About Blade

Blade is a technology-powered urban air mobility platform committed to reducing travel friction by providing cost-effective air transportation alternatives to some of the most congested ground routes in the U.S. and abroad. Today, the company predominantly uses helicopters and amphibious aircraft. Its asset-light model, coupled with its exclusive passenger terminal infrastructure, is designed to facilitate a seamless transition to Electric Vertical Aircraft ("EVA" or "eVTOL"), enabling lower cost air mobility to the public that is both quiet and emission-free.
