About ATA Inc.

ATA is the leading provider of computer-based testing services in China. The Company offers comprehensive services for the creation and delivery of computer-based tests based on its proprietary testing technologies and test delivery platform. ATA's computer-based testing services are used for professional licensure and certification tests in various industries, including information technology services, banking, teaching, securities, insurance, and accounting.

ATA's test center network was comprised of 2,016 authorized test centers located throughout China as of December 31, 2010. The Company believes it has the largest test center network of any commercial testing service provider in China. Combined with its test delivery technologies, this network allows ATA's clients to administer large-scale nationwide tests in a consistent, secure, and cost-effective manner.

ATA has delivered more than 40.3 million tests, including more than 30.1 million billable tests, since ATA started operations in 1999. During a single weekend in May 2010, using its test delivery platform, ATA delivered tests to approximately 639,000 test takers for the Securities Association of China.
