR)	39,936	40,187	3,195
Of which the standardised approach	39,936	40,187	3,195
CCR	2,196	1,557	176
Of which mark to market	708	597	57
Of which CVA	1,478	950	118
Of which financial collateral comprehensive method	10	10	1
Securitisation exposures in the banking book (after the cap)	5,276	4,832	422
Of which standardised approach	5,276	4,832	422
Market risk	702	285	56
Of which the standardised approach	702	285	56
Operational risk	4,749	4,810	380
Of which standardised approach	4,749	4,810	380
Total	52,859	51,671	4,229

4.1 Key Movements in the Quarter

BAMLI DAC's Minimum Capital Requirement increase of €0.1bn during the quarter was primarily driven by an increase in Counterparty Credit Risk of €0.05bn, Securitisations of €0.03bn and Market Risk of €0.03bn.

4.2 Minimum Capital Requirement Approach

BAMLI DAC has adopted the standardised approach for calculating Counterparty Credit Risk, Credit Risk, Operational Risk and Market Risk Capital Requirements. In order to adhere to the standardised rules set out in the CRR, BAMLI DAC uses ratings from External Credit Assessment Institutions ("ECAIs") this includes, Moody's Investors Service, Inc. ("Moody's"), S&P and Fitch. ECAI ratings are used where available for all exposure classes.

4.3 Market Risk

Market risk is the potential change in an instrument's value caused by fluctuations in interest and currency exchange rates, credit spreads or other risks. BAMLI DAC uses a standardised rules maturity based calculation for general market risk. Table 3 presents a breakdown of BAMLI DAC's market risk under the standardised approach.

Table 3 Market Risk under the Standardised Approach

		Capital
(Euros in Millions)	RWAs	requirements
Interest rate risk (general and specific)	592	47
Foreign exchange risk	110	9
Total	702	56

5. Leverage Ratio

The leverage ratio is a measure of Tier 1 capital as a percentage of exposure as defined under the CRR rules.

The requirement for the calculation and reporting of leverage ratios was introduced as part of CRD IV in 2014, and amended by the European Commission Delegated Act (EU) 2015/62 in 2015.

CRD IV does not currently include a minimum Leverage Ratio requirement. In November 2016 the European Commission published a legislative proposal to amend various elements of CRD IV, which included a binding minimum Leverage Ratio requirement of 3%, as well as a number of changes to the calculation of the exposure measure. Based on the draft text of the proposal, it is currently expected that these amendments will become effective from the second quarter of 2021. BAMLI DAC's leverage ratio is in excess of the proposed minimum at 13.5% (Q1 2019 14.3%).

Table 4 Leverage Ratio Summary

(Euros in Millions)	
Tier 1 Capital	9,968
Total Leverge Ratio Exposures	73,908
Leverage Ratio	13.5%

6. Liquidity Coverage Ratio ("LCR") Disclosures

6.1 LCR Disclosure Guidelines

BAMLI DAC is subject to the LCR, which requires BAMLI DAC to hold a sufficient buffer of eligible High Quality Liquid Assets ("HQLA") to cover potential cash outflows during the first 30 days of a liquidity stress event.

6.2 LCR Disclosure Template

Table 5 discloses average weighted values of the liquidity buffer, total net cash outflows and the LCR of BAMLI DAC.

Table 5 LCR Disclosure¹

(Euros in Millions)	Total weighted value (average)			
Quarter ending on	30-Sep-18	31-Dec-18	31-Mar-19	30-Jun-19
Number of data points used in the calculation of averages	12	12	12	12
Liquidity Buffer	1,110	2,409	5,726	9,608
Total Net Cash Outflows	163	1,061	3,348	5,994
Liquidity Coverage Ratio (%)	733%	780%	641%	488%

¹The disclosed values and figures within the liquidity buffer, total net cash outflows, and LCR are simple averages of the preceding twelve LCR monthly reporting observations for each quarter. The twelve month average LCR of 488% includes 7 months of activity following the Cross Border Merger with Bank of America Merrill Lynch International Limited, which was completed on 1 December 2018. As at 30 June 2019, BAMLI DAC's LCR was 153%.

7. Additional Detail on Capital Resources and Leverage

7.1 Additional Detail on Capital Resources

The below table shows a reconciliation between the accounting balance sheet values and the regulatory capital values of the items included in BAMLI DAC's capital resources. Further details on the composition of BAMLI DAC's capital resources are shown in Tables 7 and 8.

Table 6 Regulatory Capital Resources and Reconciliation to Unaudited Balance Sheet as at 30 June 2019

(Euros in Millions)

7.2 Additional Detail on Leverage Ratio

The leverage ratio for a quarter end is calculated using regulatory capital and balance sheet figures at a point in time. The measure of Tier 1 capital used in the computation of BAMLI DAC's ratio is the same under both transitional and fully phased in definitions of Tier 1 capital per CRD IV.

The leverage ratio is monitored in line with regulatory requirements. Exposure is typically managed through a combination of mechanisms including risk appetite limits, collateralisation and netting arrangements. Tables 9, 10 and 11 below give detailed disclosure of the elements included in the leverage ratio calculation.

Table 9 Summary Reconciliation of Accounting Assets and Leverage Ratio Exposures

Total leverage ratio exposure	73,908
Other adjustments	286
Adjustment for off-balance sheet items (ie conversion to credit equivalent amounts of off-balance sheet exposures)	17,926
Adjustments for derivative financial instruments	(1,143)
Total assets as per balance sheet	56,838
(Euros in Millions)	

Table 10 Leverage Ratio Common Disclosure

(Euros in Millions)	
On-Balance Sheet Exposures (excluding derivatives and SFTs)	
On-balance Sheet Items (excluding Derivatives, SFTs and fiduciary assets, but including Collateral)	50,285
Asset Amounts Deducted in Determining Tier 1 Capital	(32)
Total On-Balance Sheet Exposures (excluding derivatives, SFTs and fiduciary assets)	50,253
Derivative Exposures	
Replacement Cost Associated with Derivatives Transactions (net of Eligible Cash Variation Margin)	1,342
Add-on Amounts for PFE Associated with Derivatives Transactions (Mark-to-Market method)	316
(Deductions of Receivables Assets for Cash Variation Margin provided in Derivatives Transactions)	(1,202)
Total Derivative Exposure	456
Securities Financing Transaction Exposures	
Gross SFT Assets (With No Recognition of Netting), after Adjusting for Sales Accounting Transactions	5,273
Total Securities Financing Transaction Exposures	5,273
Off-Balance Sheet Exposures	
Off-balance Sheet Exposures at Gross Notional Amount	39,418
Adjustments for Conversion to Credit Equivalent Amounts	(21,492)
Total Off-Balance Sheet Exposures	17,926
Exempted Exposures	
Capital and Total Exposures	
Tier 1 Capital	9,968
Total Leverage Ratio Exposures	73,908
Leverage Ratio	
Leverage Ratio	13.5%
Choice on Transitional Arrangements and Amount of Derecognised Fiduciary Items	
Choice on Transitional Arrangements for the Definition of the Capital Measure	Fully phased-in
